**GIANT
CREGO ASTERS**

Stems about two feet in length, each carrying immense flowers of brilliant coloring, often measuring 5 1/4 inches across. The long petals curl across each other fluffily. Blooms from early September and on. The large, double flowers, shapely and well formed, and its earliness, make this one of the finest Asters. 30 inches.

CUSHION 'MUMS

Hardy—Free Flowering

You may plant Salzer's Hardy Cushion Chrysanthemums anywhere in the garden with most pleasing effect, on each side of the steps, along the foundation of the house, in the lawn, in solid beds, or as a border along the boundary line, or to line driveways or walks! They grow rapidly, forming large, round, compact bushes completely covered with simply hundreds of full, double, perfect Chrysanthemum blooms from about September 10 and on until frost.

LOADS OF FLOWERS

We have counted 500 buds and flowers on one two year old plant! Think of it—up to 500 blooms on one single plant. Each plant, the first year, produces such loads of gorgeous flowers that passers-by will look at it in wonder!

We offer **YELLOW CUSHION**, deep yellow; **PINK CUSHION**, light pink; **BRONZE CUSHION**, deep bronze; **RED CUSHION**, deep red flowers; **WHITE CUSHION**, pure white; **HARMONY**, bronze, very early.

Prices: State kind wanted: Each, 39c; any 3 plants for \$1.10; any 6 plants for \$2.00; any 12 for \$3.65, postpaid.

THE UNIVERSITY OF CHICAGO HARDY CHRYSANTHEMUMS

A very fine strain developed after years of intensive selection. They are all hardy, free and early bloomers, and all of them have disease-resistant foliage. The dates indicate their first flowers. Prices are postpaid.

SALZER'S SPECIAL LAWN GRASS MIXTURE

Not the most expensive, nor yet the cheapest, but the best general all around and all purpose Lawn Grass Mixture that we catalog, and the most popular. In addition to a carefully blended mixture of the best grasses, blue grass, red top, etc., Salzer's Special Mixture contains the proper percentage of Dwarf White Dutch Clover, always desirable for the lawn.

Sow the seed early, as soon as frost is out of the ground, to enable the young grass to get a good start before any weeds appear. Contains no timothy. Sow one pound to 200 square feet. 4529— $\frac{1}{2}$ lb., 33c; lb., 54c; 2 lbs., 98c; 5 lbs., \$2.25; 10 lbs., \$4.35, postpaid. Not prepaid: 25 lbs., \$9.25; 100 lbs., \$35.00.

KENTUCKY BLUE GRASS

Also called June Grass. One of the first grasses to start growth in spring. Widely used in lawns. Sow one lb. to 150 square feet. 4479— $\frac{1}{2}$ lb., 37c; lb., 62c; 2 lbs., \$1.10; 5 lbs., \$2.55; 10 lbs., \$4.95, postpaid. Not prepaid: 25 lbs., \$10.85; 100 lbs., \$41.50.

GRIDIRON

Build your lawn with Salzer's Gridiron Lawn Grass Mixture! Salzer's Gridiron Lawn Grass Seed is our finest mixture of various fine leaved grasses, including red top, fescues, blue grass, etc., in the right proportions, tough and strong, carefully blended to give one a strong, durable, luxurious and permanent lawn under trying circumstances. The great American game of football makes terrific demands upon the gridiron fields, and the name "Gridiron" suits this mixture admirably.

Sow one pound to every 200 square feet. It, of course, contains no timothy. 4539— $\frac{1}{2}$ lb., 36c; lb., 60c; 2 lbs., \$1.08; 5 lbs., \$2.50; 10 lbs., \$4.85, postpaid. Not prepaid: 25 lbs., \$10.50; 100 lbs., \$40.00.

Sown with Salzer's Radium Lawn Grass

SALZER'S RADIUM LAWN GRASS MIXTURE

Our Radium Lawn Grass Mixture produces very fine, smooth thick, velvety lawns, and has become very popular. It is composed of practically the same grasses that are used in Salzer's Special Lawn Grass Mixture, but it does not contain any Dwarf White Dutch Clover. Does not contain any timothy.

Sow one pound to 200 square feet, as early in spring as the frost is out of the ground. 4526— $\frac{1}{2}$ lb., 30c; lb., 50c; 2 lbs., 88c; 5 lbs., \$1.99; 10 lbs., \$3.85, postpaid. Not prepaid: 25 lbs., \$8.00; 100 lbs., \$30.00.

SHADY PLACE GRASS MIXTURE

A mixture of fine leaved grasses that are naturally adapted for shady locations. If the ground has been densely shaded and is sour, it is well to apply some lime and fertilizer. Use 1 lb. to 150 square feet. Contains no timothy. 4527— $\frac{1}{2}$ lb., 39c; lb., 64c; 2 lbs., \$1.15; 5 lbs., \$2.65; 10 lbs., \$5.15, postpaid. Not prepaid: 25 lbs., \$11.15; 100 lbs., \$42.50.

EMERALD ISLE

Salzer's famous low priced grass mixture—a big value at the price offered. 1 lb. to 200 sq. ft. 4536— $\frac{1}{2}$ lb., 27c; lb., 45c; 2 lbs., 78c; 5 lbs., \$1.75; 10 lbs., \$3.35, postpaid. Not prepaid: 25 lbs., \$6.75; 100 lbs., \$25.00.

SUB-ZERO ROSES FOR YOUR GARDEN!

BROWNELL SUB-ZERO HYBRID TEAS

A distinct strain of roses that unprotected, has been wintering through 15 degrees below zero for years and if the earth is hilled up about six inches around the plant, these roses have withstood 50 degrees below zero! Hilling up the earth about six inches before snow flies, is the only protection necessary plus tying about 5 layers of newspapers around the tops of the plants, for the coldest parts of the U.S.

Plant these sub-zero roses so the graft joint is 3 inches below bed level, preferably in full sunshine. Half fill the hole with soil, add one half pail water, and fill in balance of soil, then hill up plant with clean loose dirt, to be removed in 10 days. And if your winters are not colder than fifteen below, they need no further care.

M. GAUTHIER—Early, delicate flesh pink. Each, \$1.20.

MISCHIEF—Deep rose pink. One of the best. Each, 75c.

VERA—Deep maroon crimson, very dark. Each, \$1.50.

Single Peony, Fiancee

TWO *Giant Shasta* DAISIES

EDGEBROOK GIANT

Size 6 to 7 inches. Height 26 inches. Early.

This new Shasta Daisy, which we introduced last year, has qualities we believe, not possessed by any other variety. It is a giant in size, the largest we have ever flowered. Immense 6 to 7 inch blooms in great profusion, on long straight stems, and with overlapping, closely set petals. The flowers are flat and form holding. Plant is very hardy and resistant. In a variety test, some years ago, with very unfavorable soil conditions, many varieties failed completely while Edgebrook Giant came through without the loss of a single plant.

While the blooms of Edgebrook Giant are wonderful in size and appearance, one of its greatest qualities is its everblooming habit. We have tested hundreds of types and this comes nearer to being everblooming than any other. In 1944 there were scattering blooms all over the field when an early freeze stopped them. This freeze was followed by some weeks of pleasant weather which brought Edgebrook Giant out again, in a wonderful show. Was \$1.35 per plant last year. Price: Each, \$1.00; 3 for \$2.70, postpaid.

MAJESTIC

Size 5 to 6 inches. Height 28 inches. Early.

It is a hardy grower, withstanding unfavorable conditions. Also offered for the first time last year. Its immense white flowers are real beauties, 5 to 6 inches in diameter, with a small yellow center. Has a double row of straight and overlapping petals making the flowers full and compact, giving it great value in floral designs and bouquets.

The petals of Majestic Shasta Daisy are very stiff with no drooping. Has 28 to 30 inch straight stems. We believe it is the greatest florist cut-flower variety ever introduced, and equally valuable for the garden. To sum up its good points, it has wonderful large flowers, straight long stems for cutting, is a healthy, strong, vigorous grower, is very hardy. Was 95c per plant last year. Price: Each, 75c; 3 for \$1.95, postpaid.

80 Years of

Faithful Service

SALZER BUILDINGS

Dear Friends:

La Crosse, Wisconsin
January 2, 1948

1948 is our 80th year and it is with pleasure we send you our anniversary catalog. Included are some pictures taken over the years, showing the growth and improvements we have made. Today we believe we have one of the finest and most modern plants in the seed industry to serve you. Eighty years ago our founder, John A. Salzer, established a policy of furnishing only the finest seeds obtainable at reasonable prices. That policy is rigidly followed today. You do not pay a premium for Salzer's high standard of quality and selection of seeds, plants, shrubs and other items we list.

This year your garden is going to be more valuable and necessary than ever before. We are committed to furnish food to the destitute people all over the world, and it may be a matter of two or three years before these people can take care of their own needs. In the meantime, we will be called upon in the name of humanity to help them. Your garden will help our situation at home by providing the finest of fresh vegetables for your table. It will help combat inflation. The more you grow, the less you will have to buy. This means more money for other things you need. We hear much talk of the high cost of living these days. Your garden will go a long way towards reducing the cost of food.

Keep a place in the garden for flowers. This year again we are happy to offer new items of flowers, bulbs and plants. You can have lasting beauty from early spring until late fall and get lots of pleasure growing flowers from our seeds, bulbs and plants.

We thank you for your loyalty and patronage over the years and sincerely hope we may serve you again and again in the years to come.

Sincerely,

Kenneth E. Salzer

P.S. Be sure to get our FREE anniversary gift. It is sent with every order of \$1.00 or more.

Giant Bush Lima Bean

**GIANT
BUSH LIMA**

LIMA BEANS

GIANT BUSH

For Size and Flavor Has No Rival

Enormously productive, and bears pods of immense size. Plants are of vigorous growth, with heavy foliage, and of true bush form, the full grown bushes measuring 30 inches in height and 24 inches across the top. Pods are frequently borne in "clusters" of from 5 to 8, are 5 to 6 inches long by 1 1/4 inches wide, and each one is well filled with large, thick, tender, full-size beans of melting and luscious flavor. It is very early, maturing in about 65 days. A universal favorite, because of its earliness, productiveness, size and fine flavor. Lima Beans should not be planted before the soil has warmed up and the weather is quite settled. Good for freezing. Pick when beans reach full size, but while still green and tender.

115—Pkg., 15c; 2 pkgs., 28c; 1/2 lb., 32c; lb., 54c; 2 lbs., \$1.02; 5 lbs., \$2.20, postpaid. Not prepaid: 10 lbs., \$3.90; 60 lbs., \$21.25.

SMALL BUSH OR SIEVA

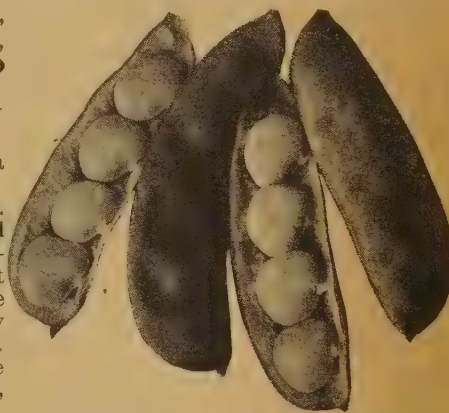

Is the smallest but most prolific of all the white seeded varieties, and as they are hardy and very early, are worth growing in the North. Matures in 70 to 78 days. Of true bush growth, the plants bear a tremendous lot of pods 3 inches long and filled with 3 or 4 light green, small, flat beans, of a sweet and delicious flavor. When mature, the beans are white, and keep well for winter shell beans.

116—Pkg., 14c; 2 pkgs., 26c; 1/2 lb., 31c; lb., 52c; 2 lbs., 97c; 5 lbs., \$2.10, postpaid. Not prepaid: 10 lbs., \$3.70; 60 lbs., \$19.95.

FORDHOOK 242

Large thick beans, three to four to a pod, of extra fine flavor, easy to shell! Pods are uniform and it is a heavy yielder. Early. 73 days. Fordhook 242 sets basal pods in hot, dry weather, a most important point in the South. One trial report shows plants holding up in 102 degree temperatures in the West, hence very valuable where the summers are hot. Very fine both for the market and the home gardener. 112—Pkg., 15c; 2 pkgs.,

28c; 1/2 lb., 32c; lb., 54c; 2 lbs., \$1.02; 5 lbs., \$2.20, postpaid. Not prepaid: 10 lbs., \$3.90; 60 lbs., \$21.25.

Fordhook 242 Bush Limas

EDIBLE SOY BEANS

Of tremendous food value, and easily grown. Fine for diabetics as they are low in starch. Serve green like peas, or bake like navy beans or use in bean soup. Fine for sprouts.

BANSEL—Heavy yielder, plants 24 in. tall, pods 2 1/2 in. long. 120 days. 4312—Pkg., 7c; 2 pkgs., 12c; 1/2 lb., 22c; lb., 37c; 5 lbs., \$1.35, postpaid. Not prepaid: 10 lbs., \$2.20.

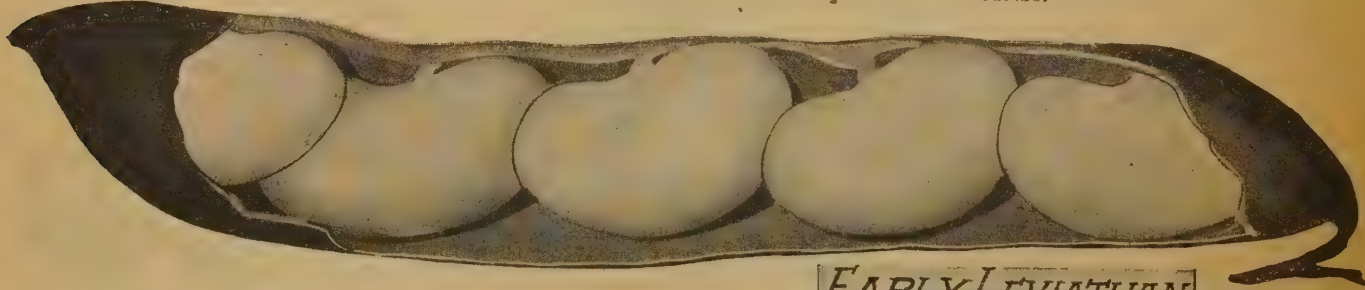

MENDOTA—110 days. Plants 28 in. high, very prolific, pods 2 3/4 in. long. 4313—Pkg., 10c; 2 pkgs., 17c; 1/2 lb., 27c; lb., 46c; 2 lbs., 85c; 5 lbs., \$1.80, postpaid. Not prepaid: 10 lbs., \$3.10.

EARLY LEVIATHAN POLE

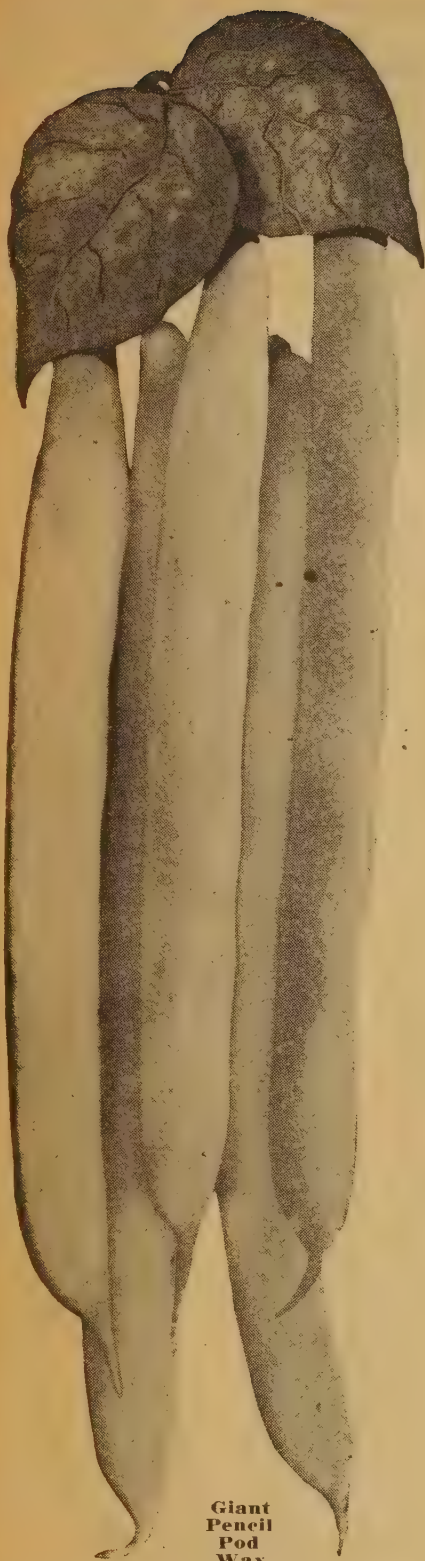

An early, hardy, and prolific bean—the earliest pole lima bean. Heavy cropper. Pods 5x 1 1/4 in., packed with large, thick beans of excellent quality, delicate pale green color, and of a delicious flavor. 125—Pkg., 15c; 2 pkgs., 26c; 1/2 lb., 31c; lb., 52c; 2 lbs., 97c; 5 lbs., \$2.10, postpaid. Not prepaid: 10 lbs., \$3.70; 60 lbs., \$19.95.

IDEAL GIANT POLE

The main crop pole lima bean. Pods are broad, from 6 to 7 inches in length, packed full of very large beans, tender, finely-flavored, green-whitish, and of best quality. Good for freezing. 129—Pkg., 14c; 2 pkgs., 25c; 1/2 lb., 30c; lb., 51c; 2 lbs., 95c; 5 lbs., \$2.05, postpaid. Not prepaid 10 lbs., \$3.60; 60 lbs., \$19.35.

STRINGLESS KIDNEY WAX BEANS

This variety, originated some years ago by an Eastern grower, is a most valuable acquisition to the garden. Robust in growth, with long pods, entirely stringless, fleshy, and of superb quality. Plants are of erect bush habit, about 18 to 20 inches in height, and are most prolific. They are free from all diseases; even in wet seasons the foliage seems to be proof against blight, and the pods are always free from rust. Pods are fleshy, flattened in form, from 6 to 7 inches in length, $\frac{3}{8}$ inch thick, and $\frac{1}{2}$ inch broad, and of a rich lemon-yellow color. They are remarkable for their brittleness, exceptional flavor, and their absolute freedom from strings. Matures in 45 days. Good for freezing and for canning.

64—Pkg., 15c; 2 pkgs., 29c; $\frac{1}{2}$ lb., 35c; 1 lb., 60c; 2 lbs., \$1.13; 5 lbs., \$2.50, postpaid. Not prepaid: 10 lbs., \$4.50; 60 lbs., \$24.85.

GIANT STRINGLESS PENCIL POD WAX BEANS

Its exceptional stringlessness appeals to all. Medium early and prolific. One of the best for home use and near markets. Pods are six to seven inches long. Golden yellow color, straight, brittle, tender and meaty. Fine flavor and entirely stringless. Successive plantings should be made from May to August. Matures in about 45 days. Good for freezing.

57—Pkg., 14c; 2 pkgs., 26c; $\frac{1}{2}$ lb., 33c; 1 lb., 58c; 2 lbs., \$1.11; 5 lbs., \$2.40, postpaid. Not prepaid: 10 lbs., \$4.30; 60 lbs., \$23.65.

ROUND PODDED KIDNEY WAX

The pods measure from five and one-half to six inches, are entirely stringless, round, of light yellow color, very brittle, very handsome, and of the finest quality. It is one of the earliest wax beans grown and very productive. Matures in about 40 days. Also known as "Brittle Wax" beans. Plants are of vigorous growth, with large foliage, and are completely loaded with the handsome pods.

SELECT GOLDEN WAX

The standard flat waxpodd bean, and although it is not the earliest bush wax bean, yet it is so sure to produce heavy crops of large and attractive pods, that it is a great favorite all over with market gardeners. And if good for market gardeners, it is good for the home garden. The pods are of large size, thick-flat, brittle, entirely free from strings, and the quality is excellent. Rich golden yellow, bushes about 10 in. high. It is rustproof, and yields well on all soils. Matures in 45 days.

Green Pod— BOUNTIFUL STRINGLESS BEANS

The earliest and one of the very largest green podded bush varieties grown. On account of its great earliness, its handsome, large, straight pods and its exceptionally fine quality it is one of the best to grow for the market or the home garden.

Bountiful Stringless Beans are of thrifty growth, very hardy, and practically proof against rust or mildew. Pods are stringless, tender, and flat. It is the first to give pods fit to pick in the spring and the last to yield edible pods in the fall. Of a handsome, rich green color, the beans are of large size, thick, broad, flat, extra-long, very uniform in shape, solid, meaty, brittle, and of finest quality. They are absolutely stringless in all stages of growth. Matures in 42 days. Good for freezing. 18—Pkg., 12c; 2 pkgs., 22c; ½ lb., 30c; lb., 49c; 2 lbs., 94c; 5 lbs., \$2.00, postpaid. Not prepaid: 10 lbs., \$3.50; 60 lbs., \$18.85.

COLOSSAL STRINGLESS

An absolutely stringless, green, round-podded bush bean, one of the best for the market or home garden. It is entirely stringless in all stages of growth, from the time the first pods form until fully grown and ready to dry up. The beans are long, smooth, round, stout, light green, about 5 inches or more in length. Very meaty, tender, slightly curved, saddle-backed, and a very heavy cropper. Matures in 45 days. Good for freezing. 20—Pkg., 11c; 2 pkgs., 20c; ½ lb., 28c; lb., 48c; 2 lbs., 90c; 5 lbs., \$1.95, postpaid. Not prepaid: 10 lbs., \$3.40; 60 lbs., \$18.25.

TENDERBEAN

Also called New Stringless Green Pod Bean. A superb green podded bush bean, enormously prolific, entirely stringless, and bearing a profusion of tender beans. The pods are long, slightly curved, round, lovely dark green in color, absolutely free from strings and fibre, and are of the finest eating qualities. Plants are of strong upright dwarf growth. Splendid for canning. Matures in 50 days. Good for freezing. 34—Pkg., 15c; 2 pkgs., 26c; ½ lb., 31c; lb., 52c; 2 lbs., 97c; 5 lbs., \$2.10, postpaid. Not prepaid: 10 lbs., \$3.70; 60 lbs., \$19.95.

EXTRA EARLY TENDER VALENTINE

A splendid early and very prolific variety for market or home use. Extra Early Valentine is the true, round-podded stock, very early, and a very heavy bearer of round, fleshy, saddle-backed pods, finely flavored, with only slight strings. Pods are about 4 ½ inches long, tender and very brittle, even when fully grown. A favorite for canning. Matures in 40 days. 21—Pkg., 12c; 2 pkgs., 22c; ½ lb., 30c; lb., 49c; 2 lbs., 94c; 5 lbs., \$2.00, postpaid. Not prepaid: 10 lbs., \$3.50; 60 lbs., \$18.85.

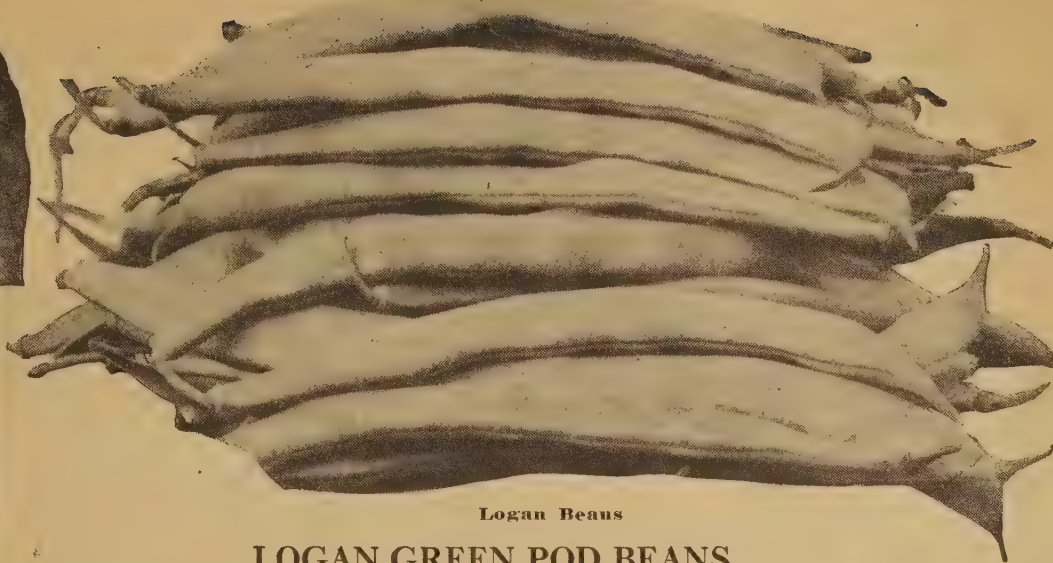

Extra Early Tender Valentine, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: 35—Pkg., 15c; 2 pkgs., 27c; ½ lb., 33c; lb., 54c; 2 lbs., \$1.00; 5 lbs., \$2.20, postpaid. Not prepaid: 10 lbs., \$3.90; 60 lbs., \$20.70.

Burpee's Stringless Green-Pod

Pods medium in length, rich green, slightly curved and extremely thick. Tender, brittle, of fine texture and delicate flavor, absolutely stringless. 45 days. 19—Pkg., 10c; 2 pkgs., 17c; ½ lb., 28c; lb., 47c; 2 lbs., 87c; 5 lbs., \$1.85, postpaid. Not prepaid, 10 lbs., \$3.20; 60 lbs., \$16.75.

Logan Beans

LOGAN GREEN POD BEANS

Very productive, bearing elegant quality beans, stringless, that measure 5 to 5½ inches in length. Vines 14 to 16 inches high, sturdy, mosaic resistant, setting its well clustered pods to lower center of the plant. The pods are medium bright green, crisp and tasty. Withstands hot weather which has reduced production of many varieties. Developed by Dr. B. L. Wade of the U.S.D.A. Be sure to plant some Logan. 23—Pkg., 15c; 2 pkgs., 28c; ½ lb., 35c; lb., 60c; 2 lbs., \$1.13; 5 lbs., \$2.50, postpaid. Not prepaid: 10 lbs., \$4.50; 60 lbs., \$24.85. The early frost in 1947 nipped our Logan in the fields, and the crop is short this year.

Pole Beans

KENTUCKY WONDER GREEN POD—The most popular, most dependable, and finest quality green podded pole bean grown. Also known as OLD HOMESTEAD and TEXAS PROLIFIC. 65 days. If closely picked will continue to bear until frost. Pods are from 9 to 10 inches long, nearly round, much curved, rich green color, meaty, tender, brittle, and entirely stringless. Enormously productive, a peck having been picked from one vine. Good for freezing. 141—Pkg., 15c; 2 pkgs., 28c; ½ lb., 32c; lb., 56c; 2 lbs., \$1.05; 5 lbs., \$2.30, postpaid. Not prepaid: 10 lbs., \$4.10; 60 lbs., \$22.25.

KENTUCKY WONDER WAX—Without exception, the best pole wax bean for Northern planting. It is similar in habit of growth to the "Kentucky Wonder Green Pod," equal in every respect to that famous variety, and matures as early. Very prolific, bearing a fine crop of long, thick, meaty, and very brittle pods of attractive light yellow color. Entirely stringless and of a delicious flavor. Pods average about 8 inches in length. A very heavy yielder, 70 days. 103—Pkg., 15c; 2 pkgs., 28c; ½ lb., 34c; lb., 59c; 2 lbs., \$1.13; 5 lbs., \$2.40, postpaid. Not prepaid: 10 lbs., \$4.30; 60 lbs., \$23.65.

GOLDEN CLUSTER WAX—One of the most popular yellow-podded pole beans in cultivation. Hardy, vigorous, climbs well, and enormously productive. The pods are produced in clusters, and are of excellent flavor, very straight, flat, fine grained, a light waxy yellow color, very brittle, and they remain in edible condition a long time. We have grown pods from this variety, 10 inches long. Also desirable for dry shelled beans for winter. White seeded. 72 days. 101—Pkg., 15c; 2 pkgs., 28c; ½ lb., 35c; lb., 62c; 2 lbs., \$1.17; 5 lbs., \$2.60, postpaid. Not prepaid: 10 lbs., \$4.70; 60 lbs., \$25.95.

Kentucky Wonder Pole, Green Pod

Field Beans

WHITE WONDER — Grown exclusively to use as dried beans during winter. White Wonder is one of the grandest beans for a farm crop that we have ever seen.

The pods are large and filled full of pure white beans which excel even the Navy in baking and cooking qualities. It is very early, maturing dry beans in 75 days. They cook quickly and are of superior flavor. They make about the best baked beans! An upright, bushy grower, holding the pods in thick clusters, well up from the ground. Handsome, plump and best quality. 117—Pkg., 15c; 2 pkgs., 26c; ½ lb., 31c; lb., 52c; 2 lbs., 97c; 5 lbs., \$2.10, postpaid. Not prepaid: 10 lbs., \$3.70; 60 lbs., \$19.95.

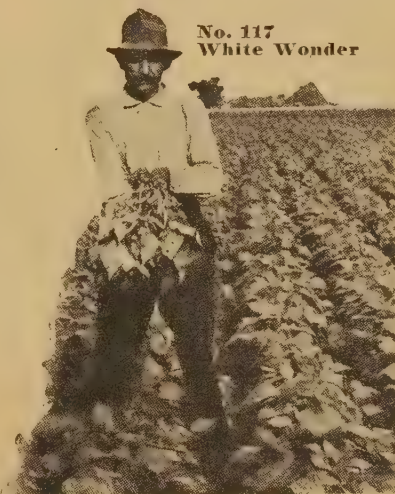

GREAT NORTHERN — A splendid field bean, preferred by many to the navy beans for baking. Excellent quality, fine flavor, cooks rapidly, good size beans, heavy yielder. 135—Pkg., 14c; 2 pkgs., 25c; ½ lb., 30c; lb., 51c; 2 lbs., 95c; 5 lbs., \$2.05, postpaid. Not prepaid: 10 lbs., \$3.60; 60 lbs., \$19.35.

RED KIDNEY Large flat pods well filled with dark red, kidney-shaped beans. Heavy yielder, delicious flavor. 121—Pkg., 15c; 2 pkgs., 28c; ½ lb., 34c; lb., 59c; 2 lbs., \$1.13; 5 lbs., \$2.40, postpaid.

WHITE NAVY

Always popular, yields enormously; makes delicious baked beans. The old standby. 120—Pkg., 14c; 2 pkgs., 25c; ½ lb., 30c; lb., 49c; 2 lbs., 94c; 5 lbs., \$2.00, postpaid. Not prepaid: 10 lbs., \$3.50; 60 lbs., \$18.75.

DETROIT DARK RED

The Unrivalled Main Crop
Beet—Large Beets,
Small Tap Root

Best for Canning

RED BEAUTY

Very early, uniform in size, perfect turnip shape, fine grained, tender, the richest and darkest red of any beet. Red Beauty is a mighty good beet to plant and those who have once planted it, are sure to plant some of this fine beet every year. Its uniformity and its rich, attractive, dark red color sell the beets on sight at market, and for the home garden it not only produces tender, delicious, extremely early beets for table use, but the color is retained when cooked, making them most attractive for both canning and pickling.

Remarkable for its uniform, perfect shape; roots are always smooth, but with a small tap-root, are of medium size, flesh is finely grained, very sweet, always free from woody fibres, and the skin and flesh are the darkest red of any beet. The leaves are dark green and shaded with red, are very small and of upright growth, allowing close planting. A heavy cropper, maturing in about 40 days. 166—Pkg., 15c; oz., 26c; ¼ lb., 77c; ½ lb., \$1.45; lb., \$2.75, postpaid.

Should Be in Every Garden

Best for Main Crop

DETROIT DARK RED

Cannot be surpassed for main crop purposes. One of the largest beets grown and a heavy cropper, producing large, globe shaped roots, delicious, tender, and fine grained, small tap-root, and free from any trace of woodiness or stringy tendency. Succeeds equally well at all seasons and is one of the best to sow in spring to succeed the extra early and medium crop sorts.

The skin is an attractive blood-red and the flesh is dark red, practically zoneless. It is a popular variety for canning retaining its fine color exceptionally well. Tops are small and grow upright. Flesh is solid, always tender and of a decidedly sweet flavor. 50 days. Most valuable for succession sowings. A great favorite, for both home and market. 159—Pkg., 5c; oz., 21c; ¼ lb., 64c; ½ lb., \$1.15; lb., \$2.10, postpaid.

WORLD'S

PRIZE
BEET

CHERRY BEET

We first offered Cherry Beet in 1933, the memorable Chicago World's Fair year, as the Unknown Beet, and thousands planted it, to find it one of the nicest beets grown! **Cherry Beet** is a small, early beet, maturing in 52 days and is especially fine for canning and pickling whole at 1 1/4 to 1 1/2 inches in diameter. Roots are smooth, even in size and shape and almost perfectly globular. Tops and tap roots are very small. The flesh is an intense deep crimson, free from white zones, elegant in quality.

Yields heavily. While it is a splendid beet for canning, its attractive color and small uniform size make it ideal for daily table use. The flesh is so fine grained, so sweet and tasty, that it almost sets a new standard for beet quality! Fine for both home and market. 160—Pkg., 10c; oz., 22c; 2 oz., 38c; 1/4 lb., 65c; 1/2 lb., \$1.19; lb., \$2.25, postpaid.

CROSBY'S EGYPTIAN

One of the most extensively grown of any variety of beets, by market gardeners. It is noted for its handsome form, small tops, very small tap-root, fine quality and quick, rapid growth. Roots

run uniform in size and shape, are rather flattened, turnip shaped, reach a good size, are tender and crisp. Flesh is an attractive dark red color with slightly lighter red zonings. Especially desirable for bunching for the early market. Takes on its turnip shape very early. Matures in 45 days. Also fine for the home gardener. We specialize in beet seed and we don't believe any better strains can be purchased.

158—Pkg., 7c; oz., 19c; 1/4 lb., 59c; 1/2 lb., \$1.10; lb., \$1.95; postpaid.

178—Crosby's Egyptian, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special re-selected strain certified by THREE-WAY tests: Pkg., 10c; oz., 23c; 1/4 lb., 67c; 1/2 lb., \$1.23; lb., \$2.35, postpaid.

EARLY WONDER BEETS

Its beautiful deep blood-red color, nearly globe-shaped root with almost no lighter zoning in the cross-section of the root, its small sized top and its smooth, clean, and small tap-root makes it a decided asset in the beet family. Matures evenly so that the entire crop may be gathered at one time. It is a very rapid grower, is very quickly in presentable market shape, and because of its early maturity, it can be sown outside as late as July. Matures in 44 days.

177—Pkg., 5c; oz., 19c; 1/4 lb., 59c; 1/2 lb., \$1.10; lb., \$1.95, postpaid.

175—Early Wonder, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: Pkg., 10c; oz., 23c; 1/4 lb., 67c; 1/2 lb., \$1.23; lb., \$2.35, ppd.

FIREBALL

A handsome, globe-shaped beet with smooth skin and of an attractive deep blood-red color, of perfect globe form and superior in quality, having very fine grained, rich and exceedingly tender flesh of excellent quality. The roots are uniform, medium sized, of perfect globe shape, remarkably smooth surface, very small tap-root, and the color of the skin and flesh is a brilliant, fiery red. This intensity of color is retained when cooked.

167—Pkg., 5c; oz., 21c; 1/4 lb., 62c; 1/2 lb., \$1.12; lb., \$2.10, postpaid.

CLIFFWOOD GIANT
SWISS CHARD

SWISS CHARD OR SPINACH BEET

Also known as Sea Kale. Is grown for its stalks and leaves, which grow large and upright and as they are cut, more come from the center. The mid-rib or center stem of each leaf is large, broad, and white, and after trimming can be cooked and served like asparagus. The leaf part is cooked like spinach.

CLIFFWOOD GIANT. A strain of Swiss Chard, with extra large stalks and large leaves, heavily crumpled and tender, of superior quality, and of fine flavor. 179—Pkg., 12c; oz., 19c; 1/4 lb., 65c; 1/2 lb., \$1.15; lb., \$1.95, postpaid.

LUCULLUS. Stalks very large, broad and thick. Leaves tender, heavily crumpled and of fine flavor. 172—Pkg., 10c; oz., 17c; 1/4 lb., 55c; 1/2 lb., 95c; lb., \$1.75, postpaid.

LARGE RIBBED WHITE. Very broad, thick mid-ribs, but the leaves are plain and for this reason preferred by many. Tender, fine quality. 169—Pkg., 10c; oz., 18c; 1/4 lb., 60c; 1/2 lb., \$1.00; lb., \$1.85, postpaid.

RUBY CHARD. The stalks are a bright crimson, with the rich green leaves heavily crumpled. Lovely appearance, fine quality, very tender! 55 days. 180—Pkg., 14c; oz., 24c; 1/4 lb., 72c; 1/2 lb., \$1.34; lb., \$2.50, postpaid.

Cabbage Plants in Two Inches of Snow

Frost Proof—That is exactly what we mean; in fact, we claim more than that. If the plants do not withstand twelve degrees below freezing (20 degrees above zero) we will either replace them or refund your money. Nor is that all, you can plant Salzer's Frost Proof Plants out in the open just as soon as you can get them into the soil. Once in the soil, the land freezing, or the plants being covered with ice, sleet or snow will do no injury, unless the temperature gets below 20 degrees above zero (frequently not then).

We ship Salzer's Frost Proof Cabbage Plants all over the United States and we guarantee arrival in good condition. Salzer's Frost Proof Cabbage Plants will speed up your cabbage crop by ten to fifteen days!

SPECIAL NOTICE

The plants when received may be somewhat wilted and have a stunted appearance. Regardless of appearance, they will produce results superior to common or home grown plants.

Be sure to state when we shall send your Cabbage Plants, otherwise we will use our own judgment. Shipping weight 15 lbs. per 1000 plants; 25 lbs. per crate of 2500. Plants direct from our growing station. Ready from January 15 to June 15. We cannot accept orders for 25 plants of one variety. No C.O.D. shipments.

Lightning

CABBAGE

LIGHTNING

Lightning Cabbage is an extremely early cabbage, very valuable for the home garden, for the market gardener, and for shipping. The handsome heads are conical or pointed, and are usually about 8 inches long, about 6 inches thick near the base, and are firm and solid. The heads average 2½ pounds in weight, which is remarkable when one considers its earliness.

First introduced by us in 1889, Lightning was pronounced by one and all the greatest addition for the past FIFTY YEARS to the cabbage family. Produces fine sized, marketable heads in 75 DAYS FROM SOWING OF THE SEED. Thousands of gardeners are now depending on Lightning for their first early crop. It is very hardy, always sure to head and almost always the **earliest in the market**. The heads are blanched. The plants resist cold and are very hardy, are compact, have but very few outer leaves, can therefore be planted closely together and yield a large crop per acre.

LIGHTNING is often ripe and solid when other sorts are still in leaves. We consider it without an equal in earliness, richness and deliciousness of flavor. No vegetable pays better than early cabbage. If you are a market gardener, you will want this; if you have a city garden, you cannot get along without it. If you wish about the **EARLIEST CABBAGE** in the world, you must plant **LIGHTNING**.

218—Pkg., 15c; ½ oz., 23c; oz., 40c; 2 oz., 76c; ¼ lb., \$1.29; ½ lb., \$2.40; lb., \$4.50, postpaid.

EARLY JERSEY WAKEFIELD

A splendid extra-early cabbage that enables gardeners to get high prices by marketing the early crops. The plants are exceedingly hardy. Heads are of medium size, very solid, uniformly pointed and of excellent quality with a solid, well blanched heart. Matures about 10 days later than Lightning.

214—Pkg., 5c; oz., 28c; 2 oz., 50c; ¼ lb., 85c; ½ lb., \$1.60; lb., \$2.95, postpaid.

222—Early Jersey Wakefield, Salzer's Cliffwood Farm **TRIPLE-A-TESTED**—A special reselected strain certified by **THREE-WAY** tests. Pkg., 10c; oz., 32c; 2 oz., 58c; ¼ lb., 97c; ½ lb., \$1.80; lb., \$3.35, postpaid.

EARLY RADIO

A very early Round Head Cabbage, maturing in 75 days just like the Famous Lightning, which, however, is a conical head cabbage. The hard, round cabbages are so very solid that they hardly ever burst. Plants are very compact, short stemmed and have so few outer leaves that they may be set as close as 8 inches apart. Heads are firm, crisp, solid and have a clear white heart, which is tender and delicious. Heads 7 in. in diameter and up to 4 pounds in weight. Good keeper. 221—Pkg., 15c; ½ oz., 22c; oz., 37c; 2 oz., 70c; ¼ lb., \$1.14; ½ lb., \$2.10; lb., \$4.00, postpaid.

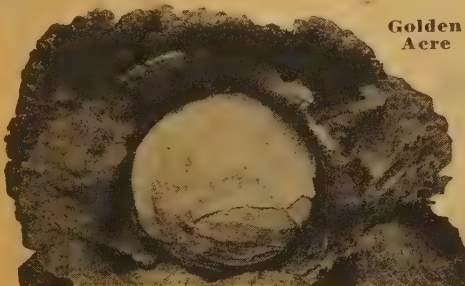

GOLDEN ACRE

Matures hard, round heads, nine inches in diameter in about 80 days. Remarkably uniform in size. The heads are extremely hard, solid and heavy. Heart is nicely blanched and of exceptional quality. Is a splendid shipper. Stem is short.

220—Pkg., 10c; ½ oz., 21c; oz., 35c; 2 oz., 66c; ¼ lb., \$1.05; ½ lb., \$1.95; lb., \$3.75, postpaid.

223—Golden Acre, Salzer's Cliffwood Farm **TRIPLE-A-TESTED**—A special reselected strain certified by **THREE-WAY** tests. Pkg., 15c; ½ oz., 23c; oz., 39c; 2 oz., 75c; ¼ lb., \$1.28; ½ lb., \$2.25; lb., \$4.15, postpaid.

COPENHAGEN MARKET

A second early cabbage, with hard, solid, heavy heads, nearly round, averaging about 10 pounds in weight. 85 days. 244—Pkg., 10c; ½ oz., 18c; oz., 28c; 2 oz., 50c; ¼ lb., 85c; ½ lb., \$1.60; lb., \$3.00, postpaid.

Penn State Ballhead

PENN STATE BALLHEAD

Developed by the Pennsylvania State College of Horticulture, this splendid strain has yielded heads weighing 25 pounds each, and there are records of yields of as much as 26 tons per acre in this country. A splendid late variety.

The heads are large, round, very compact, and are produced uniformly under many different conditions. Shows a marked resistance to Black Leg. The heavy heads are of the best keeping qualities.

263—Pkg., 15c; ½ oz., 21c; oz., 35c; 2 oz., 66c; ¼ lb., \$1.05; ½ lb., \$1.95; lb., \$3.75, postpaid.

All Head Early

Heavy 7 pound heads, about 9 in. broad, flat globe shape with rounded tops, maturing in 78 days. Creamy white interior, crisp and hard. Good keeper. 229—Pkg., 10c; oz., 32c; 2 oz., 58c; ¼ lb., 92c; ½ lb., \$1.70; lb., \$3.25, postpaid.

GIANT FLAT DUTCH

The Grandest, Best Keeping, Surest Heading, Large Cabbage in the World

For over one half a century this grand cabbage has held absolute sway as one of the leaders of all late flat cabbages. So famous and well-known has it become, that it is not an uncommon occurrence for stores to give the preference to market gardeners who can furnish them with these large, solid, heavy cabbages. It is surprising how many of the retail customers insist upon purchasing only the famous Giant Flat Dutch Cabbages for winter use. They know that its flavor, quality, and tenderness is unequalled by any other variety.

Always In Great Demand

On the city markets, the attractive, fine appearing heads sell themselves to thrifty purchasers. The home gardener who once plants this superb variety, finds it so far superior in every respect to many other late sorts that he has ever tried, that where Giant Flat Dutch Cabbage has once gotten a foot-hold in a garden, it has never been supplanted by other varieties, but is sown year after year. Unsurpassed in quality and taste, sureness of heading, weight, size, attractiveness, far superior for sauerkraut and slaw. Once planted, always planted. We recommend it as one of the greatest late flat cabbage ever introduced, and among the finest of any in existence.

A Sure Header

For sureness in heading and regularity in growth. GIANT FLAT DUTCH CABBAGE certainly heads the list. Heads are 12 to 14 inches in diameter, averaging 18 to 20 pounds in weight. It forms every time, very large, very hard, solid heads, crisp, tender, sweet, uniform in shape, color and handsome appearance. It has a very short stem, is a very compact grower, forms few loose leaves, which

turn into the head and if planted closely will yield enormous crops. Reports of 999 marketable heads from 1,000 plants set out, have been reported. It keeps well until late in Spring and is good for shipping.

250—Price of Giant Flat Dutch Cabbage: Pkg., 15c; ½ oz., 23c; oz., 40c; 2 oz., 76c; ¼ lb., \$1.29; ½ lb., \$2.40; lb., \$4.50, postpaid.

Gives Big Results Everywhere

Mr. Gordon Shelley, Main St., Box 43, Waterport, N. Y., writes,

"I set 100 plants of your Giant Flat Dutch Cabbage, and gathered 99 large heads, and oh! what kraut."

Mrs. A. Dreier, 917 Lake St., Sandpoint, Idaho, writes,

"We raised one head of your cabbage that weighed twenty pounds. We store our cabbage covered with canvas, on an open back porch and it keeps all winter."

Mr. Fred Wiggers, R. D. 2, Lincoln, Illinois, writes,

"For late cabbage, we have never found anything in the last ten years that equals Salzer's Giant Flat Dutch."

Mrs. John Corressell, R. D. 2, Mt. Vernon, Indiana, writes,

"We tried Salzer's Giant Flat Dutch Cabbage last year and were very well pleased with it."

Your seeds last year were very satisfactory and produced a good crop.—
Mr. W. B. Hancock, 30 Vose St., Hyde Park, Mass.

Salzer's Carrots — Earliest Coreless

PRIZE
WINNER

EARLIEST CORELESS

The Earliest,
Sweetest,
Most Tender,
and
Only Really
Coreless Carrot
Grown

The peer of all carrots—the grandest carrot in cultivation! Market Gardeners, if you want highest, top-notch prices, you must plant Earliest Coreless Carrot. Home Gardeners, if you want to have carrots that will be a real treat for your own table use, carrots that you will take pride in showing to your neighbor, you must plant Earliest Coreless. A carrot that we think is in a class all by itself, and has been ever since it was introduced by us over forty years ago.

Earliest Coreless Carrot reigns supreme in the carrot world. Those who once plant it never discard this incomparable strain. Those who have never planted it, are missing a real treat. Earliest Coreless will demonstrate what splendid flavor, what tenderness, what attractive color, what lusciousness, what symmetry, can be bred into carrots. When planting seeds, the best is none too good. It is the cheapest in the end as everyone knows, and whenever you go out in the garden to get some carrots for dinner, you will be mighty glad that you planted Salzer's Seeds.

It is a beautiful variety. It is exceptionally uniform in shape, of fine texture and entirely free of any heart and is very early, maturing about a week ahead of all other half long sorts, although fully as productive as any of them, the roots usually measuring 6 to 7 inches in length and 1½ inches through.

Earliest Coreless in its shape and color is one of the most handsome of Carrots. The roots are of cylindrical form, blunt at the end, very symmetrical, smooth skin, fine neck and small top. The color is a beautiful red, brighter and deeper than that of any other Carrot. It is a color that will draw the attention of the buyer on the market.

But the greatest feature of this fine variety is the entire absence of the stringy, coarse heart or core found in so many Carrots. It is of most delicious quality and owing to the fine texture of the red flesh and its tender, delicate flavor, Earliest Coreless is called the sweetest of all Carrots by all those who have tasted it.

295—Pkg., 10c; oz., 39c; 2 oz., 70c; ¼ lb., \$1.20; ½ lb., \$1.95; lb., \$3.50, postpaid.

309—Salzer's Earliest Coreless, Cliffwood Farm TRIPLE-A-TESTED—A specially reselected strain certified by THREE-WAY tests: Pkg., 15c; oz., 43c; 2 oz., 78c; ¼ lb., \$1.34; ½ lb., \$2.20; lb., \$3.95, postpaid.

IMPERATOR

An All American selection of 1933: Carrots 7 to 8 inches long, deep orange colored skin, flesh deep orange with practically no core, fine texture, elegant quality, abundant cropper. The tops are just right for bunching. Very attractive appearance and desirable for home or market. Early. 312—Pkg., 10c; oz., 25c; 2 oz., 44c; ¼ lb., 74c; ½ lb., \$1.39; lb., \$2.65, postpaid.

CHANTENAY

Also called Model, Chantenay is one of the most popular carrots grown today. A half-long, stump-rooted sort, and very popular for bunching or as a bushel carrot. It averages 6 to 7 inches in length, is broad at the neck and narrows gradually to a round, blunt base. The flesh is a rich, orange-red, fine grained, tender, juicy, and remarkably free from core. 292—Pkg., 10c; oz., 27c; 2 oz., 46c; ¼ lb., 80c; ½ lb., \$1.50; lb., \$2.85, postpaid.

RED CORED CHANTENAY

The roots measure about six inches in length, they are very thick, free from large eyes and side rootlets, medium early, and run very uniform in shape, with medium sized tops, making them ideal for bunching. Flesh tender, sweet and juicy; tender, delicate, handsome rich red core, with no trace of yellow, and of almost the same shade as the attractive orange-red flesh itself. Medium early, yields heavily.

307—Pkg., 10c; oz., 26c; 2 oz., 45c; ¼ lb., 77c; ½ lb., \$1.45; lb., \$2.75, postpaid.

310—Red Cored Chantenay, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests. Pkg., 15c; oz., 31c; 2 oz., 50c; ¼ lb., 92c; ½ lb., \$1.70; lb., \$3.25, postpaid.

IMPROVED LONG ORANGE

Very handsome, straight, smooth roots of bright red color, frequently 12 inches long, and 2 inches in diameter at the neck. Does best in light, well prepared soil. A splendid carrot for table use and field culture, combining great productiveness with fine regular shape, and has tender sweet flesh. 300—Pkg., 10c; oz., 24c; 2 oz., 44c; ¼ lb., 72c; ½ lb., \$1.35; lb., \$2.50, postpaid.

Nantes, Stump-Rooted

NANTES, STUMP-ROOTED

An early carrot, particularly desirable for frame culture and one of the best for home garden and early market. Tops small, bright orange roots 6 to 7 inches long and 1½ inches thick, cylindrical, smooth, and blunt or stump rooted. Flesh is red, sweet, and almost entirely devoid of core. 308—Pkg., 10c; oz., 26c; 2 oz., 47c; ¼ lb., 78c; ½ lb., \$1.45; lb., \$2.75, postpaid.

MASTODON FIELD CARROTS

Field carrots are of high nutritive value and the wise dairyman will feed carrots to his cows. Mastodon Field Carrot is the most productive variety and is easily harvested. It is of creamy white color with a green crown. Roots are smooth, 8 to 10 inches long, about 3 inches broad, and taper gradually to the bottom. The flesh is white and very nutritious. Splendid keeper, big cropper. 1468—Pkg., 5c; oz., 23c; 2 oz., 39c; ¼ lb., 68c; ½ lb., \$1.23; lb., \$2.35, postpaid.

SOW SALZER'S SEEDS

I am very pleased with the plants and seeds we purchased from you.—Mr. S. E. Stringham, 212 Florence St., Jackson, Mo.

I like the very high quality of the nursery stock I have purchased from you.—Anna L. Parks, Wildwood Ave., Newark, Ohio.

I have planted your seeds before, and they are just the best we have ever sown.—Mr. John Lyttle, 120 White St., Shelby, Mich.

HOTKAPS. Protect your young plants with these little "green-houses." See Page 59.

CHICORY WHIT-LOOF

CHICORY OR FRENCH ENDIVE. The plants make a delicious winter salad. Lift the roots in fall and store until wanted for forcing. Then plant upright in the cellar. 359—Pkg., 10c; ½ oz., 29c; oz., 49c; ¼ lb., \$1.65, postpaid.

LARGE ROOTED OR COFFEE CHICORY. A root grown like carrots, when dried and roasted, if added to coffee, imparts richness and flavor. The young leaves are excellent salad. 358—Pkg., 10c; ½ oz., 25c; oz., 44c; ¼ lb., \$1.50, postpaid.

MIDSUMMER

A mid-season variety, excellent for the home gardener and a splendid carrot for bunching for market. The handsome, smooth roots are about 8 inches long and about 1¾ to 2 inches across at the shoulder. Cylindrical in shape and usually well stump rooted. In color it is a deep orange, flesh tender and of excellent quality. 296—Pkg., 10c; oz., 23c; 2 oz., 39c; ¼ lb., 68c; ½ lb., \$1.23; lb., \$2.35, postpaid.

Midsummer Carrots

MORSE'S BUNCHING

A cylindrical, half-long carrot, of ideal size and shape for bunching for market, and elegant for the home garden. Deep orange color, small indistinct core, fine grained flesh, small neck and short tops, ships well. 311—Pkg., 10c; oz., 24c; 2 oz., 44c; ¼ lb., 72c; ½ lb., \$1.35; lb., \$2.50, postpaid.

OXHEART

Also known as Guerande. The best and most popular of the short, thick-formed carrots. It is a heavy yielder and because of its shape it is highly desirable for heavy soils. The roots are about 5 inches long, 3¾ to 4 inches wide at the shoulder and taper down to a 2-inch stump-rooted bottom. Of the finest quality. Both skin and flesh are rich orange colored.

302—Pkg., 10c; oz., 27c; 2 oz., 46c; ¼ lb., 80c; ½ lb., \$1.50; lb., \$2.85, postpaid.

Cauliflower

SUPER SNOWBALL

A superior strain, well named as Super, of Early Snowball Cauliflower, about 5 days later but having a larger and heavier head. The immense heads have smooth, solid, snow white curds very compact and of best quality, and the crop matures nearly all at one time. Super Snowball surpasses all others in heaviness and uniformity of maturity.

325—Pkg., 25c; 1/4 oz., 50c; 1/2 oz., 92c; 1/2 oz., \$1.69; oz., \$3.25; 2 oz., \$6.15, postpaid.

EARLY SNOWDRIFT

Also called White Mountain. Famous for its large firm heads which are very white! The heads weigh up to two pounds, are deep and compact, free from leaflets, very white, of excellent quality. Ours is a very fine strain. 95 days. Good for freezing.

330—Pkg., 20c; 1/4 oz., 45c; 1/2 oz., 85c; 1/2 oz., \$1.57; oz., \$2.95; 2 oz., \$5.60, postpaid.

EARLY SNOWBALL

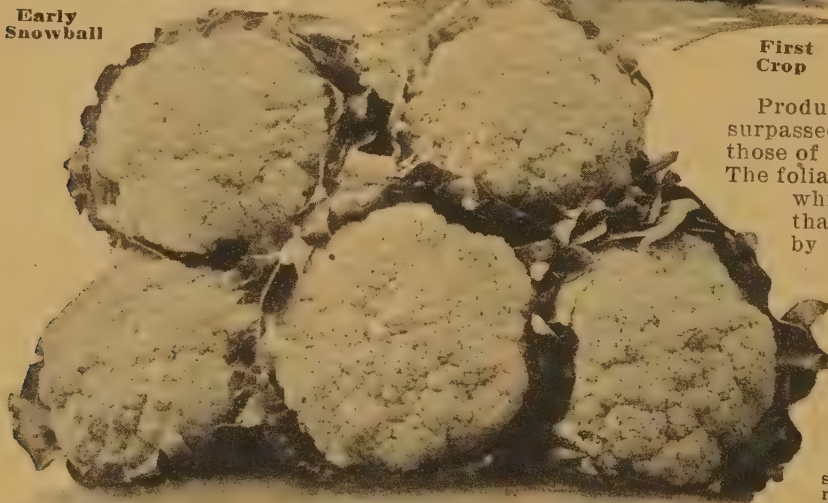

Extremely popular in all sections of the country. For planting at all seasons, and as an all purpose cauliflower it is unsurpassed.

Matures in about 97 days, producing uniform heads of large size, handsome form, and exquisite quality, which are good sellers in every market. Early Snowball is the standard variety by which all other sorts are judged. The heads are smooth, solid, snowy white, with compact curds of excellent flavor and quality. Good for freezing.

319—Pkg., 12c; 1/4 oz., 68c; 1/2 oz., \$1.23; oz., \$2.35; 2 oz., \$4.45, postpaid.

327—Early Snowball, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain: Pkg., 17c; 1/4 oz., 79c; 1/2 oz., \$1.45; oz., \$2.80; 2 oz., \$5.35, postpaid.

Early Snowball

EARLIEST SUREHEAD

IT HEADS WHERE OTHERS FAIL

Grandest of all! Whether for forcing or open ground, planted early or late, it is the best, surest header of all. It is particularly desirable for forcing under glass. On our trial grounds every plant produced a SUPERB HEAD AND SURPASSED ALL OTHER VARIETIES OF EQUAL SIZE IN EARLINESS AND QUALITY.

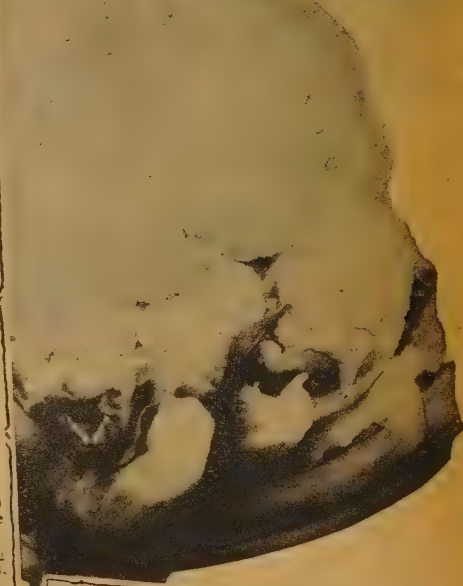

The plants are of strong growth with erect, dark green, pointed leaves, growing closely about the heads, which are pure snowy white, with very close and compact curds of wonderfully fine quality. The heads are of large size, often reaching 10 inches or more in diameter.

This sureness of heading is highly essential to the market gardener and just as necessary for the home gardener. To make the best heads, cauliflower plants need cool, moist weather, good soil and thorough cultivation. Earliest Surehead matures in about 95 days and is a sure header.

317—Pkg., 15c; 1/4 oz., 75c; 1/2 oz., \$1.40; oz., \$2.70; 2 oz., \$5.00, postpaid.

328—Earliest Surehead Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain: Pkg., 20c; 1/4 oz., 86c; 1/2 oz., \$1.60; oz., \$3.00; 2 oz., \$5.65, postpaid.

Earliest Surehead

FIRST CROP

A grand, distinct, extremely early variety. A splendid market gardener's variety, with stone-hard, snow-white heads.

Being of dwarf, compact growth, with but a small number of leaves, it is an ideal Cauliflower for forcing during winter and spring. Severe tests have proved it absolutely certain to head when conditions are ordinarily favorable, and also most uniform in growth, type and maturity, the crops being taken off almost clean at the first cutting. One characteristic of this novelty is the close sitting together of the leaves, enfolding the head tightly and causing the inner leaves almost to cover the flower, thereby avoiding the necessity of early tying up.

The heads are very beautiful, solid, snow white, of medium size, which will find a ready sale at the highest prices everywhere and will never fail to be appreciated.

321—Pkg., 12c; 1/4 oz., 77c; 1/2 oz., \$1.42; oz., \$2.75; 2 oz., \$5.25, postpaid.

First Crop

DRY WEATHER OR DANISH GIANT

Produces stone-hard and snow-white heads, unsurpassed in quality, which average larger than those of the famous Surehead, but are a week later. The foliage is very heavy, fully protecting the heads, which are less liable to blight in hot weather than those of the earlier sorts. As indicated by the name, for dry, hot climates it is to be preferred to all other sorts, being a sure header there when other sorts fail. Even in the driest weather, it is of a vigorous growth.

316—Pkg., 15c; 1/4 oz., 69c; 1/2 oz., \$1.25; oz., \$2.45; 2 oz., \$4.60, postpaid.

329—Danish Giant, Salzer's Cliffwood Farm, TRIPLE-A-TESTED—A special reselected strain: Pkg., 20c; 1/4 oz., 80c; 1/2 oz., \$1.50; oz., \$2.85; 2 oz., \$5.40, postpaid.

EARLY PARIS

Extremely early, dwarf, having fine white heads, solid and compact curds. Quality is good. This variety is a real bargain and remains very much in demand with our customers. 318—Pkg., 12c; 1/4 oz., 68c; 1/2 oz., \$1.23; oz., \$2.35; 2 oz., \$4.45, postpaid.

326—Early Paris, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: Pkg., 17c; 1/4 oz., 79c; 1/2 oz., \$1.45; oz., \$2.80; 2 oz., \$5.35, postpaid.

CELERY

YELLOW VARIETIES

Wonderful—Also known as Golden Plume. Early, crisp, solid, brittle, fine nutty flavor, blanches quickly with a full heart and a rich golden yellow color. The stalks are fairly long, very thick set, making a compact bunch. It appears to be more disease resistant than other yellow celeries and is a very desirable variety. 112-117 days. Fine for home garden, market, and it ships well. Heavy yielder. 345—Pkg., 15c; oz., 89c; 2 oz., \$1.65; ¼ lb., \$3.10; ½ lb., \$5.65; lb., \$11.00, postpaid.

347—Salzer's Wonderful, Cliffwood Farm **TRIPLE-A-TESTED**—A special reselected strain certified by THREE-WAY tests: Pkg., 20c; oz., 95c; 2 oz., \$1.78; ¼ lb., \$3.35; ½ lb., \$6.40; lb., \$12.25, postpaid.

Golden Self-Blanching—Or Paris Golden. This French strain is widely popular with market gardeners and shippers. The plants are medium tall, stocky, compact and erect, with yellow green foliage, blanching very easily to creamy yellow stalks, and golden yellow foliage. Stalks are broad, of medium length, crisp and good flavor. 118 days. 333—Pkg., 15c; oz., 93c; 2 oz., \$1.75; ¼ lb., \$3.25; ½ lb., \$6.20; lb., \$12.00, postpaid.

GREEN VARIETIES

UTAH SPECIAL—Or Salt Lake. Very desirable, plants stocky, medium tall, full hearted and compact, blanches readily. The stalks are thick, solid, medium broad and full rounded, of nutty flavor and very flavorful. Not adapted to long shipping because of its tenderness. 125 days. 346—Pkg., 15c; oz., 82c; 2 oz., \$1.55; ¼ lb., \$2.75; ½ lb., \$5.25; lb., \$10.00, postpaid.

4TH OF JULY OR INDEPENDENCE

The **LARGEST EARED** and **HEAVI-EST YIELDING EXTRA EARLY SWEET CORN**, bar none. A great seller at market. **Sixty days from planting** one should pluck mature sweet corn, so that at your 4th of July dinner you can serve sweet, luscious, tender, finest quality corn on the cob—**ears 10 inches and more in length**, each having 10 to 12 rows, symmetrical, handsome, and with nicely rounded rather blunt, tips.

The vigorous stalks grow about five feet high and frequently produce two fine long ears, 10 to 12 rowed, and about 10 inches long, which are very symmetrical and handsome. The grains, which are tightly set, are large, deeper than broad, very white, and are of an exquisite fine quality, sweet and sugary. Not a hybrid corn.

Mr. Harold Grote, Box 145, Hoyleton, Ill., writes, "Your Fourth of July Sweet Corn is the earliest and the best that we have ever raised. We wouldn't want to be without it." The illustration is from our 4th of July corn growing on the Harold Josephson Farm, Lake Geneva, Wis. **373—Pkg., 14c; 2 pkgs., 22c; ½ lb., 32c; 1b., 52c; 2 lbs., \$1.00; 5 lbs., \$2.30, postpaid. Not prepaid: 10 lbs., \$3.60; 50 lbs., \$16.45.**

Honey Boy—

Unusually early, unusually sweet, high in sugar

content, handsome, attractive, tender and juicy.

Like all extra-early varieties, the stalks are slender and grow $4\frac{1}{2}$ to 5 feet high, and the ears are about sixteen inches above the ground. Being a free stooler, it shoots up many stalks, hence is a heavy yielder. Ears are straight and uniform, handsome, nicely rounded at the tips, average 7 inches in length and contain 12 to 14 rows of creamy white, fat, plump, sweet and delicious kernels.

Price of Honey Boy: 366—Pkg., 11c; 2 pkgs., 19c; $\frac{1}{2}$ lb., 29c; lb., 50c; 2 lbs., 95c; 5 lbs., \$2.20, postpaid. Not prepaid: 10 lbs., \$3.40; 50 lbs., \$15.45.

GOLDEN SUNSHINE

Stalks are $4\frac{1}{2}$ feet high, usually carrying 2 or more fine ears about 7 inches long which are 12-rowed and packed with broad, deep, rich golden yellow kernels of the most sugary, tender and luscious quality that has ever been produced. Matures in about 65 days.

Every home gardener who planted it, remembers with satisfaction the early date at which the delicious, juicy, tender, sugary cobs of golden corn were served steaming hot at the table! Golden Sunshine does well in all sections of the country! 406—Pkg., 9c; 2 pkgs., 17c; $\frac{1}{2}$ lb., 28c; lb., 49c; 2 lbs., 94c; 5 lbs., \$2.15, postpaid. SEMESAN JR.

A disinfectant, and a valuable aid for larger stands of corn! Treating sweet corn, pop corn, and field corn before planting, with Semesan Jr. reduces seed rotting, checks seedling blight and certain seed-borne rots of root and stalk, and has increased corn yields an average of 3 bushels per acre. Economical, easy to use, directions on each can. 5268 1½ oz. Pkg. (treats 1 bu. seed), 15c; 12 oz. can (treats 8 bu. seed), 65c, postpaid.

SEMESAN

For disinfecting seed of all vegetables except corn, and for disinfecting flower seed, bulbs, and seedlings. Reduces seed rotting and damping off, helps kill soil fungi. Easy to use, economical. 5267—½ oz. Pkg. (treats 5 to 20 lbs. seed), 10c; 2 oz. Pkg. (treats 15 to 60 lbs. seed), 40c, postpaid.

CELТУCE

Celtuce

The superb vegetable with a real taste thrill from the interior of China! The young leaves are eaten as lettuce and the matured stalks are peeled of their tough outer skin and the heart eaten either raw, or cooked. Celtuce is truly delicious, with a taste all of its own, perhaps slightly like celery, but different and milder.

Celtuce is really a distinct species of lettuce, but grows differently and has more uses. The young leaves are used as lettuce or cooked like spinach. As a raw vegetable, the stalks are peeled and cut into five-inch lengths and split lengthwise, chilled, and served like celery or raw carrots. Also delicious cooked like asparagus or in soups. Sow seed from early spring to July 1. The illustration shows one stalk cut lengthwise. 356—Pkg., 15c; 2 pkgs., 25c; ½ oz., 26c; oz., 47c; ¼ lb., \$1.55; lb., \$5.50, postpaid.

HUCKLEBERRY

Annual and is planted every year from seed. Bears a heavy crop of berries which are larger than the common Huckleberry or the Blueberries. Cooked with apples or a little lemon, they make fine jelly. Elegant for pies. They have a rather peculiar flavor, but are very much relished by many people. Thrives in all sections. 507—Pkg., 12c; ½ oz., 44c; oz., 75c, postpaid.

Tastygreen
Healthful, Tasty, Superior to Spinach and Other Greens

TASTYGREEN

Tastygreen, the wonder vegetable, is rich in protein, mineral matter, and other elements so necessary to the development and maintenance of the human system. "Greens" are highly essential to our well-being, and of these, Spinach is perhaps the most widely planted and the most widely used, although unpalatable to many.

Tastygreen, the wonder vegetable, is far superior to Spinach or any of the other greens, and has a delicious flavor all its own, slightly and agreeably pungent with a Mustard taste when served hot, and when eaten raw, the flavor somewhat resembling raw Turnips. Tastygreen has small thin roots, about two inches long, and large oblong shaped leaves, rich dark green color, with a narrow white center rib. The leaves, stem and all, are prepared for table use in the same manner as Spinach or Turnip greens. It is very prolific and bears abundantly. The plants grow quickly and are ready to use in 21 to 23 days after planting.

1107—Pkg., 10c; oz., 22c; 2 oz., 38c; ¼ lb., 64c; ½ lb., \$1.15; lb., \$2.10, postpaid.

Tampala

SALZER'S TAMPALA

An old Chinese vegetable, that produces its excellent greens in mid-summer, when spinach bolts to seed, and much finer than Swiss Chard. The leaves are cooked and served just like spinach.

Tampala retains its tenderness for a long time, in fact it requires only five minutes to cook. The branches 4 to 5 in. long may be gathered instead of individual leaves and the young stem tips and leaves may be cooked together. Larger stems (as thick as one's finger) may be separated and cooked 10 minutes like asparagus. Or use Tampala in salads, instead of lettuce. Tasty flavor, high in food value, easily grown, and grows over a long period! 1110—Pkg., 15c; 2 pkgs., 25c; ¼ oz., 38c; ½ oz., 68c; oz., \$1.28; 2 oz., \$2.25, postpaid.

time. Has been steadily im-
proved at Cliffwood Farms, and

we have never yet found any cucumber to
equal the 40-Day in earliness, uniformity, pro-
ductiveness, and superb quality. Market gar-
deners who reap the highest prices, and home
cucumbers will usually plant only 40-Day Cucumber.

Extremely early, ready for table use in about
40 days. The fruits, about 7 inches long, are
straight, nearly cylindrical, blunt at the ends
and of very dark green color; with distinct pale
green lines at the blossom end. Uniform in
shape and size. An ideal cucumber for slicing,
white, fine grained, the flesh is firm and crisp,
flavor. The vines are vigorous in growth, very
healthy, holding the fruit for a long period.

Mrs. Jonas Long, R.D. 5, Brazil, Indiana, writes,
"The Earliest or 40-Day Cucumbers were grand
yielders and bore fine cucumbers. The house
plants also, were very nice, and they are doing
so well."

We believe you too, Mr. Gardener, will find it
a superb variety, both for the home garden and

EARLY

FINEST CUCUMBER INTRODUCTION IN YEARS!

Retaining its attractive deep green color for as long as two months, ripening in 50 days, yielding heavily—Evergreen Cucumber is without a peer! Evergreen originated with the well known Mr. William E. Vail, Yorktown Heights, New York.

Evergreen Cucumber is a grand slicer, having firm, crisp flesh, and it is also one of the best cukes for pickles. Yields heavily. The fruits are smooth, spineless, dark green, about 10 inches long and 3 inches thick, tapering slightly toward each end. Crisp white flesh, few seeds, and does well in practically all sections of the country. Retaining its deep green color for so long a period, makes it most desirable for both home and market. 474—Pkg., 15c; oz., 28c; 2 oz., 49c; ¼ lb., 83c; ½ lb., \$1.55; lb., \$3.00, postpaid.

IMPROVED LONG GREEN

Improved Long Green Cucumber is a medium late, slicing variety, also very good for pickling. Fruits are from ten to fifteen inches in length when fully matured, of somewhat slender girth, and of attractive dark green color, with spines or warts uniformly distributed on the surface. It produces early a fine quality of small cucumbers, excellent for pickling. Crisp, tender, and of good flavor. Matures in about 70 days.

448—Pkg., 10c; oz., 26c; ¼ lb., 77c; ½ lb., \$1.45; lb., \$2.75, postpaid.

LONGFELLOW

The fruit is long, 12 to 16 inches in length, straight, smooth and handsome. The color is deep green, which is retained longer than any kind we know of. Flesh is crisp, solid, and of very best quality, and is not only ideal for slicing but the young fruit is fine for pickling. Being a white spine variety, Longfellow Cucumber never turns yellow. It is very prolific and is characterized by a small seed cavity. Forces readily under glass.

452—Pkg., 15c; oz., 29c; ¼ lb., 88c; ½ lb., \$1.65; lb., \$3.15, postpaid.

EARLY FORTUNE

A superb type of White Spine Cucumber. It is early, very productive, disease resistant, and the fine grained, solid white flesh is remarkably crisp, with very few seeds. The handsome symmetrical fruits are nine inches long, beautiful, rich, dark green in color, and sell at sight at all markets. Color does not fade when shipped. 58 days.

472—Pkg., 10c; oz., 25c; ¼ lb., 74c; ½ lb., \$1.39; lb., \$2.65, postpaid.

STRAIGHT EIGHT

Elegant fruits about eight inches in length by about 1½ inches in diameter, and remarkably straight hence the name, Straight Eight. The fruits are well rounded at the ends, beautiful deep green when matured, and run very uniform in size and shape. Ideal for the home and market garden, and an ideal shipper. Straight Eight received Gold Medal Award in the 1935 All-American Selections. It is a white spine cuke, unusually free from pale tips. Yields heavily.

477—Pkg., 10c; oz., 31c; 2 oz., 54c; ¼ lb., 92c; ½ lb., \$1.70; lb., \$3.25, postpaid.

PROLIFIC PICKLE CUCUMBER

Prolific Pickle is the one superb, unbeatable pickling cucumber, it is enormously productive, it is uniform, it is a splendid shipper, it is early, it is of wonderfully fine quality. Housewives purchase it at market in preference to any other. Prolific Pickle is the ideal cucumber for very early, uniform pickles.

The fruits are slender, cylindrical, with large prominent spines, color dark green. Measures about $5\frac{1}{2} \times 2\frac{1}{4}$ inches, and has square ends, making it very attractive. The flesh is solid and thick in texture, and excellent in quality. The vines set fruit when young and usually continue to bear longer than any other variety. Matures in about 55 days. We recommend Prolific Pickle as about the very best of all the cucumber types for pickling.

469—Prolific Pickle: Pkg., 10c; oz., 24c; $\frac{1}{4}$ lb., 72c; $\frac{1}{2}$ lb., \$1.35; lb., \$2.50, postpaid.

Picklers' Special Cucumber

PICKLERS' SPECIAL CUCUMBER

Heinz, the renowned Pickle King, owner of the 57 varieties, developed this fine variety for his own canneries' use. This is the strain that produces his canned pickles.

It is the most robust grower and heaviest producer of commercial pickles known. It is the proper shape, nice and small, extra fine quality, takes the salt and shows up well when canned, firm and a fresh green color. Yields in the greatest profusion.

471—Pkg., 10c; oz., 26c; 2 oz., 45c; $\frac{1}{4}$ lb., 77c; $\frac{1}{2}$ lb., \$1.45; lb., \$2.75, postpaid.

CHICAGO PICKLING

A grand old stand-by, and is just as great a favorite today as ever. It has square ends, smooth skin, is very productive and very disease-resistant. Measures about $6 \times 2\frac{1}{2}$ inches, and has a rich, deep green color. Has a national reputation for shipping qualities. Matures in about 60 days. Flesh crisp, cool and of pleasing flavor. 462—Pkg., 5c; oz., 20c; 2 oz., 34c; $\frac{1}{4}$ lb., 59c; $\frac{1}{2}$ lb., \$1.10; lb., \$1.95, postpaid.

Everbearing Pickle Cucumber

EVERBEARING

It is just a fraction smaller than the Prolific Pickle above, is very productive, and is of special value in districts where the late maturing kinds will not ripen. If the fruits are gathered continuously, the vines bear the entire summer.

A very early and extremely productive variety. Matures in about 60 days. The fruits average four to five inches in length. Diameter about one to one and a half inches. Rich dark green color. One of the best sorts for pickling, salads and slicing. Flesh white, crisp, cool and of pleasing flavor. 466—Pkg., 8c; oz., 24c; 2 oz., 42c; $\frac{1}{4}$ lb., 72c; $\frac{1}{2}$ lb., \$1.34; lb., \$2.50, postpaid.

WEST INDIA GHERKINS

The smallest of the pickle varieties, maturing in approximately 50 days. Should be pickled when young and tender. Oval shape, prickly surface. Enormously prolific.

483—Pkg., 10c; oz., 24c; 2 oz., 42c; $\frac{1}{4}$ lb., 72c; $\frac{1}{2}$ lb., \$1.34; lb., \$2.50, postpaid.

LEMON CUCUMBER

When ready to use it has the color of a ripe lemon. The skin is smooth. The flesh is tender, crisp and possesses a delicate sweetness and flavor. Fine for pickling or slicing.

480—Pkg., 10c; oz., 26c; 2 oz., 45c; $\frac{1}{4}$ lb., 77c; $\frac{1}{2}$ lb., \$1.45; lb., \$2.75, postpaid.

MIXED CUCUMBERS

Just the thing for those who want some of all the different cucumbers! Contains all the many different varieties we catalog—early, late, slicers, pickles large and small, etc. A big bargain.

475—Pkg., 5c; oz., 20c; 2 oz., 34c; $\frac{1}{4}$ lb., 59c; $\frac{1}{2}$ lb., \$1.10; lb., \$1.95, postpaid.

I never saw the equal of Prolific Pickle Cucumber. Nothing else just as good.—

Kohlrabi

EARLY WHITE VIENNA

When cooked before it is fully grown (that is, when about two inches in diameter), it is exceedingly tender and excellent, combining both the flavors of cabbage and turnip. Should be cooked the same as you would cook turnips. It is hardy and thrives everywhere. Our Early White Vienna is grown from well selected seed and tested thoroughly for true-ness to type. This variety will give you great satisfaction.

A select early strain. White bulbs, tinged with green. Small leaves. Tops are about eight to ten inches long. Ready for the table in 50 days after setting out plant. Being extremely early it is a desirable sort for forcing. Quality very fine. Flesh is white and delicate.

523—Pkg., 10c; oz., 35c; 2 oz., 64c; ¼ lb., \$1.05; ½ lb., \$1.95; lb., \$3.75, postpaid.

526—Early White Vienna, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests. Pkg., 15c; oz., 40c; 2 oz., 70c; ¼ lb., \$1.22; ½ lb., \$2.20; lb., \$4.25, postpaid.

EARLY PURPLE VIENNA

Excellent for soups, or cooked like turnips, and enjoys almost as much popularity as the Early White Vienna, and similar to it in many ways. The leaves, stems, and outside of the bulbs are purple, but the flesh is an attractive light green.

Planted at intervals, tender bulbs can be produced throughout the season. Ready to use in about 50 days after setting out plants. Best time to use is when the roots are about 2½ inches in diameter.

522—Pkg., 10c; oz., 34c; 2 oz., 60c; ¼ lb., \$1.00; ½ lb., \$1.90; lb., \$3.65, postpaid.

LARGE AMERICAN FLAG LEEK

American Flag Leek

A splendid vegetable for flavoring soups, etc. Treat same as onions; both leaves and bulbs are used. Leeks are very hardy and the flavor is much improved by freezing. In fall, plant a few in sand in the cellar for winter use. Produces large, thick stems of mild flavor. Matures in about 90 days.

531—Pkg., 15c; ½ oz., 29c; oz., 53c; 2 oz., 96c; ¼ lb., \$1.75; lb., \$6.50, ppd.

MUSTARD

When freshly picked, the leaves are cooked and eaten like spinach. Makes a deliciously pungent salad. Plants yield until frost.

FLORIDA BROAD LEAF—Comparatively smooth, large broad leaves 12 inches long by 8½ inches broad, deep green, tender, sweetly pungent. 727—Pkg., 5c; oz., 12c; 2 oz., 22c; ¼ lb., 35c; ½ lb., 64c; lb., \$1.10, postpaid.

SOUTHERN GIANT CURLED—Tender, deliciously pungent, leaves 5 inches long by 3 inches wide, light green, tinged yellow, much crumpled and frilled. Greatly esteemed. 725—Pkg., 5c; oz., 14c; 2 oz., 26c; ¼ lb., 39c; ½ lb., 69c; lb., \$1.25, postpaid.

CITRON

Grown for preserves and pickles. The fruits are perfectly round, striped dark green. Flesh is thick, hard, and clear white. Seed is red, 95 days. 663—Pkg., 10c; oz., 20c; ¼ lb., 59c; ½ lb., \$1.10; lb., \$1.95, postpaid.

FRENCH GIANT DANDELION

Should not be confused with the wild Dandelion, as it is a much improved strain. It is a blood purifier and is in great demand as a salad plant. Sow in May, and the leaves can be cut the following spring. 490—Pkg., 10c; oz., 74c; 2 oz., \$1.38; ¼ lb., \$2.50, postpaid.

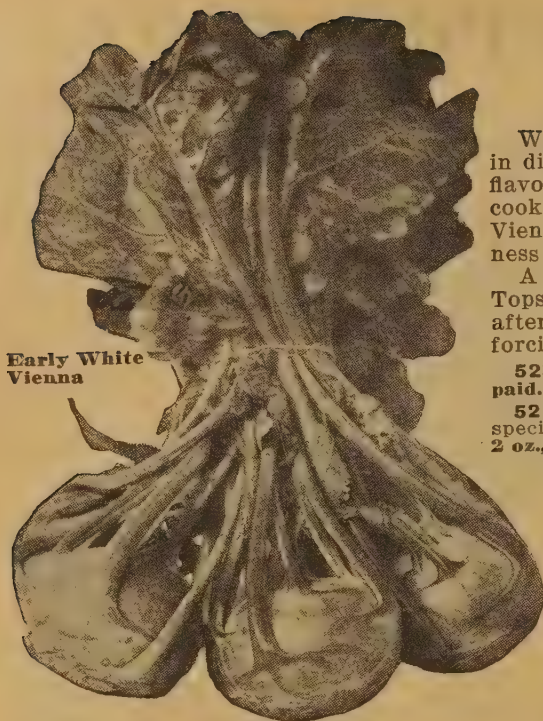

ENDIVE

DEEP HEART

An entirely new type of endive, of upright growth (hence, less susceptible to bottom rot), with broad rich green leaves, with the edges deeply cut and curled. The big well filled hearts are closely packed with fine leaves blanched to clear creamy yellow. Measures up to 12 inches across and 8 inches deep. 504—Pkg., 10c; oz., 25c; ¼ lb., 74c; ½ lb., \$1.40; lb., \$2.65, postpaid.

SALZER'S LETTUCE

Earliest Lettuce

EARLIEST LETTUCE

EARLIEST CURLED OR LOOSE LEAVED LETTUCE. DELICIOUSLY CRISP AND TENDER, EASIEST TO GROW

Yields an abundant crop of attractive light green leaves, heavily curled, of remarkably crisp texture, and of the finest flavor. The quality and flavor even of the outside leaves is fully equal to if not better than the tender heart leaves of many heading varieties. Earliest is one of the most widely planted in all sections of the country, and especially in the great West. It is such a strong grower that it thrives everywhere.

It is an admirable variety for outdoor planting, especially in early spring and it is also most suitable for greenhouse forcing. It is the lettuce for planting all summer long. Extremely popular for winter markets. The lower leaves grow clear of the ground so that it rarely suffers from rot. It is an ideal shipper and will prove most profitable for the grower, whether he sows seed in a hotbed or out of doors. We consider it the best non-heading lettuce for the home garden. Earliest Lettuce affords crisp, tender, attractive, finest quality leaves long before the heading sorts have commenced to close up.

540—Pkg., 15c; oz., 28c; ¼ lb., 85c ½ lb., \$1.60; lb., \$3.00, postpaid.

WHITE SEEDED SIMPSON

Also known as Early Curled Simpson. A curled or crisp non-heading type, medium large, much crumpled leaves of a light green color. It is an early growing, hardy variety and is sure to give fine results even under unfavorable conditions. Tender, crisp and of excellent quality.

559—Pkg., 7c; oz., 23c; ¼ lb., 68c; ½ lb., \$1.25; lb., \$2.35, postpaid.

GRAND RAPIDS

Curled or crisp, non-heading, light green, leaves wavy, fringed and very curly, a good shipper. Very popular and widely grown.

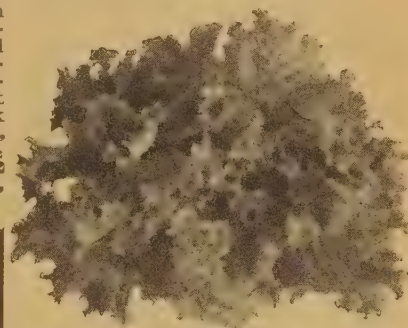

541—Pkg., 5c; oz., 22c; ¼ lb., 65c; ½ lb., \$1.20; lb., \$2.25, postpaid.

SLOBOLT

A recent very fine leaf lettuce developed by the U. S. Dept. of Agriculture, Beltsville, Md., that is slow to bolt to seed!

It withstands the hot summer weather without going to seed, two to three weeks longer than other varieties! If plants are set 10 or 12 inches apart and only the basal leaves used as they grow large enough for table use, lettuce may be had from the same plant for several weeks.

Slobolt has attractive light green leaves that are savoyed and frilled and it is of deliciously tender crisp quality. You will like it immensely. Black seeded. 542—Pkg., 20c; 2 pkgs., 35c; ½ oz., 34c; oz., 60c; 2 oz., \$1.12; ¼ lb., \$1.95, postpaid.

BLACK SEEDED SIMPSON

One of the standard varieties. A non-heading, curled, bunching, crisp variety, attractive light green color. It reaches a large size, grows quickly, is early, of fine quality, tender and sweet, and thrives splendidly during the hot summer months. Easily grown by the home gardener and much used by market gardeners for hot bed culture.

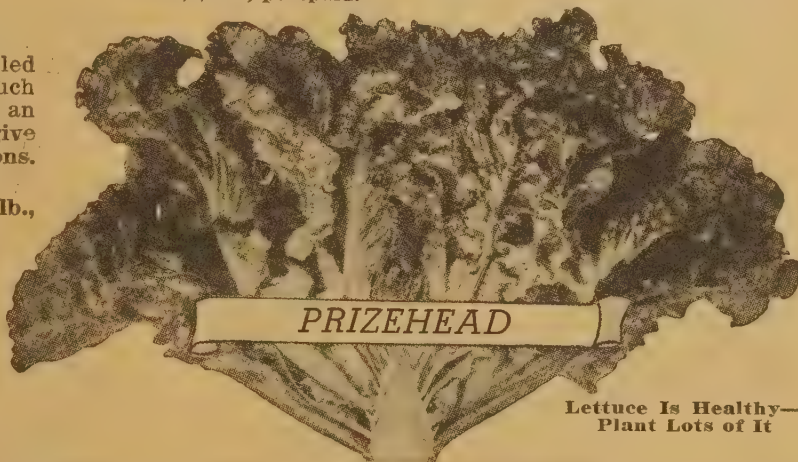

554—Pkg., 5c; oz., 21c; ¼ lb., 64c; ½ lb., \$1.18; lb., \$2.15, postpaid.

PRIZEHEAD LETTUCE

Is one of the best and most reliable varieties for all-year-around cultivation. The name is a trifle misleading, as it is a loose leaved or curled variety, and **does not make a head**. Plants form a loose cluster of leaves which are exceedingly tender, quite blistered and crumpled, sweet, crisp, and are of light brown color varying to a medium green base. Prizehead Lettuce reaches a very large size without losing its tenderness or crispness. 575—Pkg., 10c; oz., 23c; ¼ lb., 68c; ½ lb., \$1.23; lb., \$2.35, postpaid.

SUMMER HEADER LETTUCE

SUMMER HEADER

A superb head lettuce that we introduced in 1927, that forms solid heads despite hot weather, a thing which has hitherto been almost impossible. In tests on our Cliffwood Farms, practically every plant formed a fine, firm, solid head of butterhead lettuce of the finest flavor during the heat of summer.

The leaves are light green, crumpled, thick and tender, blanching to creamy white in the center of the head. Heads are large, about 8 to 10 inches in diameter, they have a delicious rich, buttery flavor, and they are the last to go to seed. It stands heat better than any other variety, without wilting.

577—Pkg., 14c; oz., 33c; ¼ lb., \$1.00; ½ lb., \$1.85; lb., \$3.50, postpaid.

IMPROVED HANSON

Exceptionally early, large globular, crisp heads which are firm and well blanched. The leaves are broad, crumpled and twisted, of light green color, never spotted or brownish. It is of very sweet flavor, and succeeds everywhere and at all times. It heads well during hot weather.

562—Pkg., 10c; oz., 26c; ¼ lb., 77c; ½ lb., \$1.45; lb., \$2.75, postpaid.

CRISP AS ICE

A beautiful lettuce of medium size and medium early in maturity. Crisp As Ice is a cabbage butter head lettuce, the leaves having a rich, attractive, deep green base, and upper portion covered with dark brown, giving the plant a deep brown or bronze appearance. A cool weather variety, valuable for both early spring and fall.

Has a rich, creamy heart, and when cut open is so crisp and brittle, it was given the name "Crisp As Ice."

556—Pkg., 12c; oz., 33c; ¼ lb., \$1.14; ½ lb., \$2.15; lb., \$4.00, postpaid.

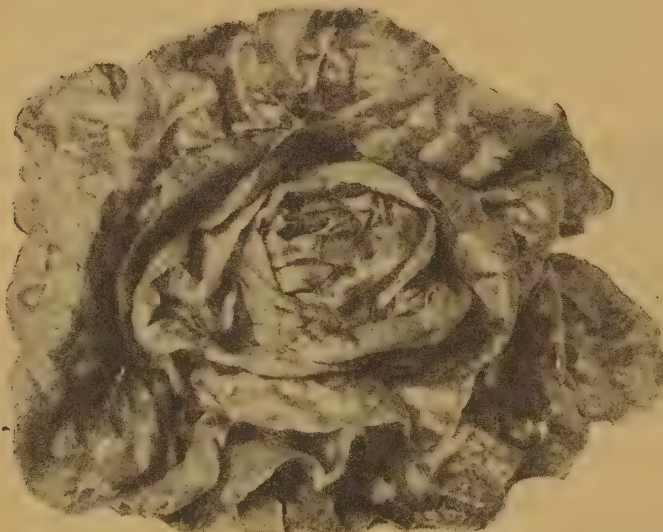

Crisp As Ice

CALIFORNIA CREAM BUTTER

California Cream Butter is a cabbage, butter head type, with thick leaves, large in size, of a beautiful and attractive rich dark green, tinged and spotted with brown. Ideal for the home garden. The heart of this excellent head lettuce is a rich, golden yellow and has a most agreeable and delicate buttery flavor, hence the name Cream Butter. It is of first class quality, and it forms a fine solid head under any ordinary conditions.

561—Pkg., 10c; oz., 24c; ¼ lb., 72c; ½ lb., \$1.34; lb., \$2.50, postpaid.

California Cream Butter Lettuce

GREAT LAKES LETTUCE

1944 All American Selection. A strain of crisp-heading lettuce, that heads during hot weather, from the Michigan State College, and that shows marked resistance to tip-burn! It has given excellent results for late July and August maturity, especially on upland soils. A valuable hot weather variety and very desirable. 564—Pkg., 20c; 2 pkgs., 35c; oz., 60c; ¼ lb., \$1.95; ½ lb., \$3.75, postpaid.

NEW YORK OR WONDERFUL LETTUCE

A curled or crisp heading variety, large, dark green and slightly curled on the edges. It is the most extensively grown of any of the head lettuces by market gardeners, and it is likewise in much favor with home gardeners everywhere. The mature head is flattish globular, and has well folded leaves with the immediate outside leaves slightly incurved to protect the head from sunburn. The heads range from 16 to 18 inches in diameter and weigh from 3 to 3½ pounds each:

The heart is beautifully blanched, creamy white, crisp, tender, and free from any trace of bitterness. It is robust and is a standard hot weather variety. 565—Pkg., 10c; oz., 35c; ¼ lb., \$1.05; ½ lb., \$1.95; lb., \$3.75, postpaid.

547—New York or Wonderful, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: Pkg., 15c; oz., 40c; ¼ lb., \$1.22; ½ lb., \$2.25; lb., \$4.25, postpaid.

NEW YORK NO. 55 LETTUCE

Similar to the New York lettuce above, but the color is a brighter green and the head is somewhat better formed, and smoother. Resistant to tipburn and sure heading in warm weather. It is the surest heading strain of the New York type that we know of and practically every plant makes a good head even during hot weather. Considerably resistant to tip burn.

Heads are large, solid, crisp and attractive. New York No. 55 may also be sown late, sowings made about August 1 producing good heads up to heavy frosts. 568—Pkg., 15c; oz., 41c; ¼ lb., \$1.24; ½ lb., \$2.30; lb., \$4.35, postpaid.

BIG BOSTON

A cabbage head, butter type, medium large, about 11 inches across, finely shaped, globular, medium light green with a slight tinge of brown on margins of outer leaves. It is early and hardy, and stands shipping well. The leaf is smooth and is practically not blistered or crumpled, with a tendency to a bright sheen. Heads are tender, brittle, juicy, fine buttery flavor, and the interior is an attractive light golden yellow. 553—Pkg., 5c; oz., 22c; ¼ lb., 65c; ½ lb., \$1.19; lb., \$2.25, postpaid.

581—Big Boston, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests. Pkg., 10c; oz., 25c; ¼ lb., 74c; ½ lb., \$1.39; lb., \$2.65, postpaid.

CREAMY HEART LETTUCE

A black-seeded cabbage head lettuce, of the butter type, medium green color and of medium size. The head is firm and solid and the heart is a very rich cream color. It has a very firm, tender, buttery flavor, matures early, is slow to go to seed, and stands the heat of summer well.

It is much superior to many of the other butter types of lettuce, both in quality, earliness and ability to form sound, solid heads. Is considered a sure header. 579—Pkg., 9c; oz., 26c; 2 oz., 48c; ¼ lb., 77c; ½ lb., \$1.42; lb., \$2.75, postpaid.

ICEBERG LETTUCE

A most satisfactory crisp heading variety with curly leaves of light green tinged with brown on the edges. It forms a hard head of crisp tender quality, and blanches to a creamy whiteness. One of the best for the home garden and home market. 563—Pkg., 10c; oz., 29c; ¼ lb., 88c; ½ lb., \$1.65; lb., \$3.10, postpaid.

PARIS WHITE COS LETTUCE

Cos Lettuce is distinguished from other lettuce in that the leaves are elongated and somewhat spoon-shaped. It is grown exactly like other lettuce. When full grown, it forms a loose, conical head. Very crisp, tender, and has a delicious flavor. Succeeds very well everywhere, never wilts under the severest sun and can be grown to an immense size. 598—Pkg., 10c; oz., 28c; ¼ lb., 85c; ½ lb., \$1.60; lb., \$2.95, postpaid.

CHINESE OR CHICKEN LETTUCE

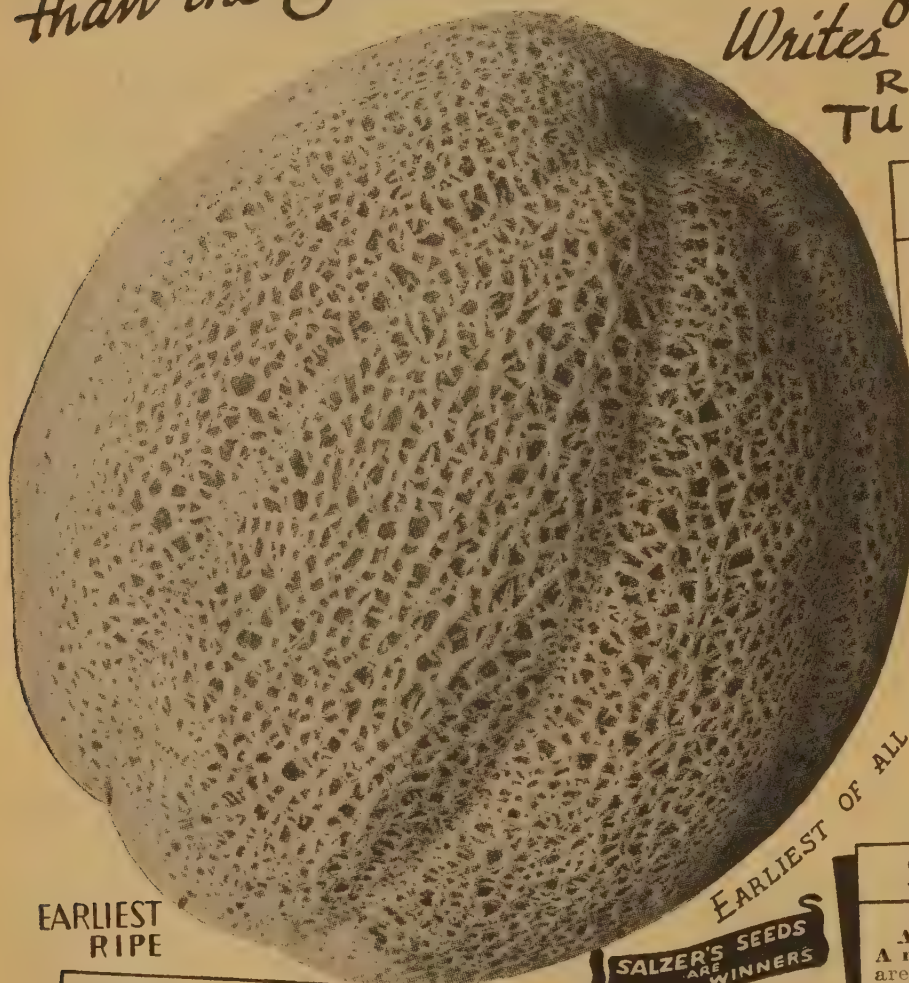

In this variety you will find a grand feed that yields more than other green feeds, and that is excellent for poultry. When cut, it grows rapidly again, and may be cut again and again. The yield is extremely heavy; grows 3 to 4 feet high and does not form a head. For table use, it perhaps will be found too coarse. 578—Pkg., 7c; oz., 20c; 2 oz., 37c; ¼ lb., 62c; ½ lb., \$1.18; lb., \$2.10, postpaid.

EARLIEST RIPE

10 CENTS
PKG.

Earliest of All. Our attention was called to this melon many years ago by a gardener near La Crosse, who had always had muskmelons from 8 to 15 days ahead of his neighbors. These Melons were of uniform size, of fine shape and appearance, yellow fleshed, extremely delicious, and sold readily in our markets at top prices.

EARLIEST RIPE IS THE EARLIEST YELLOW-FLESHED MUSKMELON that we know of, maturing in about 60 days. It is of oval shape, of good size, about five inches in diameter, with fairly distinct ribbing, heavily netted. The flesh is thick, of a rich salmon-yellow color, sweet, luscious and melting, and the flavor is unsurpassed by that of any other variety. The vines are robust and vigorous, resisting blight to a marked degree. You will like it. **606—Pkg., 10c; oz., 27c; ¼ lb., 80c; ½ lb., \$1.50; lb., \$2.85, postpaid.**

SUGAR ROCK

Also known as Honey Rock! **7 CENTS**
PKG. A most prolific melon. Fruits are oval, of good large size, without ribbing and heavily netted. 80 days. The flesh is deep and thick, orange color, with a sugary and luscious flavor.

The rind is light golden yellow overlaid with heavy gray netting, and is so tough that ripe melons may be picked and shipped long distances. **626—Pkg., 7c; oz., 23c; ¼ lb., 69c; ½ lb., \$1.23; lb., \$2.35, postpaid.**

628—Sugar Rock, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: **Pkg., 11c; oz., 29c; ¼ lb., 88c; ½ lb., \$1.65; lb., \$3.15, postpaid.**

Vines do not show any trace of blight. Fine for home or market.

JUICY FRUIT

Juicy Fruit, introduced by us over twenty-five years ago, is the grandest salmon-fleshed melon in cultivation today. It is medium early, it is a medium sweet, it is a wonderfully devoid of stringiness, it is very meaty and it has a small heavy yield. It is very neat and it has a small seed cavity.

Mr. Joseph Metcalf, R. D. 1, Wilder, Idaho, writes, "My father and I have produced some excellent melons from your Juicy Fruit and from your Honey Dew melon seed."

The skin is an attractive light green, the fruits reach a very large size, they are nearly round with slight sutures, and the thick salmon-colored flesh is the sweetest, that we have ever eaten. The melons are uniform in size and pack nicely ten to a crate. This elegant melon is ideal for the home gardener, and truckers always find a heavy demand for the melons at market.

WATERMELONS

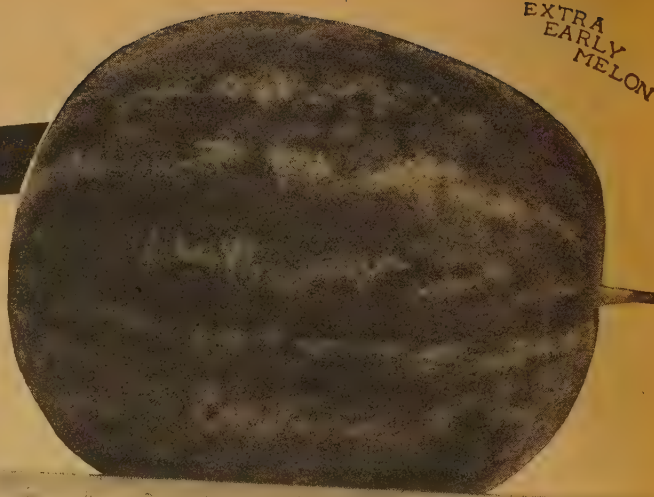

EARLIEST

Extremely early—A splendid strain for the North—Deliciously sweet!

Illustrated at right. Especially bred and developed for those sections which have a short growing season, Earliest Watermelon is sure to be the first watermelon on the market, being fit for the table in about 60 days. On the La Crosse market, the earliest melons fetch prices of 50c to 80c each!

Earliest weighs about from 25 to 30 pounds, is rather round in shape, of a light green color and striped irregularly with darker green. It is enormously prolific. The sparkling, crisp, red flesh is of fine texture, has a delicious, very sweet flavor and ripens down to the rind. Uniform in size and shape. A splendid shipper. 667—Pkg., 10c; oz., 21c; ¼ lb., 64c; ½ lb., \$1.15; lb., \$2.10, postpaid.

ELEGANT FLAVOR

FOURTH OF JULY

A sure yielder, a heavy cropper and second only to Earliest as an extra-early watermelon. The melting sweetness of this superb melon, the delicious, exquisitely flavored flesh, its hardiness and ease of growth, have delighted gardeners everywhere. As far north as Canada, Fourth of July will supply the tables just as bountifully as it does in the sunny regions of the South. The melons are about 12 inches long and 9 inches in diameter, weighing about 25 pounds. The rich, red, fine-grained flesh ripens clear to the rind and is most luscious and refreshing. Not a shipper but grand for the home and near-by markets. Thrives even under neglect. 65 days. 671—Pkg., 10c; oz., 23c; ¼ lb., 71c; ½ lb., \$1.30; lb., \$2.45, postpaid.

NORTHERN SWEET

Developed by the Minnesota Experiment Station. Ripens in 63 to 70 days. Green rind striped lighter green, flesh dark red and tender and of a rich sugary flavor. Weighs 9 to 10 lbs. Fine for early market or home garden. 655—Pkg., 12c; oz., 21c; ¼ lb., 64c; ½ lb., \$1.15; lb., \$2.10, postpaid.

HANDSOME

Oh, My! MELON

The Largest Watermelon on Earth. In our latitude, by September 1st Melons of this variety have attained the enormous weight of 45 to 75 lbs.; they all grow to an enormous size. Oh, My! is an extremely prolific if not the most productive variety known. An acre bears an enormous amount of great Melons weighing all the way from 30 to 75 lbs., and each fit to be set before a king. The Melons are almost round in shape, of a peculiar dark brownish green color. The flesh is dark red, deliciously sweet. Seed, mottled dark brown.

We introduced this fine variety over forty-five years ago. It is a good shipper and one of the best all purpose melons, although large for some markets. Our old customers always welcome Oh, My! and our new friends will find it a deliciously sweet watermelon. 685—Pkg., 10c; oz., 28c; ¼ lb., 85c; ½ lb., \$1.60; lb., \$2.95, postpaid.

KING & QUEEN

Perfectly round, averages about 10 pounds. The flesh is bright red, crisp and juicy and the outside color is white with indistinct green stripes. Can be stored in the vegetable cellar until February. Think of serving fresh watermelon in winter!

Giant Silver King

Giant Silver King Onion is ideal for exhibition, fancy market or for the home table. We have grown specimens at Cliffwood Farms, 22 inches in circumference instead of 21 inches as shown in the illustration, and weighing 4 pounds. Matures early and is uniformly large and of fine shape, flattish round and thick. The silvery white skin is very thin and the fine grained, white flesh is of such mild and deliciously sweet flavor that it can be eaten raw like an apple. Fully grown, they measure five to seven inches in diameter; they mature evenly and keep well in storage.

Mr. Charles W. Lephart, 658 Burchard St., Watertown, N.Y., writes, "I was very much pleased with your onions last year." Giant Silver King Onion is enormously productive and every one desiring the largest and handsomest white onions of the finest flavor will be more than satisfied with this superb strain. Salzer's

Paramount Parsley

Salzer's
PARAMOUNT

Exquisitely curled, deep green color, and highly ornamental for garnishing purposes, with a spicily pungent flavor! The plants grow about 12 inches tall and the texture is more uniformly "triple curled" than older strains. Of exceptionally deep rich green color.

Paramount is a great improvement over the older sorts and is a striking variety for uniformity in type of plant and color. **828—Pkg., 12c; oz., 20c; ¼ lb., 39c; ½ lb., \$1.10; 1 lb., \$1.95, postpaid.**

PARSLEY

Double Moss Curled

Grows about 7 or 8 inches high, is of rich dark green color and vigorous and compact growth. It is a handsome decorative type, the leaves being beautifully crimped and curled; often used as a border for beds and walks and is unsurpassed for garnishing meat dishes, etc., and for flavoring soups and other dishes. Parsley germinates slowly, but is hardy and easy to grow and thrives on almost any soil. Matures in about 65 days.

822—Pkg., 10c; oz., 16c; ¼ lb., 47c; ½ lb., 84c; 1 lb., \$1.45, postpaid.

830—Double Moss Curled, Salzer's Cliffwood Farm TRIPLE-TESTED—A special reselected strain certified by THREE-WAY tests: Pkg., 15c; oz., 21c; ¼ lb., 60c; ½ lb., \$1.12; 1 lb., \$2.00, postpaid.

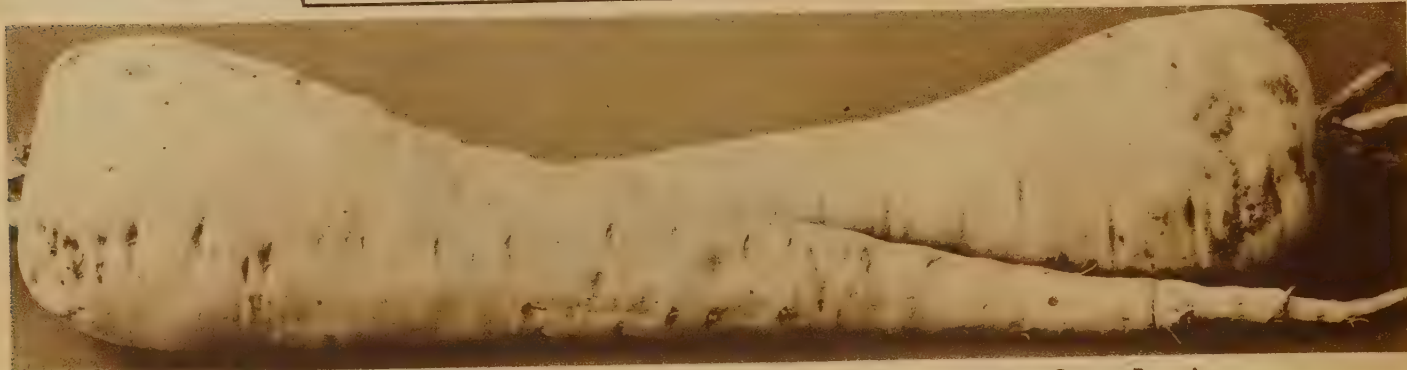

Spicily Pungent

XXX PARSLEY

A quick growing, distinct dwarf and handsome variety of compact growth with finely cut and closely curled leaves of a deep emerald-green; very attractive when used for garnishing. Well flavored. **823—Pkg., 7c; oz., 17c; ¼ lb., 49c; ½ lb., 90c; 1 lb., \$1.65, postpaid.**

TURNIP ROOTED

This variety of parsley is grown for its thick, fleshy root, which resembles a small parsnip, and which is most delicious in soups, stews, etc. Flesh is white and fine grained. Keeps well. **826—Pkg., 8c; oz., 19c; ¼ lb., 54c; ½ lb., 98c; 1 lb., \$1.85, postpaid.**

Above—Delmonico Parsnip

Below—Hollow Crown Parsnip

Salzer's **PARSNIPS**

DELMONICO

This nationally famous strain introduced by us, does not require such deep soil for its cultivation. It is a stump rooted variety and hence easily harvested. Roots reach a length of about 8 inches, with a thick broad shoulder, skin is smooth and white, and the flesh is fine-grained, sweet, sugary, tender and most excellent for table use. Very early, maturing in about 115 days. It is a most prolific yielder, it contains more saccharine, is sweeter and more nutritious than other sorts, and as it is so easily harvested, large acreages are grown for stock feeding. Thrives on almost any soil. This splendid variety surpasses every other in yield and quality. **833—Pkg., 12c; oz., 27c; 2 oz., 49c; ¼ lb., 84c; ½ lb., \$1.50; 1 lb., \$2.75, postpaid.**

IMPROVED GUERNSEY

Heavy yielder, smooth roots, flesh fine grained and of an excellent flavor. It is half-long, thick and short, and is easily dug. A dependable type. **834—Pkg., 10c; oz., 22c; 2 oz., 40c; ¼ lb., 67c; ½ lb., \$1.25; 1 lb., \$2.25, postpaid.**

HOLLOW CROWN

Parsnips prefer very wet soil and will thrive where carrots will not grow. A freeze is required to sweeten them. For the best results, deep soil is needed.

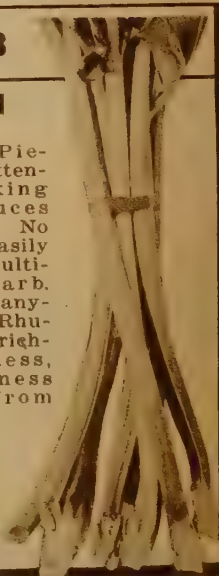

Hollow Crown Parsnip is enormously productive, roots are 10 to 12 inches long and about 3 inches thick at the shoulder. It is rich in saccharine, has smooth white skin, is uniform in shape, is sweet, tender, sugary. Not only of fine table quality, but very desirable for stock feeding. Also relished by horses. Matures in 130 days. **832—Pkg., 10c; oz., 20c; 2 oz., 36c; ¼ lb., 62c; ½ lb., \$1.15; 1 lb., \$1.95, postpaid.**

RHUBARB

MONARCH

Rhubarb or Pie-plant is used extensively for making tarts, pies, sauces and preserves. No plant is more easily increased and multiplied than rhubarb. Grows almost anywhere. Monarch Rhubarb excels in richness, tenderness, juiciness, earliness and freedom from stringiness. See Index for Roots. **1053 — Pkg., 10c; oz., 28c; ¼ lb., 85c; ½ lb., \$1.58; 1 lb., \$2.95, postpaid.**

EARLIEST AND BEST

The **EARLIEST WHITE, SMOOTH PEA** on earth! It's the pea for you, Mr. Market Gardener, Mr. Home Gardener, to plant, whether by the package or by the bushel. It's the greatest, earliest, big profit pea!

Earliest and Best matures the entire crop at one time. It grows from 24 to 30 inches high, is extremely prolific, bearing from 6 to 8 straight pods, 2½ in. long, each containing 6 to 7 medium sized, smooth, round peas, which are sweet and of excellent flavor. They are yellowish-white when ripe. Ready to pick for the market in 45 days. Yields of from 250 to 300 bushels of green peas per acre have been reported of this variety, and have been sold at from \$1.75 and even more, per bushel. It is the pea to plant for an extra-early money making crop. Can be sown as early in spring as the ground can be properly prepared. **Earliest and Best** is a grand variety for succession sowing, owing to its ability to resist mildew and to defy frost, both in spring and in the fall.

846—Pkg., 10c; 2 pkgs., 17c; ½ lb., 27c; lb., 45c; 2 lbs., 80c; 5 lbs., \$1.70, postpaid. Not prepaid: 10 lbs., \$2.90; 60 lbs., \$15.25.

SCORCHER

Another great extra-early, hard, smooth pea, about 24 to 28 inches high, very productive and a splendid canner. Only a day or two later than Earliest and Best. The pods are about 2½ inches long and are packed with 6 smooth bluish-green sugary peas of melting quality. Each vine bears 6 or 7 pods. Entire crop can be picked at one time.

848—Pkg., 9c; 2 pkgs., 16c; ½ lb., 26c; lb., 44c; 2 lbs., 79c; 5 lbs., \$1.65, postpaid. Not prepaid: 10 lbs., \$2.80; 60 lbs., \$14.65.

ALASKA

Widely grown for canning. A heavy yielder, vines 30 in. high, bearing 6 pods about 2½ inches in length. They are filled with 6 small smooth peas. 50 days. 844—Pkg., 8c; 2 pkgs., 14c; ½ lb., 23c; lb., 39c; 2 lbs., 70c; 5 lbs., \$1.45, postpaid. Not prepaid: 10 lbs., \$2.40; 60 lbs., \$12.25.

LAXTON'S PROGRESS

A fine variety of rather recent introduction. The vines are dwarf, 15 to 18 in. high, and the deep green pods are often 4¼ in. long. By actual count, they contain one more pea to the pod (7 to 9 per pod) and more pods to the vine than any of the older Laxtonian type. The peas are of delicious, melting quality, sweet and tender. Good for freezing. 859—Pkg., 15c; 2 pkgs., 25c; ½ lb., 30c; lb., 49c; 2 lbs., 94c; 5 lbs., \$2.00, postpaid. Not prepaid: 10 lbs., \$3.50; 60 lbs., \$18.85.

RECORD BREAKER SIX WEEKS PEAS

Mr. John Zellar, Germfask, Michigan, writes, "We have used your seeds for about ten years. The Record Breaker Six Weeks Peas cannot be beat."

Mrs. L. H. Trowbridge, Green Valley, Illinois, writes, "We had splendid results from your seed. The Record Breaker Six Weeks Peas were the wonder of our friends."

Record Breaker Six Weeks is a whirlwind for quality and maturity. Sweet, luscious, melting, highest quality, wrinkled peas, ready to be picked, for table or market, in 49 days.

Pods are rich dark green color, about 3 inches long, narrow and nearly round, borne singly, containing 7 to 9 peas each. Grows about 12 inches high, vines are vigorous and hardy. The seed is slightly dented. Pods are produced in riotous profusion and are literally jammed with delicious sugary peas, that fairly "melt in your mouth." It will please you beyond all expectation. Splendid for the home gardener as well as the market gardener. Aside from our own Cliffwood Farm tests, we have the reports of many pea growers of America, who unhesitatingly say, "It is about the Earliest Wrinkled Dwarf Pea in the world."

849—Pkg., 15c; 2 pkgs., 25c; ½ lb., 30c; lb., 50c; 2 lbs., 95c; 5 lbs., \$2.05, postpaid. Not prepaid: 10 lbs., \$3.60; 30 lbs., \$9.95; 60 lbs., \$19.35.

EARLY BIRD PEAS

An excellent semi-wrinkled variety that is exceptionally early, hardy, and enormously productive. The plants grow about two feet high, vine and foliage moderately heavy, color light green. The handsome pods are a beautiful dark green, about four inches long, semi-broad, pointed, and are well filled with 8 to 10 very large, dark green peas, tender, sweet and of best quality. Seed is blue and semi-wrinkled. 56 days. 873—Pkg., 10c; 2 pkgs., 17c; ½ lb., 26c; lb., 45c; 2 lbs., 83c; 5 lbs., \$1.75, postpaid. Not prepaid: 10 lbs., \$3.00; 60 lbs., \$15.85.

GIANT EXHIBITION

Huge Pods—Luscious Quality Peas

To those who wish huge podded peas, we suggest that they plant this Giant Exhibition Pea. It is a late maturing kind. Is a wrinkled pea, very productive, the huge pods being well packed with peas, which, although large, are of a fine quality, sweet, sugary flavor and not tough as one would expect. The pods frequently grow to seven and even eight inches in length, depending of course somewhat on the soil, and it is not unusual to find between ten and twelve peas to the pod. The lateness of these Giant Exhibition is fully offset by its productiveness and its vigor-ousness. It has numerous first prizes to its credit, from various fairs, which accounts for its being named Exhibition. One of the best main crop varieties. Good for freezing.

Pods rather straight, with curve near end. Vines grow vigorously. Ready to use in about 85 days. 872—Pkg., 15c; 2 pkgs., 24c; ½ lb., 29c; 1 lb., 47c; 2 lbs., 89c; 5 lbs., \$1.95, postpaid. Not prepaid: 10 lbs., \$3.45; 60 lbs., \$18.85.

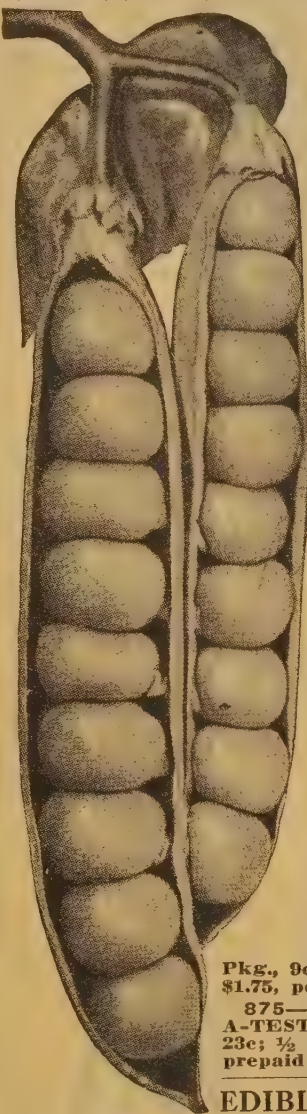

Giant Exhibition Peas

Giant Stride Peas

A wilt-resistant large podded variety, nearly 100% blight resistant! Vines about 30 inches tall, pods 5 to 5½ in. long, dark green, pointed, slightly curved, plump, and well filled with delicious, sugary, large peas. 74 days. 885—Pkg., 10c; 2 pkgs., 17c; ½ lb., 26c; 1 lb., 44c; 2 lbs., 81c; 5 lbs., \$1.70, postpaid. Not prepaid: 10 lbs., \$2.90; 60 lbs., \$15.25.

Peanuts

EARLY VIRGINIA—A productive variety, with very erect stems and large pods and kernels. Not only yields lots of nuts, but it is an excellent forage crop. Remove shells and plant kernels 6 inches apart in rows 4 feet apart. 841—Pkg., 15c; 2 pkgs., 27c; ½ lb., 34c; 1 lb., 59c; 2 lbs., \$1.12; 5 lbs., \$2.45, postpaid. Not prepaid: 10 lbs., \$4.40; 60 lbs., \$24.25.

Dwarf Defiance

Early Virginia Peanuts

DWARF DEFIANCE

The best of the main crop varieties of large podded, dwarf peas; it is fit for the table in 76 days from planting. The vines are about 24 inches high. Pods are long, broad, pointed, dark-green in color and often measure 5 inches or more in length and generally contain 8 to 9 peas. These peas are very large and in flavor and sweetness rank with the highest. The peas retain their tenderness long after they have been picked. Also a splendid variety for the home gardener, because of its compact, bushy growth, permitting a good heavy yield in a limited space. 898—Pkg., 10c; 2 pkgs., 18c; ½ lb., 26c; 1 lb., 45c; 2 lbs., 83c; 5 lbs., \$1.75, postpaid. Not prepaid: 10 lbs., \$3.00; 60 lbs., \$15.85.

DWARF TELEPHONE OR DAISY

This fine, wrinkled variety has all of the qualities of the old well known Tall Telephone pea, but is of dwarf growing habit, attaining a height of 20 to 24 inches. Matures in about 71 days.

The vines are of vigorous growth, producing large pods in great profusion and about a week earlier than the tall variety. The pods are about 4¼ to 5½ in. long and contain eight to ten green, wrinkled peas of delicious flavor. 892—Pkg., 12c; 2 pkgs., 20c; ½ lb., 28c; 1 lb., 49c; 2 lbs., 90c; 5 lbs., \$1.95, postpaid. Not prepaid: 10 lbs., \$3.40; 60 lbs., \$18.25.

Dwarf Telephone

IMPROVED TELEPHONE PEAS

Also called "Alderman." The dark green pods will retain their fine, marketable appearance for an unusually long time. Pods are very uniform in shape and borne in the greatest profusion. One of the finest late or main crop varieties. The vines attain a height of 3½ to 4 feet. Matures in about 70 days. Pods measure about 5 inches and more in length and are densely filled with 8 to 10 large, wrinkled peas, sweet and tender, of unsurpassable flavor. Good for freezing. 864—

Pkg., 9c; 2 pkgs., 16c; ½ lb., 26c; 1 lb., 45c; 2 lbs., 83c; 5 lbs., \$1.75, postpaid. Not prepaid: 10 lbs., \$3.00; 60 lbs., \$15.85.

FOR PEPPER
PLANTS
SEE PAGE 16

EARLY GIANT PEPPER

A very large and very early pepper that will produce heavy crops in the northern parts of the country. The fruits are 5 in. long and 3 1/2 in. through; deep green, turning to brilliant red. Flesh thick and of a very sweet, pleasant flavor. Early Giant Pepper is not only very large, but the plants are enormous yielders, as many as 33 peppers being picked from one bush. 62 days. 932—Pkg., 20c; 1/2 oz., 37c; oz., 72c; 2 oz., \$1.38; 1/4 lb., \$2.60; 1/2 lb., \$4.90; lb., \$9.50, postpaid.

CALIFORNIA WONDER

Has extremely thick walls and flesh, thicker than that of any other variety. The bright, attractive green fruits change to handsome, brilliant crimson, and are mild and deliciously sweet. It is enormously prolific and is ideal for stuffing and baking. Measures 4 1/2 in. long by 4 in. at shoulder. 72 days. Good for freezing. 935—Pkg., 15c; 1/2 oz., 37c; oz., 69c; 2 oz., \$1.20; 1/4 lb., \$2.25; 1/2 lb., \$4.35; lb., \$8.50, postpaid.

WORLD-BEATER

Here is one of the finest large peppers ever introduced! Salzer's World-Beater measures nearly 6 inches long by 4 inches through, broad and blunt at the blossom end. The flesh is extremely thick and is mild and sweet, color dark green, changing to brilliant scarlet when ripe. Usually produces 15 to 24 fruits to each plant. May be eaten raw without a trace of burning. 70 days. 933—Pkg., 14c; 1/2 oz., 35c; oz., 65c; 2 oz., \$1.17; 1/4 lb., \$2.15; 1/2 lb., \$4.15; lb., \$8.00, postpaid.

BELL OR BULL NOSE An early, standard, rich scarlet pepper. Plants 2 feet high, compact and bushy, fruits 3 inches long by 2 inches thick, with sweet, mild flesh and pungent ribs. 55 days. Widely grown and highly desirable. 919—Pkg., 9c; 1/2 oz., 35c; oz., 64c; 2 oz., \$1.15; 1/4 lb., \$2.10; 1/2 lb., \$3.95; lb., \$7.50, postpaid.

KING OF THE NORTH An extra early sweet pepper developed for the North! Fruits are large, about 4 in. long by 2 1/2 in. at shoulder, mostly 3-lobed, smooth, medium thick dark green flesh turning to glossy deep rich red. Flavor mild and sweet. Plants 22 in. tall, vigorous and prolific. 65 days. 923—Pkg., 10c; oz., 53c; 2 oz., 98c; 1/4 lb., \$1.75; 1/2 lb., \$3.35; lb., \$6.50, postpaid.

SUNNYBROOK Earliest of all. Grows 15 inches high and bears in great profusion, unusually sweet peppers, tomato shaped, 3 in. wide to about 2 1/2 in. deep. Skin is smooth, glossy, brilliant scarlet; flesh very thick and sweet. 75 days. 934—Pkg., 15c; oz., 69c; 2 oz., \$1.20; 1/4 lb., \$2.25; 1/2 lb., \$4.35; lb., \$8.50, postpaid.

IMPROVED HUNGARIAN YELLOW WAX—Peppers pungent and measuring 5 to 6 inches in length, rather slender but meaty, and tapering to a somewhat twisted point. They are waxy canary yellow in color, presenting a handsome appearance, and turn to a beautiful crimson at maturity. Very prolific and desirable. Also known as Bulgarian Yellow Wax. 60 days. Quite "hot." 938—Pkg., 15c; oz., 65c; 2 oz., \$1.17; 1/4 lb., \$2.15; lb., \$8.00, postpaid.

LONG RED CAYENNE—The true "hot" pepper. Slender red peppers, about four inches in length. The bright red fruits are extremely strong and pungent. 70 days. 925—Pkg., 10c; oz., 53c; 2 oz., 95c; 1/4 lb., \$1.75; lb., \$6.50, postpaid.

SMALL RED CHILI—A very "hot" pepper. A rather small, bright-red variety, about two inches long, slender and pointed. Widely used for salads, pickling and Chili sauce; very pungent. 921—Pkg., 10c; oz., 65c; 2 oz., \$1.17; 1/4 lb., \$2.15; lb., \$8.00, postpaid.

Small Red Chili FOR PEPPER PLANTS—See Page 16.

PIMIENTO

Pimiento is of a different type than the other well known peppers. It is used very much in salads. It is of the sweetest flavor and does not contain a trace of fieriness.

It is a productive strain, exceptionally smooth, glossy and of mild, delicious flavor. Plants are vigorous and upright, growing about thirty inches high with short, broad, dark green leaves. Deep green fruits, becoming deep red as they mature. Ripens in about 71 days. For plants, see Page 16.

927—Pkg., 10c; 1/2 oz., 37c; oz., 69c; 2 oz., \$1.20; 1/4 lb., \$2.25; lb., \$8.50, postpaid. 940—Pimiento Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain: Pkg., 15c; 1/2 oz., 42c; oz., 77c; 2 oz., \$1.40; 1/4 lb., \$2.60; lb., \$9.50, postpaid.

CHINESE GIANT

Large Fruits—Handsome Scarlet Color—Meaty—Excellent Quality

A magnificent variety, the largest and finest Pepper in cultivation. The plant is about two feet high, of strong, vigorous growth, stocky and erect in habit, very productive, and ripens its fruit earlier than the Ruby King. The fruit is well shown in our illustration, is quite square, averages 4 inches in diameter, and is of a bright, glossy scarlet when ripe. The flesh is usually thick and very mild, having none of the pungency of most of the older varieties. The immense size of the fruit and its brilliant color render it very attractive and will cause it to sell readily in the market. Every private garden should have this sort. Matures in 80 days.

922—Pkg., 10c; 1/2 oz., 37c; oz., 69c; 2 oz., \$1.20; 1/4 lb., \$2.25; lb., \$8.50, postpaid.

RUBY KING

An improved strain of the old reliable, dependable, standard pepper that cannot be beaten. Exceptionally large, sweet flavored fruit, plants 30 inches high. Plants are vigorous, compact and very productive. Ripens its fruits early and with uniformity. Fruits frequently run 4 1/2 inches in length having usually 3 lobes. Deep green color when young, ripening to a bright rich crimson. The flesh is thick and of mild flavor. 67 days. 929—Pkg., 12c; oz., 53c; 2 oz., 95c; 1/4 lb., \$1.75; 1/2 lb., \$3.35; lb., \$6.50, postpaid.

Yellow Wax

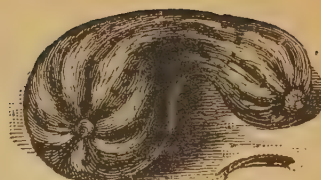

Pumpkin

YANKEE PIE

For the tastiest, most delicious pumpkin pies, plant Yankee Pie Pumpkin. It's the finest of all and ranks enormously high in sugar content.

It is round and slightly flattened, with shallow ribs, rather small, about 10 inches in diameter, and of exquisite quality. The tender, rich yellow flesh

Japanese Pie Pumpkin

is very thick, meaty and sweet, and the skin is a deep orange. There is no finer pumpkin, especially for the home garden. Matures in about 70 days and is an excellent keeper. Very hardy and very productive. Hundreds of thousands of customers sow this strain year after year. It is the best in cultivation today, for the table. Enormously productive.

956—Pkg., 10c; oz., 23c; 2 oz., 39c; ¼ lb., 68c; ½ lb., \$1.23; lb., \$2.35, postpaid.

SMALL SUGAR

Much smaller than the field varieties, rich in sugar, finely grained and sweet. Exceptionally fine pumpkin for pies.

It is a very prolific type, producing nice, uniform size and shape pumpkins in abundance. Considered one of the hardest and easiest to grow. Matures in about 70 days.

LARGE SWEET CHEESE

953—Pkg., 8c; oz., 21c; 2 oz., 37c; ¼ lb., 64c; ½ lb., \$1.15; lb., \$2.15, postpaid.

WINTER LUXURY

A splendid winter sort, excellent for pies. Fruits about 9 inches in diameter, nearly round, smooth russet yellow skin, very prolific. Flesh light yellow, very thick, firm, sweet, fine grained and finely flavored. Keeps well. 955—Pkg., 8c; oz., 24c; 2 oz., 42c; ¼ lb., 72c; ½ lb., \$1.34; lb., \$2.50, postpaid.

MAMMOTH

Very extensively grown. Splendid for stock feeding as well as for the table. A popular type with the home grower, considered the best for exhibition purposes and a dependable sort in every way. Deep creamy red color. Nearly round, slightly flattened at top and bottom.

Flesh is deep orange red and fine grained. A good variety to plant with corn. One of the best for winter storage. Matures fully in about 110 days. We have grown specimens of this variety weighing 125 lbs.

951—Pkg., 10c; oz., 26c; 2 oz., 45c; ¼ lb., 77c; ½ lb., \$1.45; lb., \$2.75, postpaid.

MIXED PUMPKIN

A mixture of the choicest and finest pumpkin seed. Have some of each variety in one patch in your garden, without having to purchase a package of each. 957—Pkg., 5c; oz., 15c; 2 oz., 27c; ¼ lb., 39c; ½ lb., 69c; lb., \$1.25, postpaid.

Salsify

SANDWICH ISLAND

Widely grown for fall and winter use and is popularly called Oyster Plant, because it has such a delicious oyster-like flavor.

Sandwich Island Salsify grows a fine, fleshy root 6 to 8 inches long and about 1 inch thick. The white flesh is of superior oyster-like flavor and is very nutritious. Matures in 140 days. It is hardy and may be left in the ground over winter, or may be stored in a pit or cool cellar after cutting off the leaves.

1060—Pkg., 10c; oz., 54c; 2 oz., 98c; ¼ lb., \$1.80; lb., \$6.75, postpaid.

Radish

Early Bird

Handsome—Deliciously Spicy

We introduced this grand variety over 50 years ago and have been painstakingly growing it ever since, so get your seed from us if you want genuine, true-to-type seed. Don't take anything "just as good." Early Bird is of globe-shape, bright scarlet color, has very short tops, flesh is pure white, fine grained, crisp, nice, spicy taste, and never becomes hollow or pithy. Averages $\frac{1}{2}$ to 1 inch in diameter, according to maturity. It is alike most valuable for outdoor planting in spring or in autumn, and usually commands top prices.

Early Bird, the incomparable radish, normally produces radishes ready for the table in about 18 days' time and less, rather than 12 days as illustrated, radishes that are uniform in size and shape, uniform in maturity, with small tops and of beautiful and attractive bright red color. It is also one of the best strains for growing under glass.

Mr. Lester Kranich, R. D. 5, Box 110, West Bend, Wis., writes, "Your seeds are the best I have had and your Early Bird Radish can't be beat." Mrs. Gust Orth, R. D. 2, Box 108, Alpena, S. D., writes, "I like your Early Bird Radish very much indeed." Mrs. R. M. Corron, Wasco, Ill., writes, "Your Early Bird Radishes surely are fine. We found them the earliest and the best of any radishes that we planted." Mr. H. W. Lackey, R. D. 4, Box 10, Sioux Falls, So. Dak., writes, "Your seeds are certainly pleasing as to uniformity and trueness to type. Your Early Bird Radishes were particularly good."

If you are at all anxious, either as a market gardener or as a grower of Radishes for your own private table, to try to have Radishes from 3 to 6 days ahead of your neighbor, and if you are anxious to have about the finest Radish that seed can produce, even under the most adverse circumstances, then by all means plant Early Bird. Its crisp, brittle flavor, as well as its remarkably quick growth and fine color, alike recommend it.

975—Price of Early Bird Radish: Pkg., 10c; oz., 15c; 2 oz., 29c; $\frac{1}{4}$ lb., 56c; $\frac{1}{2}$ lb., \$1.10; lb., \$1.95, postpaid.

BLOOD RED SNOW WHITE TIPPED

The lively scarlet color points off to a pure white tip, giving it a most attractive appearance. It's perfection itself when it comes to quality and earliness! Splendid for forcing, also fine to plant as a succession variety. Radishes run uniform in both shape and size, averaging about $\frac{3}{4}$ inch in diameter. The skin is thin and tops are very short. The sparkling, snow white flesh is crisp, tender, fine grained and sweet. Does not become pithy or hollow. Matures in about 20 days. 972—Pkg., 10c; oz., 14c; 2 oz., 26c; $\frac{1}{4}$ lb., 48c; $\frac{1}{2}$ lb., 90c; lb., \$1.70, postpaid.

Early Bird
Seed

Radish

Earliest White

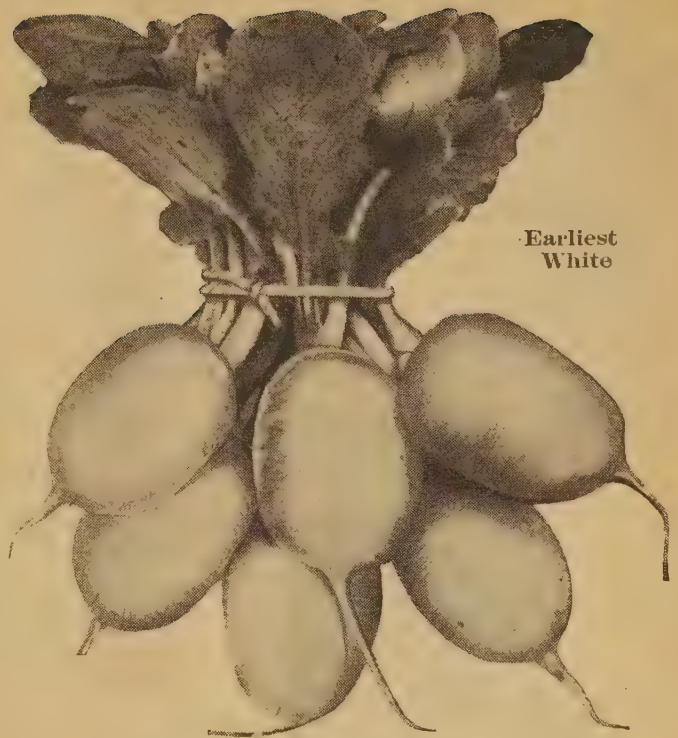

Pure white color, almost like crystal, so clear and transparent! Matures in about 18 days. It is a highly developed strain of finest quality and produces some of the earliest radishes that can be grown.

It is of olive shape, is adapted to all soils, has a very short top unusually thin skin, never becomes woody, flesh crisp, tender, and fine spicy taste. Equally good for outdoor sowing or for growing under glass. Home gardeners, sow this and Early Bird Radish for just about the earliest, finest two radishes in your neighborhood. Market gardeners sow these two varieties and make money.

Mr. A. S. Van Skaik, Sr., R. D. 2, Sharonville, Ohio, writes, "I have planted your seeds for a good number of years. Earliest White and Early Bird are two fine radishes."

Mr. Frank Howe, Lakeport, Calif., writes, "We were very well pleased with the Earliest White Radishes and with your other seed."

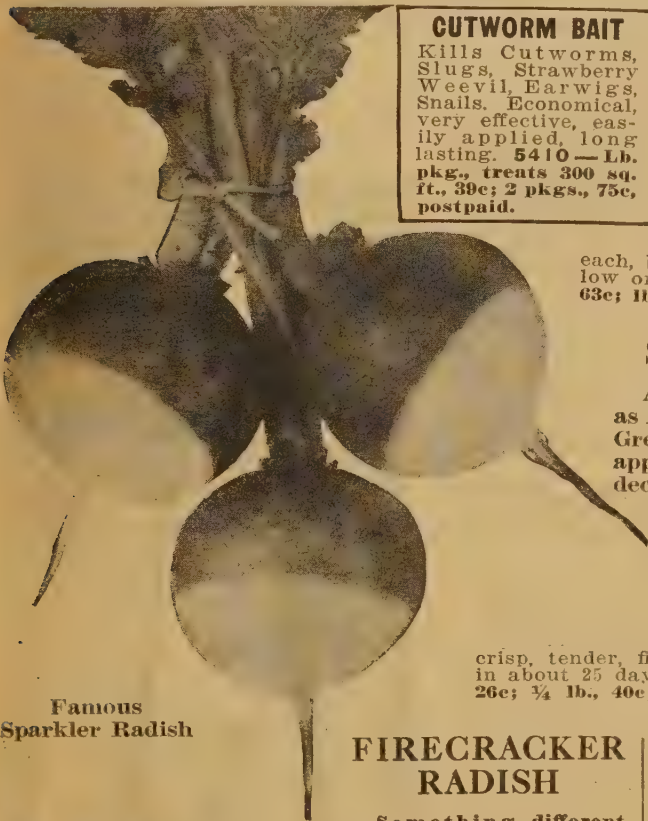

1006—Pkg., 11c; oz., 18c; 2 oz., 32c; ¼ lb., 52c; ½ lb., 63c; 1 lb., \$1.65, postpaid.

CUTWORM BAIT

Kills Cutworms, Slugs, Strawberry Weevil, Earwigs, Snails. Economical, very effective, easily applied, long lasting. 5410—Lb. pkg., treats 300 sq. ft., 39c; 2 pkgs., 75c, postpaid.

Famous Sparkler Radish

Firecracker

FIRECRACKER RADISH

Something different and a radish of great merit! Rather long, slender, all red radishes, bearing a fanciful resemblance to firecrackers, hence the name.

Firecracker is a distinct type of Long Scarlet Radish. In color it is vivid scarlet, cylindrical in shape, long, with very slender tap root and short tops. In addition it is extra early! Has a deliciously spicy taste, and this with its distinctive shape, make it a fine radish for either the home gardener or the market gardener.

998—Pkg., 12c; 2 pkgs., 20c; oz., 19c; 2 oz., 33c; ¼ lb., 55c; ½ lb., 95c; 1 lb., \$1.75, postpaid.

CRIMSON GIANT GLOBE

A grand, early, globe-shaped Radish, almost double the size of any of the early globe or turnip shaped type, and a rapid grower. Matures in about 28 days; the fine large roots reach about 2 inches in length and 1½ inches in diameter, with thin, tender skin of deep, crimson. The juicy, tender flesh is purest white, crisp and of mild, spicy flavor. The radishes reach a weight of about 1½ ounces each, but notwithstanding their immense size, they do not get hollow or pithy. 973—Pkg., 5c; oz., 13c; 2 oz., 24c; ¼ lb., 37c; ½ lb., 63c; 1 lb., \$1.15, postpaid.

SPARKLER RADISH

A splendid variety, also known as American Half Red, Half White. Greatly prized for its handsome appearance and attractiveness, and decidedly popular.

In shape it is nearly round, of a deep scarlet color, with the lower one-third white, which is slightly flattened. In size it runs from one to one and one-quarter inches. Does not become pithy. The quality is very fine, flesh is solid, crisp, tender, fine grained and sweet. Matures in about 25 days. 986—Pkg., 7c; oz., 14c; 2 oz., 26c; ¼ lb., 40c; ½ lb., 69c; 1 lb., \$1.25, postpaid.

EARLY SCARLET TURNIP

Handsome dark red radishes, crisp, tender, juicy flesh, spicy, and very early. Oval shape. Very desirable. 1026—Pkg., 5c; oz., 12c; 2 oz., 22c; ¼ lb., 34c; ½ lb., 59c; 1 lb., \$1.00, postpaid.

SCARLET GLOBE, VICK'S

A reliable radish, valuable for the home gardener as well as the market gardener. Fine oval shape, rich scarlet color, crisp, tender flesh, juicy, mild, and a very early type, well adapted to forcing. Measures about ¾ in. in diameter to 1¼ in. long.

1014—Pkg., 5c; oz., 14c; 2 oz., 24c; ¼ lb., 37c; ½ lb., 63c; 1 lb., \$1.15, postpaid.

1045—White Chinese. Often 18 inches long, white skin and white flesh.

CAVALIER

A highly colored radish, very early, of bright, almost true scarlet color! The tops are small and the radishes are very firm, oblong-globe shaped, slightly longer than broad with crisp, tender, white flesh. Good for both home and market. Ideal for forcing and for early home use and early market. 22 days. 991—Pkg., 9c; oz., 14c; 2 oz., 26c; ¼ lb., 40c; ½ lb., 69c; lb., \$1.25, postpaid.

ICICLE

A beautiful, almost transparent, white radish about four inches long with unusually small tops, remains in good condition a long time, does not get pithy, and is very crisp and brittle. This variety is highly esteemed and is so different from all other kinds that it has a place of its own in the radish family and as such our customers grow it, regardless of what other variety they may use.

The earliest and finest of the long white varieties. Matures in about three weeks, but they are fit for the table when quite small. The leaves are short, very few in number, permitting close planting. It is crisp, tender and mild in flavor.

1021—Pkg., 5c; oz., 13c; 2 oz., 22c; ¼ lb., 35c; ½ lb., 64c; lb., \$1.10, postpaid.

1025—Icicle, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain. Pkg., 10c; oz., 16c; 2 oz., 28c; ¼ lb., 47c; ½ lb., 85c; lb., \$1.50, postpaid.

SUMMER RADISHES

GIANT STUTTGART—The largest and latest of the white summer radishes. The roots grow to an immense size, often attaining four inches in diameter. The skin is white, the flesh white and crisp and keeps in good condition for a long time. Suitable for winter storing. 42 days. 1033—Pkg., 10c; oz., 17c; 2 oz., 30c; ¼ lb., 50c; ½ lb., 90c; lb., \$1.65, postpaid.

Icicle Radish

Rutabaga

Rutabagas are also known as Swedish Turnips, Swedes, or Russian Turnips. They have firmer flesh than turnips, however, are more solid, and hence keep later into spring. Like turnips, they are excellent for both table use and for stock feeding. They are also good as a rotation crop.

WHITE SWEET RUSSIAN

Has a white flesh of a milder and sweeter flavor and contains more saccharine than the yellow-fleshed sorts. Matures in about 80 days and is an extremely productive variety. Not so desirable for table use, but fine for stock. 1512—Pkg., 9c; oz., 16c; ¼ lb., 47c; ½ lb., 85c; lb., \$1.50, postpaid.

AMERICAN PURPLE TOP

It is unusually productive, giving big yields of the finest rutabagas; also a splendid variety for table use. Roots of large size, globular, with flesh of deep yellow color, fine grained, and of finest quality. Skin yellow with purple top. 1508—Pkg., 8c; oz., 15c; ¼ lb., 44c; ½ lb., 72c; lb., \$1.35, postpaid.

Best for the Table

Delicious Rutabaga—Fine Grained, Tender, Sweet Flavor, Abundant Yields

DELICIOUS

Delicious Rutabaga is a superb rutabaga, finely flavored, tender, fine grained, and very sweet, that we have developed for table use only. Roots are globe shaped, very smooth and handsome, fine deep yellow with purple tops, and have very small "necks." Enormously productive. It surpasses all other rutabagas in tenderness and flavor, hence we recommend it only for table use. Invaluable for truckers and for home use. We recommend it highly and believe you will be pleased with it.

1517—Pkg., 10c; oz., 22c; 2 oz., 38c; ¼ lb., 65c; ½ lb., \$1.19; lb., \$2.25, postpaid.

MAMMOTH RUSSIAN RUTABAGA

Mammoth Russian Rutabaga is the heaviest yielding, the largest and most uniform variety. One of the finest and sweetest for table use, is devoid of woodiness, and is also one of the best for stock. Has very short neck. Easily harvested. Sow about two pounds per acre. Flesh is fine grained, golden yellow and mild-flavored. 75 days. It is a heavy cropper and has been giving very fine satisfaction in all sections. 1510—Pkg., 10c; oz., 20c; 2 oz., 34c; ¼ lb., 59c; ½ lb., \$1.10; lb., \$1.95, postpaid.

BUG GUN

A very effective duster that reaches all parts of the plant, including the under side of the leaves. Contains 10 oz. Kalite, the nationally advertised insecticide. Refillable. 5471—Price, 65c; 4 lb. refill (usable in any duster gun), \$1.20, postpaid.

Turnip

SNOWBALL OR SIX-WEEKS

Splendid table qualities. One of the earliest, round, white turnips, producing medium large, round roots with only a single tap root; they are of attractive appearance; quite smooth, skin and flesh snowy white. The flesh is firm, mild and sweet. 40 days. 1204—Pkg., 5c; oz., 16c; 2 oz., 28c; ¼ lb., 47c; ½ lb., 85c; lb., \$1.45, postpaid.

PURPLE TOP STRAP LEAF

It is splendid for early spring and late fall sowing, producing in about 42 days, a tender, mild, sweet turnip. Roots quite flat with upper half a purplish color and the lower half white. Flesh is pure white. 1211—Pkg., 5c; oz., 15c; 2 oz., 27c; ¼ lb., 44c; ½ lb., 72c; lb., \$1.35, postpaid.

PURPLE TOP WHITE GLOBE

A good producer and a fine keeper, splendid for table, tip-top for stock. It is of symmetrical globe shape. The roots are large, white, and purple above ground. The flesh is white, tender, fine grained and mild in flavor. 55 days. 1212—Pkg., 5c; oz., 15c; 2 oz., 27c; ¼ lb., 44c; ½ lb., 72c; lb., \$1.35, postpaid.

GOLDEN BALL

Medium sized, round roots of deep golden-yellow skin and flesh, which is firm, crisp and of excellent quality for the table. 42 days. 1236—Pkg., 5c; oz., 14c; 2 oz., 26c; ¼ lb., 40c; ½ lb., 69c; lb., \$1.25, postpaid.

SUNFLOWER

JUMBO—Bears large heads, frequently 12 to 20 inches in diameter and sometimes yielding 1,000 pounds of seed per acre. Makes splendid feed for chickens and parrots. Sunflowers also produce 20 to 30 tons palatable silage per acre and can be successfully grown where spring is late and frosts are early. The seed is eagerly eaten by fowls, and they fatten thereon and lay more eggs than on any other food. It is relished by horses, cattle, sheep, swine, etc., which thrive and fatten thereon. The oil burns well, and 20 barrels can be made per acre.

4703—Oz., 10c; ¼ lb., 17c; lb., 44c; 2 lbs., 80c; 5 lbs., \$1.65, postpaid. Not prepaid, 10 lbs. or more, at 24c per lb.

Sunflower

NEW ZEALAND SPINACH

Not related to the regular Spinaches, but this should be more widely grown, as the plant stands all summer and produces a continuous supply of good quality, small, thick, pointed, deep green leaves which are used just like Spinach. Forms large, spreading plants, five to eight feet across, during summer and early fall, from seed sown in spring. 1068—Pkg., 10c; oz., 22c; 2 oz., 38c; ¼ lb., 65c; ½ lb., \$1.19; lb., \$2.25, ppd.

Earliest of All Tomato

Although introduced by us many years ago, we believe Earliest of All is still the leading extra early tomato, and the earliest large-sized variety grown.

With us in the North it has always been a study to produce extremely early vegetables, such as will ripen and produce perfect fruit in a short time, and in Earliest of All our efforts have been successful. Everybody who has tried it speaks of it in highest praise. Earliness in tomatoes is essential for the market grower and highly desirable for the home garden. We consider Earliest of All is the best extra-early so far produced; it is our very earliest strain; it is a "short season" tomato. Ripening in about 57 days, after setting out the plants, it is especially adapted to all sections of the country, which makes it so decidedly popular. Finely bred for uniformity in size, attractiveness, extra earliness, and trueness to type.

The fruits are of good size, brilliant scarlet color, nearly round, entirely smooth, and remarkably handsome. The flesh is solid, and of the finest flavor. The fruits are borne continuously in large numbers until killed by frost. They have a tough skin, firm flesh, making them good shippers and keepers.

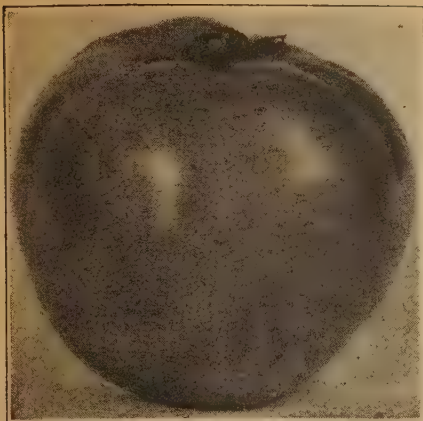

Price of Earliest of All: 1118—Pkg., 15c; ½ oz., 43c; oz., 80c; 2 oz., \$1.55; ¼ lb., \$3.00, postpaid. See Page 16 for Tomato Plants.

WISCONSIN No. 55

The tomatoes are slightly oblong and ripen to a beautiful scarlet red, are very large, and are freely produced. Does not crack easily. Vine growth dense, preventing much sunscalding. Wisconsin No. 55 is resistant to blossom end rot and somewhat resistant to early blight. A very fine variety developed by the Wisconsin College of Agriculture. Heavy yielder. 75 days. 1126—Pkg., 35c; ½ oz., 50c; oz., 92c; 2 oz., \$1.75; ¼ lb., \$3.35, postpaid.

Wisconsin No. 55

Firesteel Tomato

FIRESTEEL

An unusually fine red tomato weighing from 12 to 15 ounces each, borne in clusters of 3 to 5, that matures in 67 days! Firesteel runs uniformly to large size tomatoes, not only immense size at the first picking but clear to the end of the season. There are very few small tomatoes.

Firesteel is of globe shape, smooth skin, of elegant flavor, free from acidity, exceedingly solid and meaty, ripening to a beautiful dark crimson red all over at the same time. Vine medium, vigorous, fairly open, with medium foliage. Firesteel has set heavy crops no matter how dry and hot the weather. Has yielded 11 bu. per row in dry hot seasons, compared with 4½ bu. and 2½ bu. per row of two other varieties. 1124—Pkg., 15c; 2 pkgs., 25c; ½ oz., 45c; oz., 82c; 2 oz., \$1.45; ¼ lb., \$2.75, postpaid.

JUNE PINK

A large pink-fruited variety. The fruits average 6 ounces, are nearly round and slightly ribbed. Flesh is of fine texture and best quality. Also known as Pink Earliana. 70 days. 1141—Pkg., 8c; oz., 72c; 2 oz., \$1.34; ¼ lb., \$2.50, postpaid.

DWARF CHAMPION

Quite distinct from other varieties in habit of growth and foliage. Good sort for the home garden as the plants, owing to their upright growth, take up but little room and yield abundantly. The plants stand up almost like small trees. Ripens early; of medium, uniform size; deep glossy red with purplish tinge; round, smooth, free from cracks. A very desirable sort. 80 days. 1156—Pkg., 15c; oz., 98c; 2 oz., \$1.90; ¼ lb., \$3.45, postpaid.

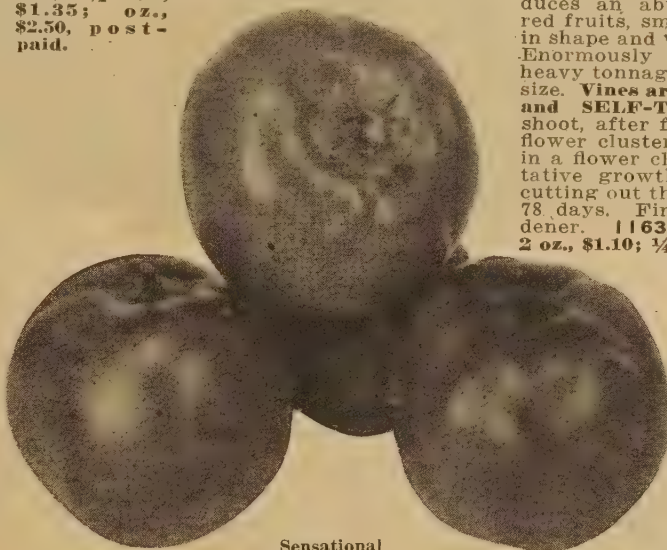

Bonny Best or Chalk's Early Jewel

BREAK O'DAY TOMATO

A very early tomato, disease-resistant. The large scarlet, almost globular fruits mature in 70 days, they do not crack, are very solid, with few seeds, and are of delicious flavor. Very productive. 70 days. 1162—Pkg., 10c; ½ oz., 44c; oz., 74c; 2 oz., \$1.39; ¼ lb., \$2.65, postpaid.

SENSATIONAL

Sensational was introduced by Salzer's in 1946. It has earliness, solidarity, perfect smoothness, large size, and it is a tremendous yielder! We believe it will eclipse any early tomato grown today. It was developed by Mr. William E. Vail, Yorktown Heights, N. Y. The cool summer and cloudy days of 1945 retarded tomatoes, but Sensational came through well and outyielded all other varieties! Seed was planted at Cliffwood Farms on June 6 and the first tomatoes were picked on August 25.—81 days from seed to ripe fruit! The tomatoes are red, with firm flesh, meaty, smooth, and of sub-acid flavor. Heavy yielder. Fine for tomato juice. 1121—Pkg., 40c; ¼ oz., 75c; ½ oz., \$1.35; oz., \$2.50, postpaid.

Sensational

BONNY BEST TOMATO

Also known as Chalk's Early Jewel. An early bright red tomato, large, smooth, and finely flavored, producing heavily and continuously throughout the season.

The fruits are very big, handsome, very solid and deep through. Of bright scarlet color, ripen right up to the stem without any cracks or green core. Flesh thick, with comparatively few seeds and of sweet flavor. A good shipper. 75 days. 1114—Pkg., 10c; oz., 69c; 2 oz., \$1.20; ¼ lb., \$2.25, postpaid.

JUBILEE

The fruits are bright golden orange, globular, thick, meaty, orange colored interior, flavor somewhat mild. Makes delicious juice of attractive color. 72 days. 1125—Pkg., 15c; 2 pkgs., 25c; ½ oz., 60c; oz., \$1.15; ¼ lb., \$3.75, postpaid.

YELLOW PONDEROSA

Same fine characteristics as Improved Ponderosa described elsewhere except that the color is a rich golden yellow. 1179—Pkg., 10c; oz., 99c; 2 oz., \$1.90; ¼ lb., \$3.50, postpaid.

1181—Yellow Ponderosa. Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: Pkg., 15c; oz., \$1.19; 2 oz., \$2.20; ¼ lb., \$4.15, postpaid.

Tomato

SCARLET TOPPER

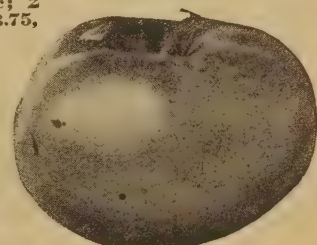

This superb early variety produces an abundance of beautiful red fruits, smooth, meaty, globular in shape and with an elegant flavor. Enormously prolific and yields a heavy tonnage of tomatoes of large size. Vines are medium dense, erect, and SELF-TOPPING. The main shoot, after forming two or three-flower clusters, usually terminates in a flower cluster, checking vegetative growth much the same as cutting out the top, hence the name. 78 days. Fine for the home gardener. 1163—Pkg., 10c; oz., 59c; 2 oz., \$1.10; ¼ lb., \$1.95, postpaid.

EARLIANA

An extra-early deep red tomato. Very productive. Good sized fruit, about three inches in diameter with solid, thick flesh. Good shipper. 66 days. 1117—Pkg., 10c; oz., 80c; 2 oz., \$1.50; ¼ lb., \$2.85, postpaid.

COLOR-TRU SEED—The seeds of this variety have
been stained VIOLET to insure customers receiving true
seed. Accept no other.

If it is size you want, and just a luscious, deliciously good,
all around tomato, then you must plant Peak of Perfection!

We gave free seeds of this tomato to our customers and friends in 1927 under the name
of New Wonder and offered prizes for the largest tomato grown and for the best name for
this beauty. Mr. Acro Castle, Huesville, Ky., won the prize of \$25.00 cash for the largest
tomato with a weight of 4 pounds 7 ounces. Think of a monster tomato like that!
Mr. Albert F. Quick, R.D. 2, Box 248, Elgin, Illinois, writes, "The Peak of Perfection
Tomato was very satisfactory. My wife thinks your concern is the best in the land."
Mr. Ervin L. Chapman, 427 Beech St., Petoskey, Mich., writes, "I like Peak of Perfection
Tomato. We have been planting your seeds since 1902."

Peak of Perfection is practically free from seeds. The tomatoes are of a beautiful ap-
pearance, uniformly large and smooth, with a rich dark crimson skin, meaty, and have a
delicious, melting flavor. All esteem it the finest flavored tomato they have ever eaten.
But combined with this delicious flavor is the enormous size! 90 days. 1131—Pkg. 17c;
½ oz., 65c; oz., \$1.22; 2 oz., \$2.19; ¼ lb., \$3.95, postpaid.

Rutgers Tomato. Notice Its Meatiness!

Marglobe, Disease-Resistant

RUTGERS

Originated by Prof. Schermerhorn of the New Jersey Agricultural Experi-
mental Station. Rutgers is outstanding for the large size and solid structure
of the fruit! Skin is dark red, with thick outer and inner walls, very small
seed cavities, and the interior color is a beautiful dark red.

Matures in about 85 days and the yield is very large, ripening an abundance
of fruit even in the far northern climates, before the vines are killed by frost.
It makes juice of low acidity and fine flavor and is a good canner, maintaining
its firmness and deep red color when canned. Especially good for light sandy
soils since the vines offer much protection for the fruit. Has yielded over 10
tons per acre! 1120—Pkg., 10c; ½ oz., 45c; oz., 77c; 2 oz., \$1.45; ¼ lb., \$2.75,
postpaid.

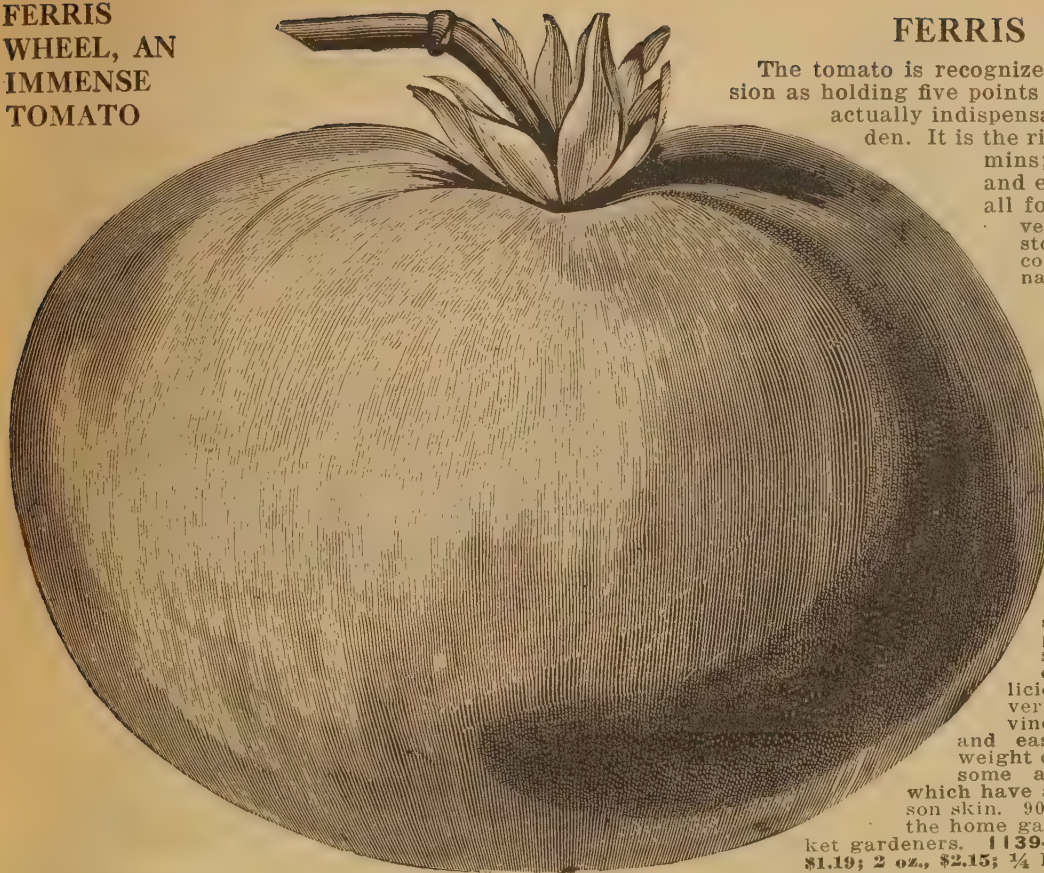

MARGLOBE, DISEASE-RESISTANT

Marglobe is a cross between the Marvel and Globe tomatoes, developed by
the U. S. Department of Agriculture, combining the second earliness of the
former with the fine table quality of the latter. Marglobe is of fine scarlet
color, globe shaped, of fine texture, deliciously mild in flavor, and wilt-resis-
tant to a marked degree. Plants are of vigorous and heavy growth and very
prolific. We have a record of one plant, on diseased soil, producing 107
large, fine round, best quality tomatoes. 80 days. Fine for tomato juice.
Gives fine satisfaction in all sections. 1130—Pkg., 10c; ½ oz., 37c; oz., 64c;
2 oz., \$1.15; ¼ lb., \$2.10, postpaid.

Note: Wash tobacco from hands and do not smoke while working

FERRIS WHEEL, AN IMMENSE TOMATO

FERRIS WHEEL

The tomato is recognized by the medical profession as holding five points of merit which makes it actually indispensable in the vegetable garden. It is the richest of all foods in vita-

mins; it is the most wonderful and effective blood cleanser of all foods; it is the best of all vegetables for keeping the stomach and intestines in condition; it is an extraordinary tonic for the kidneys, and it is used widely in curing diabetes and Bright's disease. In addition, it is extremely valuable for feeding the juice to infants, accomplishing wonders in cleansing and building up the tiny stomachs. Every garden in the U.S. should contain at least a few tomato plants. Plant some this year!

Ferris Wheel is of the large Ponderosa type and averages about 1 1/4 pounds in weight, although at Cliffwood Farms we have grown specimens weighing over 4 pounds. Fruits have thick, solid, meaty flesh, which is of the finest quality, delicious, sub-acid flavor and very small seed cavity. The vines are strong and vigorous and easily bear their enormous weight of fruits which are of handsome appearance, smooth, and which have a rich, dark purplish-crimson skin. 90 days. A grand tomato for the home gardener as well as for market gardeners. 1139—Pkg., 15c; 1/2 oz., 63c; oz., \$1.19; 2 oz., \$2.15; 1/4 lb., \$3.85, postpaid.

IMPROVED PONDEROSA

Rightly named "Ponderosa" because of the large size it attains. Fruit is very solid, with few seeds. Very often large tomatoes, from their very size, are rough and have a tendency to split, but we selected this seed so exhaustively that we have removed the roughness and splitting tendency as far as it is possible to do so.

Vines are vigorous and productive. Fruits large, oblong, purplish red, with thin skin. Flesh is solid, with a very small seed cavity, making it a most desirable variety for slicing. To all who desire large size, solidity and flavor, we unhesitatingly recommend it. Requires about 85 days to mature. Mr. Chas. Weaver, R.D. 2, Gladwin, Mich., writes, "I have ordered Improved Ponderosa and your other seeds for several years, with good results."

1142—Pkg., 10c; oz., 98c; 2 oz., \$1.85; 1/4 lb., \$3.50, postpaid.

1133—Improved Ponderosa, Salzer's Cliffwood Farm TRIPLE-A-TESTED seed; Pkg., 15c; oz., \$1.15; 2 oz., \$2.15; 1/4 lb., \$4.00, postpaid.

Select Stone

King of the red tomatoes! The leading main crop variety, extensively grown by market gardeners, ideal for the home garden. Grown extensively by canners for tomato soup, etc. Best of all for tomato juice.

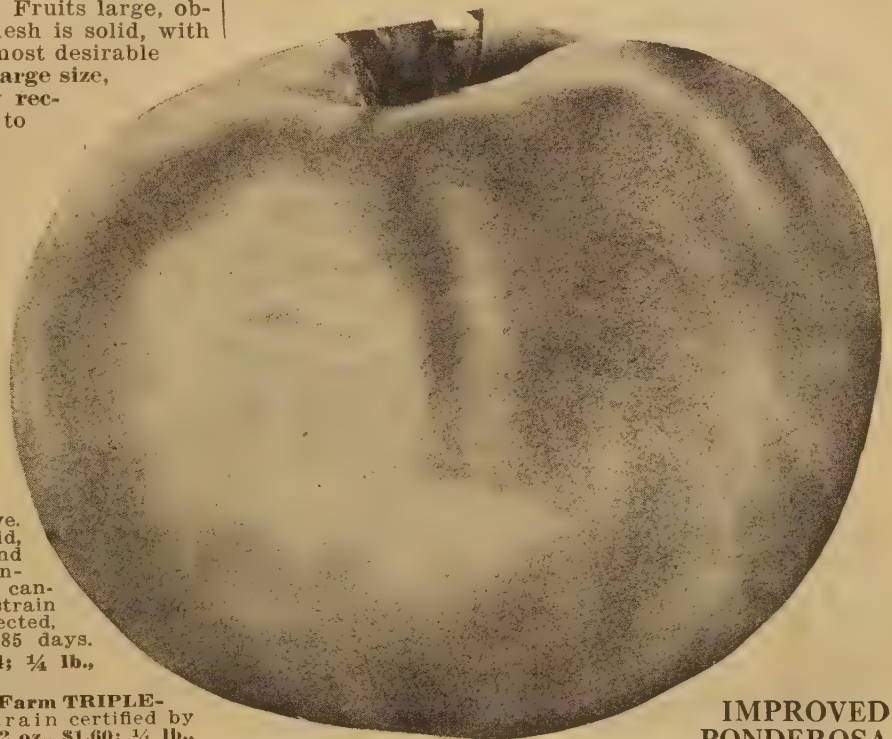

Vines are large, strong and productive. It is a smooth, large tomato, nice and solid, free from core and cavity. Nearly round in shape. The eating quality is exceptionally fine, has no superior for slicing or canning. Fruits are bright scarlet. Our strain of this variety is carefully grown, selected, rogued and cured. Matures in about 85 days.

1122—Pkg., 10c; oz., 72c; 2 oz., \$1.34; 1/4 lb., \$2.50, postpaid.

1132—Select Stone, Salzer's Cliffwood Farm TRIPLE-A-TESTED — A special reselected strain certified by THREE-WAY tests. Pkg., 15c; oz., 84c; 2 oz., \$1.60; 1/4 lb., \$2.95, postpaid. Tomato Plants, see Page 16.

SUGAR TOMATO

Eat tomatoes like grapes! A very sweet tomato and actually requires less sugar than other varieties! Sugar Tomato is small in size, borne in clusters, and you will like it for making a dainty, different salad. Fine for tomato juice. Measures about 3/8 inch in diameter. Yields bountifully! 1119—Pkg., 20c; 2 pkgs., 35c; 1/2 oz., 57c; oz., \$1.00; 2 oz., \$1.90; 1/4 lb., \$3.65, postpaid.

OXHEART TOMATO

A very popular late variety, maturing in 90 days. The fruits are very large in size, often weighing one to two pounds each and even more, are purplish-pink in color, smooth, the shape of a beef heart, and with such a solid internal structure that there is very little room left for seed.

Oxheart is of very mild and sweet flavor which is preferred by many people to the more acid flavors. Is a choice tomato for salads, with its thick, delicious flesh! The flesh often shows an inch thick, without a single seed cavity. Receives its name from its shape, which is large at the stem end, tapering almost to a point. Vine growth is open and spreading, the fruits setting in clusters of 3 to 7.

1477—Pkg., 15c; ½ oz., 65c; oz., \$1.22; 2 oz., \$2.19; ¼ lb., \$3.95, postpaid.

NORTON WILT-RESISTANT

If you have been troubled with wilt, plant Norton Wilt-Resistant Tomato. Has yielded 300 bu. to the acre on soil affected by wilt, while other varieties next to it, yielded 25 bu. The tomatoes ripen nice and solid on the vines. Firm, solid skin, is a wonderful shipper, of fine flavor, meaty, few seeds and very tender. Is a mid-season tomato, globular, and of a beautiful scarlet color. Fine for tomato juice.

1129—Pkg., 10c; oz., 60c; 2 oz., \$1.20; ¼ lb., \$2.25, postpaid.

TENDERLOIN

The meatiest tomato grown, Tenderloin is the only fitting name for this splendid variety! The fruits are large and heavy, with thick walls, small seed cavities, few seeds, luscious and tender flesh, are borne in great profusion and even though they reach such a large size, they do not easily crack or split. Its beautiful bright red color, smooth skin and handsome, attractive shape, always commands attention. At market, it fetches high prices, and home gardeners are enthusiastic over the heavy, meaty fruits of Tenderloin tomato. 1134—Pkg., 15c; ½ oz., 52c; oz., 99c; 2 oz., \$1.89; ¼ lb., \$3.55, postpaid.

Wilt-Resistant Beauty Aster

Cliffwood Dwarf Aster

CLIFFWOOD DWARF

Compact plants about ten inches high, covered with semi-double asters 1 1/2 inches across, of a lovely dark rose color, with a beautiful yellow eye. Elegant for borders, or for a solid bed of asters. As many as seventeen flowers are open at one time, on one plant. Mid August. 1676—Pkt., 20c; 2 pkts., 35c.

All Saints Mixed. A mixture of various colors and shades, extra dwarf plants about 8 inches high, fine for borders or dwarf beds. 1677—Pkt., 15c; 2 pkts., 25c.

IMBRICATED POMPON ASTER

Very early. Plants 15 inches high, freely producing their small round pompon flowers which have an outside row of short petals. Often has 25 flowers to a plant. Mixed colors. 1757—Pkt., 10c; 1/8 oz., 25c.

Wilt-Resistant Asters

Loss of seedlings or transplanted plants, stunted, one-sided and off color plants in those that survive, dark colored streaks in the stem, yellowing of the upper leaves and death of the lower leaves are characteristics of Aster wilt or Aster stem-rot. The wilt organisms are capable of prolonged existence in one's soil and the only remedy is WILT-RESISTANT SEED.

This seed is practically immune to wilt and stem rot and produces flowers on soil upon which ordinary seed would not possibly grow. In one severe test, plants from this wilt-resistant seed grew splendidly while 93% from ordinary seed succumbed. We offer wilt-resistant seed of the following:

1743—Queen of the Market, Mixed	1745—Giant Branching, Mixed

California Giant Asters

Annual. This marvelous type is about the finest Aster in cultivation today, and commands the highest price at the cut-flower markets of all of our large cities. No less, does it make a beautiful display in the garden.

It is a cross between the Beauty Type of Aster and the Crego Aster, combining the vigorous tall growth of the former with the lovely, double, large flower of the latter. Salzer's California Giant is practically non-lateral, but instead, carries its blooms at the end of its long stems, without the small side branches, producing enormous flowers of wonderful substance on strong, stiff stems 20 to 24 inches long. The flowers measure 5 to 6 inches in diameter, with long petals that fluffily curl across each other and produce an exquisite bloom that has no equal.

Wherever exhibited, this superb Aster has won many prizes and received awards of merit.

Mrs. Lester L. Rand, R. D. 3, Auburn, Maine, writes, "Friends thought that the California Giant Asters that I raised had been bought from a florist. The first blossoms measured six inches in diameter." Mrs. Minnie Tatro, R. D. 1, Geneva, Nebraska, writes, "We had lovely Asters from your California Giant Aster Seed." Mrs. Mable La Mont, Blue Rapids, Kansas, writes, "No doubt you will be glad to know that I received a Blue Ribbon on your California Giant Asters and on your Crego Asters at the Marshall County Fair this fall."

SALZER'S FROST PROOF PANSIES

Biennial. Salzer's Frost Proof Pansies are what their name implies; they successfully winter through the severe climate of this north country and bloom long after frost. For a number of years Frost Proof Pansies at our Cliffwood Farm have delightfully surprised us with the number of beautiful blossoms we pick during the cold months.

The flowers themselves are very large, often measuring 3 inches across, and are produced in a beautiful variance of colors from deepest black to snow white. Myrtle R. Dobberstein, R.D. 3, Box 40, Sleepy Eye, Minn., writes: "Your Frost Proof Pansies are lovely and of exquisite colors, and truly giant in size. They are still blooming (Oct. 4)." Mrs. Thomas M. Seiber, R.D. 2, Box 111, Iuka, Ill., writes: "Last spring I planted a packet of your Frost Proof Pansy Seed and they wintered through fine. The flowers are larger than any I have seen at the Greenhouses."

We are able to give you varieties in straight colors as listed, or a lovely blended Cliffwood mixture in all colors.

SALZER'S FROST PROOF PANSIES

2295—**Snowdrift.** Snowy white. Beautiful.

2296—**Northern Lights.** A combination of all the pansy colors; attractively shaded and blotched.

2297—**Alaska.** Red, pink and wine colored shadings.

2298—**Iceland.** A rich dark blue.

2299—**Yukon.** Many different shades of bronze; large flowers.

2278—**Northern Star.** A charming shade of deep yellow.

2279—**North Pole.** Luxurious deep purple and dark violet blue shades. Large, perfect flowers.

Any of above varieties: Per pkt., 100 seeds, 35c; any 4 pkts., \$1.25; ½ oz., \$2.45; ¼ oz., \$4.50. One pkt., each of above 7 separate colors for \$1.85.

2292—**Cliffwood Mixed.** Contains all of the above seven colors, and others, carefully mixed. A beautiful array of colors and shadings. Pkt., 100 seeds, 25c; ½ oz., \$2.15; ¼ oz., \$3.95.

BLUE BOY New. A beautiful new pansy of clear silvery lilac, that is immensely popular wherever grown. Large, perfect flowers of great substance, and an unusual color. 2280—Pkt., 40c; 2 pkts., 75c.

Swiss Giant Pansy

2273—**Super Maple Leaf Mixed.** A distinct type with leaves of giant size and flowers up to four inches across. The huge size, fine form and substance, and wide range of colors make it a most desirable type. Pkt., 15c.

2282—**Masterpiece (Ruffled or Frilled Pansy).** A remarkable type, the petals of the rich, velvety flowers being conspicuously curled or waved. Colors are mainly the luxurious, dark, velvety tones. Pkt., 10c; 2 pkts., 15c.

JOHN A. SALZER SEED CO.
LACROSSE, WISCONSIN

PETUNIA

Annual. Few flowers excel Petunias in brilliant and gorgeous display, especially for porch or window boxes. Easily grown, requiring only a good soil and a sunny position. Sow seed indoors and transplant to the open in May, or the seed may be sown directly out of doors in May. Have the soil well pulverized, but as the seed is fine, do not cover it. Just lightly press it into soil. 1 to 1½ feet.

Mixed Balcony Petunias

PLAIN EDGE SINGLES BALCONY PETUNIAS

This type is very popular. Unusually free-blooming, trailing in growth, with immense single flowers averaging three inches in diameter, and particularly suited for hanging baskets, window boxes, and also for beds.

Mixed. Flowers often 2½ to 3 in. across, in many beautiful colors. Always in bloom, 2334—Pkt., 10c; 3 for 25c.

Cliffwood Balcony Mixed. Our own savings from the finest flowers; of very large size and beautiful form; varied and brilliant colors. 2335—Pkt., 15c; 3 for 40c.

Miniature Rose Gem

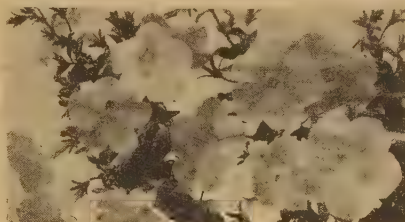

MINIATURE ROSE GEM

The plant of this showy petunia is only five to six inches high, compact and bushy, and simply smothered with rich rose colored single flowers about two inches in diameter. Very desirable for borders because of its compact growth. 2316—Pkt., 20c; 2 pkts., 35c.

FLAMING VELVET

Received Gold Medal 1936 All American Flower Selections! Flowers are large, of a heavy velvety substance, and are borne in riotous profusion. The color is outstanding—a rich and brilliant blood red, running very true to type. 2314—Pkt., 20c; 2 pkts., 35c.

PLAIN EDGE SINGLES, Cont'd

Rose of Heaven Petunias

Cuthbertson
Sweet
Pea

CUTHBERTSON SWEET PEAS

Annual. Ability to stand hot weather, length of stem, big wavy blossoms, number of blossoms (four to six per stem), fragrance, and brilliant colors, characterize this superb strain of Sweet Peas. It is the result of about sixteen years of breeding, and possibly the most important of all, it withstands hot weather to a marked degree. In our trials, Cuthbertson continued to produce an abundance of large flowers on good stems, well into the hot summer! About two weeks later than the Early Orchid Flowering and two weeks earlier than the Spencer listed below. Mixed colors only. Sow as soon as the soil can be worked and danger of severe frost is past. **2015—Pkt., 20c; 2 pkts., 35c; oz., 65c; ¼ lb., \$2.25; ½ lb., \$4.25; 1 lb., \$8.00.**

EARLY ORCHID FLOWERING

Annual. Flowers of very large size, of clear, beautiful coloring, beautifully waved, usually borne four to a stem, and very early! A very desirable strain because of its earliness. Sow as soon as ground can be worked and danger from severe frost is past.

2621—Blue Bonnet. Clear blue. Pkt., 9c; 2 pkts., 16c.

2626—Mars. Ox-blood crimson. Pkt., 11c; 2 pkts., 20c.

2627—Othello. Rich, deep maroon. Pkt., 10c; 2 pkts., 18c.

2629—Shirley Temple. Rose pink. Pkt., 15c; 2 pkts., 26c.

2630—Snowstorm Improved. Best white. Pkt., 9c; 2 pkts., 16c.

2631—Vulcan. Vivid scarlet. Pkt., 10c; 2 pkts., 18c.

Sweet William, Auricula and White

Dahlia Flowered Zinnia, Crimson Monarch

DAHLIA FLOWERED ZINNIAS

The Dahlia-flowered Zinnias are distinguished by being nearly as deep in the center as they are wide, with smaller individual petals than the ordinary varieties, but many more of them. Moreover, their colors are softer and more pleasing, being characterized by blended shades and pastel effects which, with the slightly reflexed and closely over-lapping petals, give the whole flower the appearance of a fine satin cushion. The plants are tall and vigorous, producing a wealth of immense blooms from July until frost. $2\frac{1}{2}$ to 3 feet. The huge, fully double flowers resemble the show type of Dahlias.

We offer the most popular shades:

2750—**Old Rose**. A charming shade.

2751—**Crimson Monarch**. Striking.

2752—**Lavender Gem**. Beautiful.

2753—**Polar Bear**. Pure white.

Any of above: Per pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c. One pkt. each of above 4 for 30c; $\frac{1}{8}$ oz. each for 85c.

Mixed. All of above and other colors, mixed. 2754—Pkt., 8c; $\frac{1}{8}$ oz., 20c.

Mixed, Salzer's Cliffwood Farm TRIPLE-A-TESTED—A special reselected strain certified by THREE-WAY tests: 2755—Pkt., 15c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 45c.

CALIFORNIA GIANT DOUBLE ZINNIAS

This splendid type has large, flat flowers, very graceful, with petals somewhat loosely placed, rather than closely folded and thick centered. The size of the flower has been notably increased over the old Giant Show type. The petals are decidedly imbricated and the flower from bud to bloom assumes a succession of graceful forms. 3 to 4 feet.

The flowers are truly giant in size, frequently measuring 5 to $5\frac{1}{2}$ inches in diameter, and are borne on long and strong stems. When cut the graceful flowers last exceptionally long in water, and make a lovely bouquet. Everyone who has seen them has greatly admired this lovely mammoth type of Zinnia, and its lovely range of colors. We offer it to our customers knowing that it will be a most welcome addition to the flower garden. This and the Dahlia-flowered Zinnias are two very fine types.

2740—**Cerise Queen** | 2743—**Rose Queen**

2741—**Lemon Queen** | 2744—**Scarlet Gem**

2742—**Orange King** | 2746—**Salmon King**

2745—**Finest Mixed**

Any of above, 12c per packet; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c. One packet each of above six separate colors, for 60c; $\frac{1}{8}$ oz., each of above six, for \$1.15. **Plants of any of above:** 39c per dozen; 25 for 75c; 50 for \$1.45, postpaid.

SALZER'S HARDY SHRUBS

ALL SHRUBS ARE SENT POSTPAID

Salzer's ornamental flowering shrubs are perfectly hardy everywhere, they need no protection and last for years.

Flowering Almond

FLOWERING ALMOND

A desirable shrub, 3-5 ft. high. Because of its compact shape and dwarf height, it is an elegant subject for lawn planting where a conspicuous shrub is desired. The flowers usually appear before the leaves.

—**DOUBLE PINK.** Branches loaded in May with large, double rose colored blossoms. Each, 12 to 18 in., 64c; 3 for \$1.75.

Beauty Bush

BEAUTY BUSH

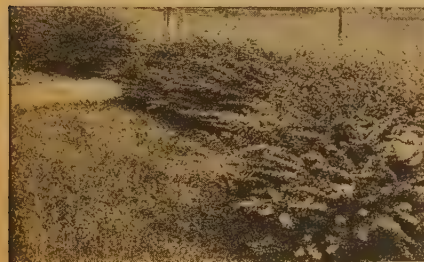

An exceedingly handsome shrub. The foliage and habit of growth is very attractive, making it desirable the year round.

Beauty Bush grows 6 to 7 feet high, erect and symmetrical, producing long arching branches which in spring are simply covered with clusters of small, tubular pink flowers of the honeysuckle type, borne in such profusion that the bush is one cloud of delicate pink. Its amazing floriferous qualities make it highly desirable.

Each, 1½ to 2 ft., 83c; 3 for \$2.35.

ABOUT PRUNING SHRUBS

Trim or prune your flowering shrubs in summer after they have bloomed, rather than in early spring. Early spring pruning cuts off the flowering branches and prevents the shrub from blooming.

Japan Barberry or Berberis Thunbergi

JAPAN BARBERRY

(Berberis Thunbergi.) Of dwarf growth, uniformly bushy and rounded, with thorny twigs. Very desirable as a low, compact hedge. It is covered with bright scarlet berries and the foliage turns to scarlet in fall. 2½ ft. Each, 12-15 in., 39c; 3 for \$1.14; 6 for \$1.95; doz., \$3.45; 25 for \$6.35; 50 for \$11.95; 100 for \$22.00.

RED LEAVED BARBERRY

The foliage is always a rich, lustrous, bronzy red. Throughout the summer this color is intensified until in the fall its foliage changes to vivid orange, scarlet, and red shades, and is followed by brilliant scarlet berries. To develop its brilliant coloring, it should be planted in full exposure to the sun. 2½ ft. Each, 12-15 in., 47c; 3 for \$1.35; 6 for \$2.55; doz., \$4.60; 25 for \$8.65; 50 for \$16.75.

BRIDAL WREATH See Page 91.

Japanese Rose

Hydrangea, Arborescens Grandiflora

HYDRANGEA

One of the finest of all shrubs. Desirable for their massiveness of bloom and long flowering season.

—**Arborescens Grandiflora (Hills of Snow).** Constantly in bloom from July until frost. 3 to 5 feet. Handsome foliage and great clusters of rounded snow-white flowers. Excellent in partial shade, and for growing on north side of house. One of the finest of all our shrubs, very hardy, the big heads of bloom making a beautiful display. Always gives satisfaction. Each, 1-1½ ft., 62c; 3 for \$1.75.

—**Paniculata Grandiflora.** The immense heads of bloom, often a foot long, are pointed, cream color in bud, pure white when fully expanded, changing to pink and bronze with age, and finally to brown when frosted. Attains a height of 5 to 7 feet. The blooms are often used for interior decorating for winter, after they have been frosted. Each, 1-1½ ft., 57c; 3 for \$1.60.

Hydrangea, Paniculata Grandiflora

JUDAS TREE

RED BUD. Small tree 15 feet high, covered very profusely in early spring, before the leaves appear, with pretty deep pink flowers, very showy. The foliage is handsome and distinct. Each, 2-3 ft., 59c; 3 for \$1.65.

Lilac, Alphonse Lavalle

FRENCH HYBRID LILACS

Larger flowers, improved form of bush and a more penetrating fragrance, feature these French forms of the Lilac. They are a vast improvement over the older forms and are highly desirable. Very hardy. 8 ft. April and May.

—**Alphonse Lavalle,** double violet.
—**Belle de Nancy,** double satiny pink.
—**Mme. Lemoine,** double white.
—**President Grevy,** double light blue.

RHODOTYPOS

A beautiful and interesting shrub, 4 to 5 feet high, with handsome and distinct, corrugated foliage. Succeeds in all soils, in sun or shade. Large, single, white flowers in late May, followed by conspicuous shining black, beadlike fruit, that remains far into winter. Very desirable. Each, 1-1½ ft., 75c; 3 for \$2.10.

Rhodotypos

Rose Acacia

ROSE ACACIA

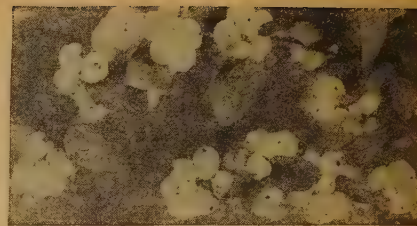

Robinia Hispida. The charming shrub grows 5 feet tall, and is much appreciated because of the abundance of its large, loose clusters of beautiful clear pink flowers, somewhat like Sweet Pea blossoms, borne in May and June. The fuzzy brown branches and small, oval, locust-like foliage make it interesting at all times. Each, 1½-2 ft., 74c; 3 for \$2.00.

Smoke Bush or Purple Fringe

SMOKE BUSH OR PURPLE FRINGE

Rhus Cotinus. A different, most striking and graceful shrub. In late summer and fall, it is entirely covered with a curious fringe of fine, purplish, misty-looking flowers which give the plant a smoky appearance. Grows 10 to 12 feet high, and requires plenty of space for development to its fullest beauty. Each, 1½-2 ft., 74c; 2 for \$1.40; 3 for \$2.00.

SNOWBERRY

SNOWBERRY

Racemosus. A desirable small shrub (3 to 5 feet) that grows in almost any soil; valuable for shaded locations. Bears small, rose-pink flowers in summer, which are followed by an abundance of large clustered, milk white berries that remain on the bush until far into winter. Each, 1-1½ ft., 38c; 3 for \$1.07.

Syringa Coronarius

SYRINGA

Or Mock Orange. (Philadelphus.) Desirable shrubs, long a favorite, with their orange-like fragrant white blossoms in May and June.

—**Lemoinei.** A dwarf form only 5 ft. high. Lovely, single white flowers. Each, 1-1½ ft., 53c; 3 for \$1.45.

—**Virginal.** The double flowering Syringa, that received a first-class certificate from the Royal Horticultural Society! Large, double, pure snow-white flowers, in clusters of 5 to 7, the individual blooms two inches and more in diameter. 8 ft. Each, 1-1½ ft., 79c; 3 for \$2.10.

—**Minnesota Snow Flake.** Plant Pat. No. 538. All double, exceptionally sweet scented, glistening white flowers, very freely produced from top to bottom of the bush! 8 ft., but can be kept trimmed to any height for dwarf situations. It is so free-flowering, and the white flowers so completely cover the bush, that it is a veritable cloud of snow flakes. May-June. Each, 1½-2 ft., \$1.10; 3 for \$3.00.

—**Amalthea.** Something quite different in Syringas! Large single flowers, sweetly scented, white with a pink eye! Free bloomer. Very choice. 6 ft. May-June. Each, 2-3 ft., \$1.25; 3 for \$3.45.

—**Atlas.** The Giant Mock Orange. These pure white blooms, almost three inches in diameter, and almost as large as Dogwoods, will also be sensational in your gardens! This variety is of French origin, very fragrant, symmetrical, and of free flowering habit. 8 ft. May-June. Each, 2-3 ft., \$1.50; 3 for \$4.15.

SPIREA

The Most Popular, One of the Loveliest, and One of the Most Satisfactory of All the Flowering Shrubs!

Emperor William Gloxinia

GLOXINIA

A Lovely House Plant

Handsome, big, choice velvety flowers! They love rich, light soil and the morning sun; in watering, do not get water on the leaves. Water from beneath by setting the pot in a pieplate of water. We ship bulbs in February and March, and started plants, as the season advances, in pot and soil, at no extra charge.

Choose from These Varieties:

DANUBE—White, edged blue. A beauty.

DEFIANCE—Brilliant red, very showy.

EMPEROR FREDERICK—Scarlet flowers with white border.

EMPEROR WILLIAM—Deep violet, banded with white margin.

ETOILE de FEU—Bright red, distinct from the other reds.

METEOR—Brilliant red, edge of the flower prettily fringed.

MONT BLANC—Pure white, large flowered.

QUEEN WILHELMINA—Carmine red.

WATERLOO—Purplish scarlet, fringed.

SPOTTED AND STAINED—Entire blossoms veined and spotted in mixed colors of pink, blue, purple, and red markings on white.

PRICES: Any of these Gloxiniae: Each, 42c; any 3 for \$1.19; any 6 for \$2.17; 1 each of the 10, for \$3.25.

TUBEROUS BEGONIAS

Differ from the other Begonias in that these are bulbs rather than plants. They are a lovely flower and are particularly suited to cool, moist and shaded locations. Plant about eight inches apart after danger from frost is past and water gently until established.

We offer mixed bulbs only and although we cannot guarantee any particular type will be in it, the mixture contains Single Tuberous Begonias, Double (Camellia type), Cristata (with a coxcomb-like crest), Carnation (resembling a carnation), and Crispa (or Single Frilled), in mixed shades of scarlet, yellow, orange, and white. May also be grown nicely as pot plants in an east or north window. Price: Each, 22c; 3 for 62c; 6 for \$1.14; dozen, \$2.05; 25 for \$3.90.

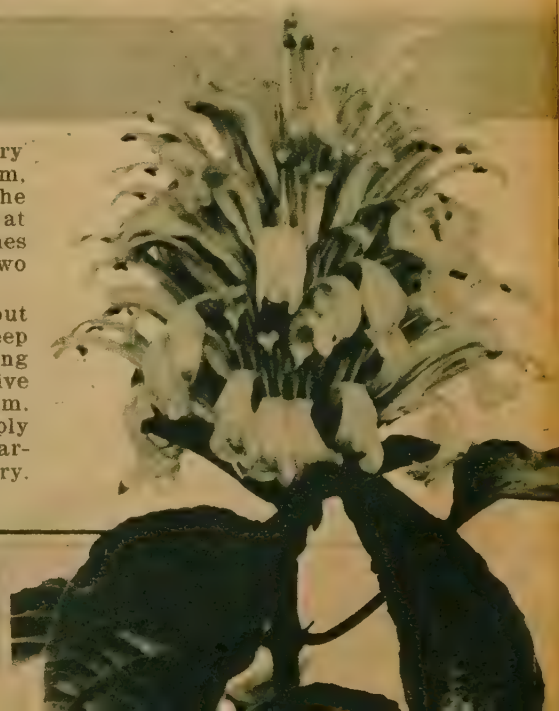

Single Tuberous Begonia

JACOBINIA

Jacobinia bears a very lovely spike of pink bloom, but on older plants when the center stem is pinched off at the top, the plant branches and frequently bears two and three spikes.

The whole plant is about 16 inches high, the rich, deep green foliage contrasting nicely with the four or five inch spike of pink bloom. Not difficult to grow. Simply pot it in ordinary good garden soil and water when dry. Each, 35c; 3 for \$1.00.

All Plants Are from 2 1/4 In. Pots. Plants Are Booked and Shipped When Danger From Freezing Is Past.

Double Pink Beauty Fuchsia

NEW FUCHSIA, MRS. MARSHALL

Something entirely different in Fuchsias! You've probably never before had anything like it. We offered this Fuchsia in 1947 for the first time. Mrs. Marshall has lovely dark red flowers, borne very freely, with the entire calyx and corolla a pure waxy white of heavy substance.

The ivory white calyx and the dark red flowers make a beautiful contrast and all who see it, immediately want one. Fuchsias do not like hot weather, and in the heat of summer they will do best in an eastern or northern exposure.

Mrs. Marshall is probably the prettiest and most distinctive Fuchsia grown today. Price: 2 1/4 in. plants: Each, 59c; 3 for \$1.65, postpaid.

SALZER'S HARDY ALFALFA

Any sweet soil, with drainage, will produce Alfalfa. There is hardly a farm where a suitable location for a field of Alfalfa cannot be found. Soil that produces good crops of small grains, clover and potatoes, is usually good. Drill in 12 lbs. per acre or sow 20 lbs. per acre broadcast.

PRICES ON ALL FIELD SEEDS ARE SUBJECT TO CHANGE WITHOUT NOTICE. PLEASE ORDER EARLY.

A Field of Hardy Land O' Lakes Alfalfa

LADAK ALFALFA

Wilt resistant, and claimed to be the hardest and highest yielding alfalfa! Ladak has consistently shown less winter killing than any other alfalfa, including Grimm, and has survived long and severe drouths where all other alfalfas were injured or killed. In addition, Ladak resists wilt; 55 varieties of Ladak in a test showed a fair stand after all the other alfalfas were 95% killed by wilt.

Ladak is a heavy yielder, producing a fine stemmed and exceptionally leafy hay. Certified Blue Tag seed.

4192—Certified Idaho, Dakota, or Montana Grown: 2 lbs., \$1.65; 5 lbs., \$3.87; 10 lbs., \$7.30, postpaid to 4th zone. Not prepaid: Peck, \$10.15; ½ bu., \$19.90; bu. (60 lbs.), \$38.95. Bags free.

VELVETGREEN

A very effective fertilizer, analyzing 5% nitrogen, 10% phosphate, and 5% potash. Use it on your lawn, in your vegetable garden, flower garden, on your shrubs, roses, trees, etc. Velvetgreen is a complete plant food, furnishing all three necessary elements to encourage healthy plant life. Clean and odorless. Use about four pounds per 100 square feet.

On lawns, make about three applications a year, omitting any application during extreme hot weather, for a healthy, green, luxuriant lawn. Every home can use a hundred pound bag each year. Velvetgreen is an outright investment, not an expense.

For finer vegetables, make several applications. Apply four pounds per 100 square feet when preparing your soil. Raking the top soil will work it into the ground, and a week later, sow your seed. Later top dressings should be made about six inches from the plants. Velvetgreen will give you finer and larger flowers, finer roses, healthier shrubs. It is a product of Armour, and we highly recommend it. For trees, drive one inch holes 2½ feet apart under the outer edges of the branches and add two handfuls to each hole.

The Best Barley for Malting Purposes.

Wisconsin Barbless or Wisconsin Pedigree No. 38 Barley is a bearded variety that was originated by the Wisconsin Experiment Station by crossing a smooth awn oat from Russia with Oderbrucker barley. It is a remarkably heavy yielder, with heavy, large and plump kernels.

The greatest feature of all, however, is the freedom from the troublesome awns in the beards. The smooth beards of Wisconsin Barbless Barley make it easier to handle and makes both the straw and the grain more valuable for feeding. It is six rowed, has very stiff straw and is resistant to disease. It is a big improvement over the rough bearded barleys. Resistant to stripe disease. Sow 1½ to 2 bu. per acre.

A Field of Medium Red Clover

Medium Red, Mammoth, Alsike, Sweet Clovers and All Field Seeds Are Subject to Change Without Notice. Please Order Early.

CLOVER MEDIUM RED

Medium Red, the most important clover, lives two years or more, grows about two feet high and makes two crops a year, yielding about three tons of cured hay per acre. Clover hay is very nutritious, stock fed on it requiring less grain. Does well on a great variety of soils, thriving luxuriantly on strong, well drained loams. It is the best for crop rotations and increases succeeding crops from 25 to 60%. Sow 15 lbs. per acre. Our Radium Brand Clover is among the finest obtainable. It is our best grade, and tests around 99% in purity; the most of it is 99½% or better, and it is free from noxious weeds. Our Superior Brand tests about as high, free from noxious weeds, but it is not quite as fancy in appearance. Wisconsin and Minnesota grown. Bags free.

A Field of Sudan Grass

SUDAN GRASS

Sudan Grass is probably one of the most prolific hay crops ever grown; it gives two crops of hay a season. As a catch crop, it is fully equal to Millet. Sudan Grass is used for pasture, ensilage and soiling as well as for hay. It does best on a rich loam soil, but grows successfully on almost all soils from a heavy clay to a light sand. Sow 25 to 35 lbs. per acre, after corn planting time.

SWEET SUDAN GRASS

Developed by the Texas Station and the U. S. Dept. of Agr. Sweet Sudan is sweet, juicy, and more palatable to livestock, than is ordinary Sudan. The seed of Sweet Sudan is reddish brown, enabling one to detect Johnson Grass, if any, in his seed. It is resistant to disease and does not shatter easily. Later than common Sudan, hence produces more growth! The leaves are broader, and the stalks taller and heavier. Sow 25 to 35 lbs. per acre, after corn planting time. 4532—Radium Brand: 2 lbs., 82c; 5 lbs., \$1.68, postpaid to 4th zone. Not prepaid: 25 lbs., \$5.50; 35 lbs., \$7.35; 50 lbs., \$9.95; 100 lbs., \$19.00. Bags free.

OTHER GRASSES

ORCHARD GRASS—A valuable perennial grass for pasture or hay, very early and hardy. Sow 21-28 lbs. per acre. 4489—Radium Brand: Lb., 48c; 5 lbs., \$1.78, postpaid to 4th zone. Not prepaid: 10 lbs., \$2.60; 25 lbs., \$5.45; 50 lbs., \$10.45; 100 lbs., \$20.00. Bags are free on all grasses.

PERMANENT MEADOW AND PASTURE MIXTURE—Our own mixture of a big variety of perennial grasses. State your kind of soil and whether moist or overflowed part of the year. 25 lbs. per acre. 4545—Lb., 50c; 5 lbs., \$1.80, postpaid to 4th zone. Not prepaid: 10 lbs., \$2.70; 25 lbs., \$5.75; 50 lbs., \$10.95; 100 lbs., \$21.00.

CHEWING FESCUE—Perennial. Splendid for dry, sandy soils and withstands much shade. Valuable for shady lawns. 25-30 lbs. per acre. 4512—½ lb., 44c; lb., 79c; 2 lbs., \$1.48; 5 lbs., \$3.29, postpaid to 4th zone. Not prepaid: 10 lbs., \$5.75; 25 lbs., \$13.25; 50 lbs., \$25.85; 100 lbs., \$50.00.

AMERICAN GROWN RYE GRASS—Fine leaved, very durable, wonderful on sandy soil. Valuable as a green forage plant for land not easily cultivated. Perennial. 24-36 lbs. per acre. 4555—2 lbs., 60c; 5 lbs., \$1.28, postpaid to 4th zone. Not prepaid: 10 lbs., \$1.80; 25 lbs., \$3.65; 50 lbs., \$6.85; 100 lbs., \$13.25.

ROUGH STALKED MEADOW—Valuable for pastures and meadows, particularly on damp soils and shady situations. Perennial. 20 lbs. per acre. 4514—½ lb., 72c; lb., \$1.29; 2 lbs., \$2.38; 5 lbs., \$5.00, postpaid to 4th zone. Not prepaid: 10 lbs., \$9.90; 25 lbs., \$23.25; 50 lbs., \$45.95.

Dwarf Essex Rape

RAPE

DWARF ESSEX RAPE—May be sown any time from early spring until August and is a success on nearly every soil in the United States and Canada. It thrives splendidly in cool weather. 5 lbs. per acre. American grown seed.

4666—Radium Brand: 2 lbs., 75c; 5 lbs., \$1.63, postpaid to 4th zone. Not prepaid: 25 lbs., \$5.85; 50 lbs., \$11.25; 100 lbs., \$21.50. Bags free.

SAND VETCH

Often called Hairy Vetch because of its downy or hairy stems and also called Winter Vetch, as when sown in the fall, it lives through the severest winters. Planted in spring, it makes its full growth in the same year, and then does not winter through.

It will do well on poor land, and especially on sandy land, enriching it more than any other crop. Inoculate before planting. For hay, sow 50 pounds with one bushel grain, preferably Oats, Barley or Rye per acre; for seed, sow 20 to 30 lbs. with 1 bu. grain. Drill in 1 to 2 in. deep. Sow from early spring until September. 4727—Radium Brand: 2 lbs., 94c; 5 lbs., \$1.93, postpaid to 4th zone. Not prepaid: 10 lbs., \$3.20; 25 lbs., \$7.35; 50 lbs., \$14.25; 100 lbs., \$27.75. Bags free.

RED TOP (Solid Seed)

Red Top grows under a greater variety of conditions than almost any other grass. It is the best wet land grass next to Phalaris, and it will grow on soils so poor in lime that other kinds fail entirely. Red Top will thrive on almost every type of soil except sand. Sow 8 pounds per acre.

BONANZA OATS

BROME GRASS

A hardy perennial for permanent pastures and one of the best for dry soils. Has a strong root system and withstands extremes of cold and drought. Makes excellent pasture, sowing 15 lbs. Brome with 8 lbs. Alfalfa, preferably Ladak, per acre. Yields much more than Timothy—Alfalfa by the third year. Brome starts very early in spring. Sown alone, broadcast 25 lbs. per acre. Drought resistant. Cattle like Brome exceedingly well. 4319—Radium Brand: 2 lbs., 88c; 5 lbs., \$1.89; 10 lbs., \$3.35, postpaid to 4th zone. Not prepaid: 10 lbs., \$2.90; 25 lbs., \$6.65; 50 lbs., \$12.65; 100 lbs., \$23.95. Bags free.

KENTUCKY BLUE GRASS

Also called June Grass. One of the first grasses to start growth in spring, and is still green when snow flies in the fall. Widely used in lawns and very valuable for permanent pastures. Broadcast 20 to 30 lbs. per acre. 4479—Radium Brand: Lb., 59c; 2 lbs., \$1.07; 5 lbs., \$2.49, postpaid to 4th zone. Not prepaid: 10 lbs., \$4.30; 25 lbs., \$10.40; 50 lbs., \$19.75; 100 lbs., \$38.00. Bags free.

NORTHERN GROWN TIMOTHY

Timothy is the king of all grasses in our country; as a hay crop it has long been the standard and it is adapted to a wider range of conditions and is grown over a wider area than other grasses.

Sow 10 to 15 lbs. per acre. Our seed is either Wisconsin or Minnesota grown and carefully cleaned, with a purity of 99.5% or better. For hay, cut when the seed is in the "milk" stage, setting the mower so it cuts a full four inches above the ground. 45 lbs. in 1 bu.

OATS

WHITE CROSS OR WISCONSIN PEDIGREE No. 19—A high yielding extra early white oat, with a taller straw and a larger kernel than is usually found in early oats. The tall straw is desirable in localities where the soil is light. A good rust-resister. Has a tendency to lodge on rich soils, but is well adapted to sandy soils. 4625—Prices above.

STATE'S PRIDE OR WISCONSIN PEDIGREE No. 7—**Earliest yellow oat.** In spite of unfavorable weather, State's Pride yielded 75.7 bushels per acre. Earliest of all yellow oats and best as a nurse crop and escapes rust, because of its earliness. Does not lodge easily, but fills out the kernels if it does, making it especially desirable for rich soils. Has a very short, stiff straw. It is a yellow oat, bright, thin hulled, meaty and is about the best oat. 4623—See prices above.

60-DAY, JULY OR KHERSON—It is a small, yellowish oat with a very thin hull and practically all meat, and with short, stiff straw. Does not lodge easily. Sixty Day Oats are extremely early and are especially fine in a dry season. They usually yield 70 to 80 bushels per acre, at least. It adapts itself readily to the different soils. Matures in about 80 days, rather than 60 as the name indicates. 4616—See prices above.

SILVERMINE—This variety is reputed for its heavy yields and is a fine second early white oat, very robust and vigorous and seldom lodges. The heads are borne low on strong, stiff straw which is unusually bright and clean. The kernels are white, plump, heavy and thin hulled. Endures extremes of dry, wet, hot and cold weather. 4615—Lb., 34c peck, \$1.34, postpaid to 4th zone. Not prepaid: Peck, 95c; ½ bu., \$1.50; bu. (32 lbs.), \$2.35; 2½ bu., \$5.85; 5 bu., \$11.50; 10 bu., \$22.80; 20 bu., \$45.00. Bags free.

VICLAND OATS—Vicland is an early yellow oat, very high in bushel weight, that has yielded over 85 bushels per acre, very resistant to rust and to smut!

On rich soil, the straw reaches a good height but on poor soil the straw is apt to be too short to cut with a binder. Vicland will stand in the shock a long time without germinating, which is most desirable in rainy weather. 4607—Price of Vicland Oats: Peck, \$1.24, postpaid to 4th zone. Not prepaid: Peck, 85c; ½ bu., \$1.35; bu. (32 lbs.), \$2.15; 2½ bu., \$5.30; 5 bu., \$10.50; 10 bu., \$20.80; 20 bu., \$41.00. Bags free. Plant 1¼ to 2 bu. per acre. Certified Seed: Sold out.

WHITE BONANZA White Bonanza is a heavy midseason variety, extremely productive, with strong stiff straw, bearing long heads filled with good-weight grain. It has demonstrated its ability to produce fine crops on sandy land and on the fertile prairie or clay loam soils. A dependable white oat that ripens in about ninety days. This variety is hardy, having been grown successfully in Canada, in sections about 1,000 miles northwest of La Crosse. "Bonanza" is our own Registered Trade Mark. 4614—Lb., 35c; peck, \$1.39, postpaid to 4th zone. Not prepaid: Peck, \$1.00; ½ bu., \$1.55; bu. VANGUARD OATS A mid-season white oat from Canada, open panicle, high yielding and resistant to black stem rust! The straw is stiff. We recommend it highly, especially for Northwestern Minnesota and similar latitudes. 4627—Lb., 34c; peck, \$1.34, postpaid to 4th zone. Not prepaid: Peck, 95c; ½ bu., \$1.50; bu. (32 lbs.), \$2.35; 2½ bu., \$5.85; 5 bu., \$11.50; 10 bu., \$22.80; 20 bu., \$45.00. Bags free.

REED'S CANARY GRASS

Or Phalaris. A grass for wet, low-lying, poorly drained soils—in fact, the only grass we know of for reclaiming waste, marshy lands.

The hay is a little coarse, especially if it is left to grow too long, but it is nutritious and tasty and all stock like it and relish it. Underground stems will form a tough sod and hold hay machinery. Yields up to 4.57 tons of hay per acre from two cuttings. Cut the first crop for hay as soon as the heads or panicles appear.

Broadcast 5 to 6 lbs. per acre or drill in ½ in. deep, 2 to 3 lbs. in 18 in. rows. If covered with water, wait till the water recedes and then sow. 4511—Radium Brand—½ lb., 41c; lb., 67c; 2 lbs., \$1.24; 5 lbs., \$2.78, postpaid to 4th zone. Not prepaid: 10 lbs., \$4.75; 25 lbs., \$11.65; 50 lbs., \$22.45; 100 lbs., \$43.85.

JOHN A. SALZER SEED CO.
LACROSSE, WISCONSIN

CLINTON OATS

Clinton Oats promise to turn poor oat years into good ones! Clinton Oats out-yield Tama, Boone, Marion, etc., about as much as these outyielded the older varieties. Developed by the Iowa Experiment Station in conjunction with the United States Department of Agriculture.

In 48 Community Grain trials of Clinton Oats, the average yield was 84 bushels to the acre! Clinton has about the stiffest straw and weighs out better than almost any other oat. The average height of the straw is 33½ inches, it does not lodge easily, and is adapted to direct combining. (It is somewhat uneven in height.) Clinton stands well for 7 to 10 days after the grain is first dry enough for safe storage. You can leave Clinton in the field longer and permit it to dry out well before it is cut or combined, thus lessening bin heating. Clinton has the ability to stand up on very rich soil. Ripens about July 17th.

Clinton is a thin hulled yellow oat, with plump berry, and is highly resistant to Helminthosporium, to blight and root rot and is immune to crown rusts, smuts, and leaf spots. In wet years, when diseases are apt to appear, Clinton shows a marked advantage over older varieties. In rust free years, it may not show a heavy advantage in yield, but it should be superior because of its strength of straw and in its weight per bushel. The widely spread trials of Clinton in Iowa, Wisconsin, Illinois and Indiana, indicate its wide adaptation to various soils and growing conditions.

Don't pass up Clinton Oats this year! Clinton produces a plump, thin hulled grain, about six pounds heavier per bushel than old varieties, and it grades high on the market, giving you oats of maximum feeding value. Clinton has received much praise in farm and agricultural papers and we believe you will like it immensely.

A Field of Clinton Oats

CYCLONE SEED SOWER

Broadcasts evenly, saves seed, and will sow many acres per hour. Ideal for sowing clover, timothy, alfalfa, lespedeza, sudan grass, oats, wheat, or any other seed that is sown broadcast.

Strongly constructed, a double feed insuring a uniform flow of seed. Feed adjustment is automatic and starts or stops flow of seed instantly. 546!—Each, \$3.75, postpaid.

Inoculate your seeds before planting! Inoculation is inexpensive, it increases the yield, insures a better catch, and adds fertility to the soil. Easy to use. Directions on each can.

Alfalfa, Sweet Clovers, Medium Red, Alsike and Mammoth Clover, White Dutch Clover: State seed to be inoculated: 1 bu. size, 50c; 2½ bu. size, \$1.00, postpaid.

Lespedeza: Up to 100 lb. size, 50c, postpaid.

Beans: String, Snap, Wax, Kidney, White Wonder, Navy, Great Northern: 1 bu. size, 35c, postpaid.

Garden Peas, Field Peas, Vetch: State seed: Up to 100 lb. size, 50c; 1,200 lb. size, \$5.70, postpaid.

Lima Beans, Peanuts, Soy Beans: State seed: Small size (up to 120 lbs.), 30c; 5 bu. size, 55c; 25 bu. size \$2.50, postpaid.

Garden Size: For garden Peas, Beans, Lima Beans, Sweet Peas, Edible Soy Beans: For up to 5 lbs. seed: Each, 10c; 3 for 25c, postpaid.

NITRAGIN Another valuable inoculator, preferred by many of our customers. Nitrugin releases billions of bacteria, thereby insuring a better stand as well as fertilizing the soil and increasing the yield. See also Page 109.

GARDEN SIZE NITRAGIN: For up to 8 lbs. Peas, Beans, Lima Beans, Sweet Peas, Edible Soy Beans: Each, 10c; 3 for 25c, postpaid.

LEGUME-AID (formerly McQueen's Inoculator). One of the best inoculants for Peas, Beans and Sweet Peas. 5260—Garden Size, for 5 lbs. seed or less: Each, 10c; 3 for 25c, postpaid.

VEGETABLE SEEDS FOR EUROPE

As you know, Europe is in a critical condition because of lack of food and some garden seeds sent to them this spring, will give them some much needed fresh vegetables this summer. A package of seeds should reach destination in five to six weeks, and seeds sent as late as April 15th, should arrive in time for planting.

For those who want to send seeds to friends in Europe, we have assembled the following collection, consisting of one packet each of

Beans, Golden Wax
Beans, Early Valentine
Beet, Early Turnip
Cabbage, Ey. Flat Dutch
Carrot, Danver's Half
Long
Cauliflower First Crop
Celery, Self Blancher
Cucumber, White Spine
Kale, Moss Curled
Kohlrabi, Purple
Lettuce, Grand Rapids
Lettuce, Big Boston

Onion, Yellow Danvers
Onion, Red Wethersfield
Parsnip, Delmonico
Peas, Earliest & Best
Radish, Scarlet Globe
Rutabaga, Delicious
Squash, Delicious
Tomato, Marglobe
Turnip, P.T. White Globe
Calendula, Finest Mixed
Marigold, Mixed
Zinnia, Calif. Giant Mixed

We can mail this collection for you to Austria, Germany, Denmark, Finland, Sweden, and practically every European country. It is well to place your order on a separate sheet, printing the address of the recipient. We will make prompt shipment. You will note the collection includes a few flower seeds.

1567—Price of European Vegetable Collection: Each, \$2.00, postpaid to any country in Europe.

We have raised your Early Six Weeks Potatoes for many years. Nothing equals them.—Mr. Julius Houck, R.D. 2, Box 167, Lenoirville, O.

BILLION DOLLAR GRASS (Panicum Crusgalli)

Especially Valuable for Silo and for Feeding Green—A Substitute For Corn Fodder Green Feed on August 1st

Billion Dollar Grass furnishes a very heavy amount of desirable green feed during August! Sown about the end of May, the fodder will be ready to cut about August 1st or a little earlier! Begin to cut it before it blossoms and continue to cut for about 12 days or until the stems toughen. By making a second seeding about June 10 and a third about June 25, abundant green feed may be had during all of August and with later seedings, into September!

Billion Dollar Grass Gives an unusually heavy yield of green fodder, from 12 to 18 tons per acre on naturally moisture-retentive land in good condition, but heavier yields of up to 35 tons per acre have been reported. Yields anywhere up to 60 bushel of seed per acre (32 lbs. per bu.), although 90 bushel of seed per acre have been reported, and it yields from 3 to 6 tons of hay per acre.

A Quick Producer

Billion Dollar Grass produces nutritious green feed, and plenty of it, in about nine or ten weeks and attains the height of four to seven feet according to the richness of the soil. It is the one grass to sow if you want plenty of green feed during August and September for your cattle, horses, sheep, hogs and poultry.

Up to 90 bushel (3,150 lbs.) of seed per acre! Hogs, poultry, geese and turkeys relish the green feed and thrive and fatten if fed the seed during the fall and winter months.

By cutting as soon as the plants come into bloom, a second crop may often be had and the yield of forage materially increased. When grown for seed, it gives only the one crop and sometimes some pasture thereafter.

Billion Dollar Grass gives about 3 to 6 tons hay per acre but as it is rather coarse and succulent it is difficult to cure for hay and we do not recommend it for that purpose. Since it is difficult to dry, the hay may become musty and so one cannot depend upon a large amount of dry hay. However, if the weather allows several extra hay days to follow one another, it is successfully cured in small cocks as clover is often cured.

Use famous Billion Dollar Grass as silage in place of corn wherever it is not possible or convenient to grow corn. It is a wonderful "catch crop" whenever the corn has been destroyed by hail or otherwise.

Where It Grows

It grows best on a soil that is rather retentive of moisture and quite rich. It luxuriates on a low, rich, moist situation but it also does well on higher ground. When it is sown on retentive soil, it endures drought fairly well. On the rich soils of the West and Northwest where there is sufficient moisture, or where there is irrigation, it yields heavily and it has given good yields on the alkali soil so common in parts of the West. In the Mississippi Valley, it yields abundantly.

When a Cold Wet Spring

floods out your corn or when it damages other crops, Billion Dollar Grass is an ideal catch crop. We have had customers plant it as late as the middle of August, as a catch crop, but to get best results, we recommend planting it up to July 1 or possibly July 15. You will find

Billion Dollar Grass

Billion Dollar Grass of great value in case of a crop failure of clover and timothy in a dry spring.

It Is Productive

Under average conditions of moisture and fertility of the soil, Billion Dollar Grass is about one of the most productive of the annual hay grasses. Think of yields of up to 20 tons of fresh green feed per acre, up to 6 tons of cured hay per acre, or up to 3,000 pounds of seed per acre! Its biggest and its greatest value, however, is in its green fodder and in its silage.

Feeding Green

Billion Dollar Grass, when cut from day to day and fed green to cows, is much relished. Cows invariably increase in milk when green Billion Dollar Grass is alternated with corn fodder.

Fed continuously and alone, Billion Dollar Grass acts as a laxative and a diuretic, and the ideal feeding is about 10 pounds hay per day plus about 50 pounds green Billion Dollar Grass per day.

For Silage

Over 18 tons ensilage per acre! Billion Dollar Grass is not as nutritive as corn silage, yet it makes a very fine silage and makes a fine substitute if the corn crop fails or if corn cannot be grown. For ensilage, cut in late bloom, or when the seed is beginning to form. If cut after it has ripened its seed, it will then be too dry and tough. Filling the silo with two parts by weight of Billion Dollar Grass and one part of Soy Beans makes a very superior silage.

What It Is

Panicum Crusgalli is a Japanese Millet and was given the name Barnyard Millet in 1896 by Prof. W. P. Brooks of the Hatch (Mass.) Station. In 1901, we first offered it to the public and gave it the name Billion Dollar Grass because of its tremendous yield of fodder and seed, and it is probably more widely known today under this name than any other. It is not poisonous at any stage of growth and is distinct from Sudan Grass.

Culture

Billion Dollar Grass is a tender annual and should not be sown before corn planting time as it does not stand frost. Sow about 20 pounds per acre broadcast, covering about 3/4 inch deep. May be sown up to July 1 and even up to the end of July.

PASTURE—All rich, luxuriant grasses should be pastured moderately at first. Therefore, you should turn in your hogs, cattle, sheep, and horses the first few times only after they have had a good feed elsewhere and thus accustom them to it. It is on the same plan as hungry stock turned the first time into a field of rich clover—they might find harm. Turn them into Billion Dollar Grass moderately at first and you can soon permanently.

FOR HAY—Cut when the plant is in early bloom. Cut with a mower and allow it to cure in the swath for a day; then rake into windrows and when sufficiently cured, put it into cocks for about a week.

FEEDING GREEN—Begin to cut before it blossoms and continue until the cattle do not eat all of the stems.

FOR SEED—Let Billion Dollar Grass get thoroughly ripe and cut and thresh as you would Timothy. The seed is about equal to oats in composition, that is in protein and fat.

CRESTED WHEAT GRASS

Is reclaiming millions of acres of arid land on our northern great plains. It yields more forage than native grass in extremely dry years, produces twice as much beef, chokes weed growth and stands heavy grazing. Yields 1-1 1/2 tons hay per acre and is very hardy! SALZER'S "LAUGH AND GROW FAT" HOG PASTURE MIXTURE

One of the most vexing questions with every farmer during summer is a rapid meat producing hog pasture.

"Laugh and Grow Fat Mixture" contains generally among others the following: Billion Dollar Grass, Turnips, Amber Cane, Soy Beans, Speltz, Field Peas, Rape, Vetches, Oats, Rye, Millet, Timothy, Clover, Rye Grass, etc. It is well in ordering this Mixture to tell us whether you want it for early or late planting and the condition of your soil. Sow 30 to 50 lbs. per acre. Greedily eaten by hogs and all other livestock. 4549—Radium Brand: Lb., 32c; 5 lbs., 98c, postpaid to 4th zone. A Field of Manchu Soy Beans

SALZER'S SOY BEANS

Soy Beans make a good growth on poor soils, especially if inoculated, succeed on acid soil, will grow as far north as corn and as far south as cotton, they make a splendid rotation crop, and they build up the soil. Cut for hay any time after the pods begin to form. Sow 45 lbs. in drills per acre, or 2 bu. (120 lbs.) broadcast. **Inoculate with Nod-O-Gen before planting.** Any variety, 2 lbs., 49c; postpaid to 4th zone. Bags free. **Edible Soy Beans, see Page 10.**

MANCHU NO. 606

A selection of Manchu Soy Beans made at the Spooner Wisconsin Branch Experiment Station. In maturity, it is about a week earlier than Manchu and is about the earliest and the best variety for the production of seed in the northern parts of Wisconsin and similar latitudes. High in oil content.

The plants are from 28 inches to 35 inches high, they stand up well, and the USDA tests over a period of three years, indicates Manchu No. 606 averaged 27.6 bushels per acre yield, with 41.4% protein, and 19.9% oil of 135 iodine number. Manchu No. 606 is recommended by both the Wisconsin and Minnesota Stations, and we believe that any of our customers across the country, in similar latitudes, will have complete satisfaction with the yield of Manchu No. 606. The seed is yellow. Inoculate Soy Beans with Nodogen or Nitrogen for best results.

4304—Radium Brand: Not prepaid: Peck, \$1.75; ½ bu., \$3.05; bu. (60 lbs.), \$5.60; 2½ bu., \$13.95; 5 bu., \$27.75. Bags free.

MANCHU SOY BEANS

The most popular Soy Bean in the middle west. It is medium early and matures dry beans in about 110 days. Seeds are yellow with a peculiar brown seed scar. Very productive. The Wisconsin Experimental Station recommends it. **4309—Radium Brand: Not prepaid: Peck, \$1.70; ½ bu., \$2.95; bu. (60 lbs.), \$5.25; 2½ bu., \$13.05; 5 bu., \$25.95. Bags free.**

MUKDEN

A heavy yielder of beans and also produces a large tonnage of hay. About five days earlier than Manchu, and hence, very popular. Of upright growth, very leafy, and does not have a tendency to lodge. **4310—Radium Brand: Not prepaid: Peck, \$1.70; ½ bu., \$2.95; bu. (60 lbs.), \$5.25; 2½ bu., \$13.05; 5 bu., \$25.95. Bags free.**

SPRING RYE

Sow 1½ bu. per acre. **4672—Radium Brand: 2 lbs., 63c; 5 lbs., \$1.28, postpaid to 4th zone. Not prepaid: 14 lbs., \$1.80; 28 lbs., \$3.15; bu. (56 lbs.), \$5.75; 2½ bu., \$14.30; 5 bu., \$28.45. Bags free.**

ROSEN WINTER RYE

4673—Radium Brand: 2 lbs., 45c; 5 lbs., 95c, postpaid to 4th zone. Not prepaid: Peck, \$1.15; ½ bu., \$2.00; bu. (56 lbs.), \$3.75; 5 bu., \$18.50. Bags free.

NEW IMPROVED CERESAN

A valuable seed treatment before planting, for Wheat, Oats, Barley, Cotton, Cane, Rye, Flax, Peas. One pound treats 32 bu. grain. **5269—4-oz. can, 32c; 1-lb. can, 90c, postpaid.**

SPRING SPELTZ OR EMMER

Grows any place on earth where grain can be raised and it grows where wheat, oats and barley would be a failure. It is relished by all classes of stock; it is splendid for hay and fattens in the green state.

Sow on ground prepared as you would for barley, wheat or oats, either broadcast or drill, at the rate of 2½ bu. per acre. Frost will not damage early planting. Cut the grain when it is a little past the milk stage. **4697—Radium Brand: Lb., 30c; 5 lbs., \$1.00, postpaid to 4th zone. Not prepaid: Peck, \$1.10; ½ bu., \$1.85; bu. (40 lbs.), \$3.35; 5 bu., \$16.60; 10 bu., \$32.80. Bags free.**

SPRING WHEAT

Sow 1½ bu. per acre; 60 pounds in one bushel.

HENRY WHEAT—The important advantages of this spring wheat are disease resistance and high yield! It is resistant to leaf rust and moderately resistant to stem rust and stinking smut. In tests at the Wisconsin Experiment Station and with certified growers, it has considerably outyielded the older varieties, which it is rapidly replacing.

Henry Wheat matures about two days later than Sturgeon and about five days later than Vicland Oats. It has large, wide heads, with bearded chaff which is white or may be tinged with red at maturity. The kernels are larger than most spring wheats, and have fair to good milling and baking qualities.

4765—Radium Brand: 2 lbs., 46c; 5 lbs., 89c; peck, \$2.05, postpaid to 4th zone. Not prepaid: Peck, \$1.40; ½ bu., \$2.45; bu. (60 lbs.), \$4.50; 2½ bu., \$11.15; 5 bu., \$22.15. Bags free.

4766—Certified Seed: 2 lbs., 50c; 5 lbs., 95c; peck, \$2.25, postpaid to 4th zone. Not prepaid: Peck, \$1.60; ½ bu., \$2.85; bu. (60 lbs.), \$5.00; 2½ bu., \$12.40; 5 bu., \$24.70. Bags free.

MARQUIS—A bald or beardless spring wheat; kernels are dark red, hard, short and thick and plump. Straw is medium in length and very stiff. Of high milling quality. **4751—Radium Brand: 2 lbs., 52c; 5 lbs., 95c, postpaid to 4th zone. Not prepaid: Peck, \$1.49; ½ bu., \$2.45; bu. (60 lbs.), \$4.00; 2½ bu., \$9.85; 5 bu., \$19.60; 10 bu., \$38.95. Bags free.**

THATCHER—A beardless spring wheat from the Minnesota Experiment Station. Very rust resistant, early, heavy yielder, hard dark red kernels, very stiff straw and stands up well. 1 to 5 days earlier than Marquis. **4768—Radium Brand: 2 lbs., 53c; 5 lbs., 97c, postpaid to 4th zone. Not prepaid: Peck, \$1.52; ½ bu., \$2.50; bu. (60 lbs.), \$4.15; 2½ bu., \$10.25; 5 bu., \$20.35; 10 bu., \$40.50. Bags free. All Wheat prices subject to change.**

WINTER WHEAT

BLACKHAWK—A soft, bearded, red winter wheat, resistant to leaf rust, about equal to Turkey Red in hardiness and strength of straw. Well adapted to southern half of Wis. and similar latitudes. White chaff, soft to semi-soft red kernels, fine for cake flour. **4759—Certified Seed: 2 lbs., 50c; 5 lbs., 95c; postpaid to 4th zone. Not prepaid: Peck, \$1.60; ½ bu., \$2.85; bu. (60 lbs.), \$5.00; 2½ bu., \$12.40; 5 bu., \$24.70. Bags free.**

TURKEY RED—Or Wis. Pedigree No. 2. The best red, hard, bearded winter wheat. **4760—Not prepaid: Peck, \$1.52; ½ bu., \$2.50; bu. (60 lbs.), \$4.15; 2½ bu., \$10.25. Bags free.**

Henry Spring Wheat

PESTROY

Keep the house and the barn free from flies and mosquitoes. Just paint it on your screens and doors. Colorless.

5413—3 oz. (powder), 39c; pint (liquid), 69c.

RED RIVER

POTATO MIX
A potent spray containing DDT for potato aphid, blight, potato bug, etc. 4 lbs. to 60 gals. water. **5429—Lb., 74c; 4 lbs., \$2.25.**

WEEDICIDE

The potent weed killer; contains 2, 4 D. Keep your land weed free. **5405—Pkg., 8 tablets, treats 680 sq. ft., 25c.**

Received the Thatcher Wheat, Wis. No. 25 Corn, Silver Hill Buckwheat, etc., and am well pleased.—Mr. Arthur J. De Mars, R.D. 1, Anoka, Minn.

EARLY SIX WEEKS POTATOES

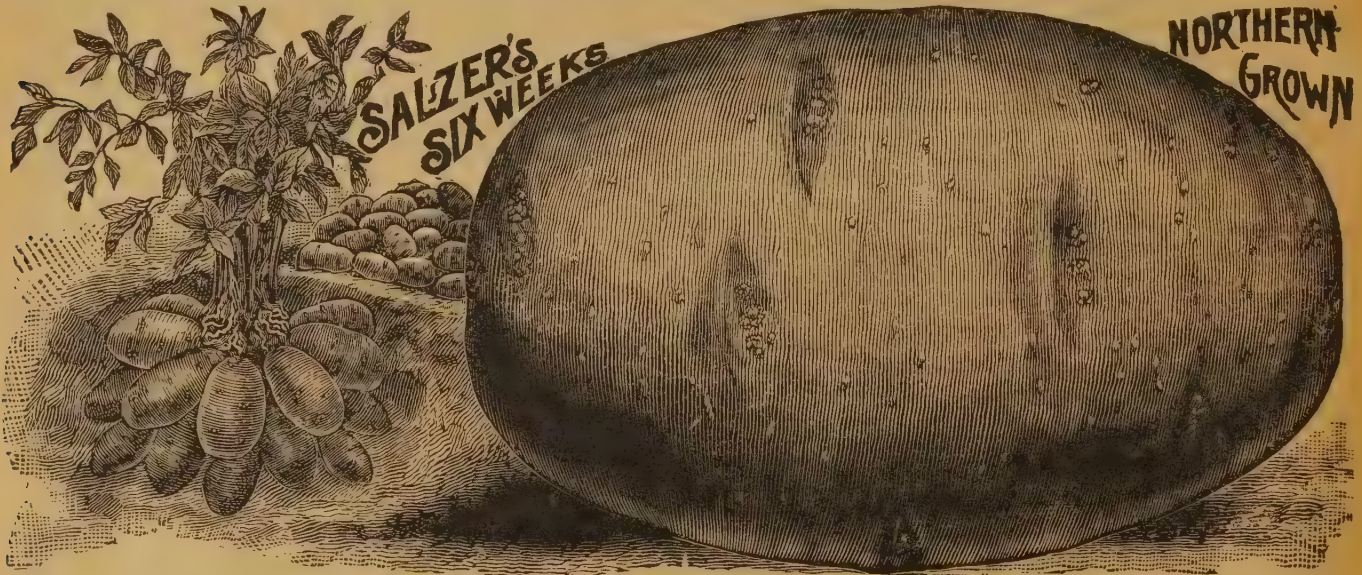

We are nationally known as the largest retail seed potato house in the country, and we probably handle more potatoes than any other company. Our seed is grown in the fertile Eagle Valley and Red River Valley of Northern Minnesota, two districts which have not as yet been surpassed for quality seed. Prices should not be judged by the price of eating potatoes. Our potatoes are grown primarily for seed purposes and all of them are U. S. Gov't. Grade No. 1. We believe you will be well pleased with them. U. S. Grade No. 1 requires that the potatoes be practically free from scab, blight, dry rot and damage caused by disease, and be graded to a minimum size of 1 1/2 inches. 60 lbs. in one bushel.

Early Six Weeks Potato stands alone as the great earliest general purpose potato! It is ahead of the Earliest Potato in quality and yield, although not quite so early but is a little earlier than the famous Early Ohio Potato. There is another great advantage in planting these

Early Six Weeks Potatoes and that is that it has never failed to produce a good crop of extremely early, very large tubers.

Early Six Weeks Potato is fit for market everywhere in six to eight weeks. It is good for midsummer, good for late summer, good for fall, and magnificent to put into winter quarters, where it will keep splendidly and give you the finest flavored, best quality eating Potatoes imaginable. If we had but one Potato to plant, this would be the Potato every time.

Skin is pink and smooth. The flesh is white and cooks mealy. Round to oblong in shape. The famous Early Six Weeks Potato is one of the best market varieties for all sections of the country. Please give date we shall ship your potatoes. Price of Early Six Weeks: U. S. No. 1: 2 lbs., 42c; 5 lbs., 79c, postpaid to 4th zone. Not prepaid: Peck, \$1.10; 1/2 bu., \$1.85; bu. (60 lbs.), \$3.25; 100 lbs., \$4.95; 500 lbs., \$24.50. Bags are free on all potatoes.

EARLIEST

Our earliest red skinned potato, and a heavy yielder. Adapted to practically all sections of the U. S.; has yielded in tests at the rate of 364 bu. per acre. Especially fine for frying and for French Frys. It is of a roundish shape, medium size and considering its extreme earliness, yields heavily. Uniform in size, smooth reddish skin, shallow eyes, flesh snow white. U. S. No. 1: 2 lbs., 41c; 5 lbs., 78c, postpaid to 4th zone. Not prepaid: Peck, \$1.08; 1/2 bu., \$1.82; bu. (60 lbs.), \$3.20; 100 lbs., \$4.90; 500 lbs., \$24.25.

WHITE WARBA

Extra early, heavy yielding, white skin. The potatoes are short, round and blocky, of good size, skin smooth and creamy white, eyes pink. Flesh is pure white and cooks and bakes beautifully. Earlier than either Ohio or Triumph. U. S. No. 1: 5 lbs., 74c, postpaid to 4th zone. Not prepaid: Peck, \$1.04; 1/2 bu., \$1.78; bu. (60 lbs.), \$3.15; 100 lbs., \$4.65; 500 lbs., \$22.95.

IRISH COBBLERS

It is famous for its clean white skin, heavy yield, and fine quality. A grand second early potato. Skin is of handsome cream-white color, and of excellent quality. It is a good keeper. Matures in about seven weeks with tubers smooth, round and plump. U. S. No. 1: 5 lbs., 72c, postpaid to 4th zone. Not prepaid: Peck, 98c; 1/2 bu., \$1.65; bu. (60 lbs.), \$2.90; 100 lbs., \$4.10; 500 lbs., \$20.25.

If potatoes are wanted shipped in 3 bu. barrels, please add 75c extra for each barrel. Bags are free.

Irish Cobbler Potatoes

BLISS TRIUMPHS

Has yielded 500 bu. per acre! Bliss Triumph is a standard extra early and one of the leading early potatoes all through the south. Tubers are nearly round, smooth, medium in size, reddish pink in color and have shallow eyes. Flesh is white, smooth grained; fine for potato salad and frying. This is one of the hardest varieties known, and is not susceptible to rot, scab and other diseases.

U. S. No. 1: 2 lbs., 39c; 5 lbs., 74c, postpaid to 4th zone. Not prepaid: Peck, \$1.04; 1/2 bu., \$1.78; bu. (60 lbs.), \$3.15; 100 lbs., \$4.65; 500 lbs., \$22.95.

A Big Crop of Bliss Triumphs

SEED POTATO EYES

The fertile eyes are cut from the same high grade stocks as listed in our catalog. Orders are booked and shipped at planting time. Any varieties (minimum, 50 eyes): 50 Eyes, 65c; 100 Eyes, \$1.00; 250 Eyes, \$2.35; 500 Eyes, \$4.45, postpaid.

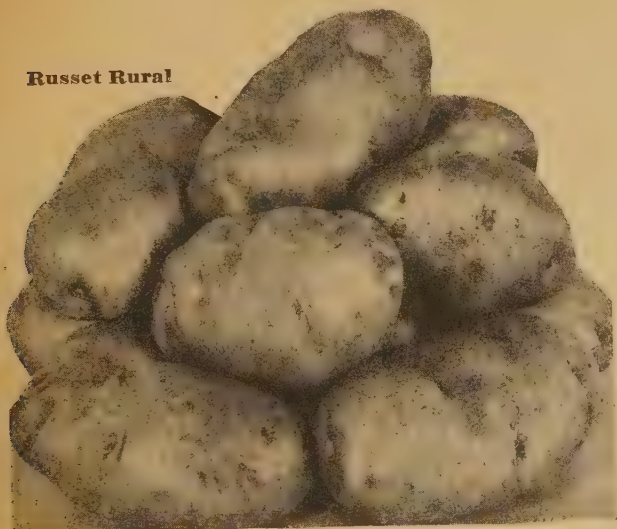

JOHN A. SALZER SEED CO.
LACROSSE, WISCONSIN

RED RIVER EXTRA EARLY OHIO

Skin is light reddish pink, smooth, and the flesh is white, firm, fine grained and unexcelled in quality. Tubers run uniform, medium to large in size, oval in shape, with blunt, rounded ends, and shallow eyes. Vines are upright, allowing easy cultivation.

U. S. No. 1: 2 lbs., 41c; 5 lbs., 77c, postpaid to 4th zone. Not prepaid: Peck, \$1.05; ½ bu., \$1.80; bu. (60 lbs.), \$3.20; 100 lbs., \$4.75; 500 lbs., \$23.50. Prices subject to change.

Russet Rural

RUSSET RURAL

Does best on clay soils and black soils, but it is a universal sort for all soils. It will perhaps stand more neglect and do better under unfavorable conditions than any other main crop sort. Flesh white and mealy, and is scab proof and disease resistant to a marked degree. The tubers are nearly round, flattened with a slightly russet skin. It is a late potato and a good drought resistor. U. S. No. 1: 2 lbs., 39c; 5 lbs., 73c, postpaid to 4th zone. Not prepaid: Peck, \$1.00; ½ bu., \$1.75; bu. (60 lbs.), \$3.10; 100 lbs., \$4.40; 500 lbs., \$21.75.

Sebago Potatoes

SEBAGO

About the best late potato for Wisconsin, and equally good for other states. It is not a good yielder on poor, sandy soil, but on fertile soil it yields heavily, it is of high quality, it cooks white, seldom shows hollow heart or internal discoloration and hardening, and it is resistant to yellow dwarf disease and to the late blight which causes a form of tuber rot.

Sebago potatoes are white, thin skinned, shallow eyed, and oval to oblong in shape. The vines are large and vigorous, of upright habit. During hot weather it may roll its leaves but this has no connection with the Leaf Roll Disease. U. S. No. 1: 2 lbs., 39c; 5 lbs., 74c, postpaid to 4th zone. Not prepaid: Peck, \$1.04; ½ bu., \$1.78; bu. (60 lbs.), \$3.15; 100 lbs., \$4.65; 500 lbs., \$22.95.

Potato Prices Are Subject to Change Without Notice. Order Early. We Will Book and Ship Later. If Potatoes Are Wanted by Mail, Please Add Postage. See Page 99.

Chippewa Potatoes

CHIPPEWA

A medium late potato introduced by the U. S. Dept. of Agriculture, which has yielded 464 bushels per acre. It is of outstanding merit for the northern states and most valuable for other sections. It is oblong in shape, has smooth white skin, shallow eyes, and sparkling white flesh that cooks up dry and mealy. Excellent for baking.

Chippewa shows high resistant to mild mosaic disease, and in tests has out-yielded such other potatoes as Katahdin, Green Mountain, Cobblers, and Rural New Yorker. Matures earlier than the other late potatoes. U. S. No. 1: 2 lbs., 39c; 5 lbs., 73c, postpaid to 4th zone. Not prepaid: Peck, \$1.00; ½ bu., \$1.75; bu. (60 lbs.), \$3.10; 100 lbs., \$4.40; 500 lbs., \$21.75.

A Fine Home Yield of Pontiac Potatoes

PONTIAC

Developed by the USDA from crossing Triumph and Katahdin, and valuable in those sections where a late red potato is in demand.

Pontiac is later than Rural, and is somewhat similar to Bliss Triumph in appearance, but darker red and shallower eyed. Is oblong to round in shape, skin dark red and sometimes netted. Somewhat susceptible to scab but resistant to drought. Good keeper.

U. S. No. 1: 2 lbs., 39c; 5 lbs., 74c, postpaid to 4th zone. Not prepaid: Peck, \$1.04; ½ bu., \$1.78; bu. (60 lbs.), \$3.15; 100 lbs., \$4.65; 500 lbs., \$22.95. Bags are free on all potatoes. If wanted in barrels, add 75c for each 3 bu. barrel.

SEMESAN BEL

Dip your potatoes in Semesan Bel before planting. No soaking—just dip, drain, dry and plant. Reduces diseases, increases yield. 1½ ounces treat 1 bushel. 5270—2 oz. pkg., 32c; 1 lb. can, \$1.75, postpaid.

JERUSALEM ARTICHOKE

Excellent for diabetics, using the roots or tubers just like potatoes, either baked, fried, boiled, in soup, or in salads! Jerusalem Artichokes contain Insulin and authorities find that these may be assimilated when diabetics cannot safely take any other carbohydrates.

Also excellent as a farm crop, using the tops for fodder or silage and the tubers as feed for cows, chickens and hogs. Dig what you need for winter and leave the balance in the ground until spring. In storage, store them in layers with damp burlap bags between layers. Diabetics may order this seed stock for immediate use. 250 lbs. plant an acre.

Price: 2 lbs., 54c; 5 lbs., \$1.09; 10 lbs., \$1.85, postpaid to 4th zone. Not prepaid: 10 lbs., \$1.40; 25 lbs., \$2.95; 50 lbs. (bu.), \$5.45; 100 lbs., \$10.00; 500 lbs. @ \$9.90.

ROSES

COLUMBIA

Or Everblooming Roses. We offer only strong two year old field grown roses, which will bloom freely this year. Leaflet, "Rose Culture," sent free upon request.

PEACE. Plant Pat. 591. Enormous pale yellow blooms, with the petals edged apple-blossom pink. A beauty. Each, \$2.50, postpaid.

Price of the following ROSES: Doz., \$9.95; Any Six, \$5.45; Any 3, \$2.95; Each, \$1.10, postpaid.

AMI QUINARD. Intense deep crimson maroon flowers with a dark velvety sheen, very fragrant, blooms freely.

COLUMBIA. A beautiful long stemmed rose, with pointed flowers. Vivid pink. Very fragrant. Lovely perfect flowers.

E. G. HILL. Fragrant, deep crimson-red double blooms, on long stems. An attractive rose and a strong grower.

GRENOBLE. Long stemmed, beautifully shaped blooms of scarlet-crimson. Vigorous grower with clean, healthy foliage, free bloomer.

GRUSS AN TEPLITZ. An intense rich scarlet, shading to velvety crimson. Blooms continuously and succeeds under almost all conditions.

K. A. VICTORIA. Creamy buds which open to blooms of pure snowy white except for a tint of lemon at the center. The best white rose to date.

Mrs. E. P. THOM. A beauty. Slender yellow buds and large blooms of bright canary yellow, deeper yellow in center. Blooms freely.

RED RADIANCE. Continues to produce its large flowers throughout hot weather when many varieties frequently fail. Bright cerise red flowers, long stems, fragrant.

TALISMAN. High centered flowers of glowing golden yellow, stained and overlaid with bright apricot, deep rose and pink, with orange-rose on the inside of the petals.

Hybrid Perpetual ROSES

Exceptionally hardy and fine for the north, growing 3 to 6 feet high. Unlike the Hybrid Teas, they bloom only once, but in their one great burst of bloom, their lavish display cannot be surpassed.

F. K. DRUSCHKI. Pinkish buds and magnificent, snow white blooms. Not fragrant. Prune it sharply each fall. Each, \$1.15, postpaid.

GENERAL JACK (Gen. Jacqueminot). Rich crimson scarlet, very fragrant, sometimes blooms twice. Each, \$1.25, postpaid.

PAUL NEYRON. Dark lilac-rose to dark pink blooms of immense size, very fragrant. About the largest of all roses. Each, \$1.20, postpaid.

PLANTING CARE Before unpacking your roses, fill a pail half full of soil and add enough water to make mud the consistency of thin paste. Then unpack the roses and place the roots in this mud paste, while you prepare the rose bed. Never leave the roots exposed to the air.

MINIATURE ROSES

Withstand 20° below zero without protection, remaining evergreen all winter. Elegant for edging a bed, the rose garden, walks, pools, driveways, etc., as they are always in bloom.

ROSE ROULETTI. Grows 6 to 8 inches high with many semi-double soft pink roses, less than an inch in diameter, from early summer until frost. Each, from 3 in. pots: 65c; 3 for \$1.75, postpaid.

PIXIE. Plant Pat. 408. The world's smallest double white rose. Shows some pink in cool weather. Each, from 3 in. pots: 75c; 3 for \$2.00, postpaid.

TOM THUMB. Plant Pat. No. 169. Tiny, rich crimson flowers with white centers. 4 to 6 inches. Each, from 3 in. pots: 75c; 3 for \$2.00, postpaid.

APPLE**

SPECIAL

You save through our saving on packing expenses. 1 Bantam Pear, 1 Quintuplet Apple Tree, 1 Polly Hardy Peach, 1 Manchurian Apricot and 1 Nanking Cherry for \$7.75, Express Prepaid.

Jonathan, Yellow Transparent, Wealthy, Red Delicious and Winesap all blossom, bud and bear their tasty apples, all on the one tree! Salzer's Quintuplet Apple yields an abundance of fruit, and makes possible growing these five different apples in the average yard, an impossibility if five different trees were to be planted. **Hardy everywhere in the United States.** Salzer's Quintuplet Apple Tree is a really useful novelty for the small yard.

Strong, thrifty trees, caliper 9/16 in. and up, three year old, 5 ft. and up, with well developed heads. **Price: Each, \$2.49; 3 for \$6.95, prepaid by express.**

SALZER'S Polly Peach

**BEARS AS FAR
NORTH AS
MINNEAPOLIS!**

Now, grow your own peaches no matter where you live! Polly is a hardy free-stone peach that has withstood rigorous winters of 25° below zero, and matured a beautiful crop of large, perfect peaches. Peaches are large, blushed, a few days earlier than Elberta, flesh white, juicy, and richly flavored. Polly is not just for the north, but it is an outstanding variety in the peach sections. Originated by the Iowa Station. Enables the northern part of the U.S. to grow peaches! Strong trees, 7/16 to 9/16" caliper, 3 to 4 feet. **Price: Each, \$1.29; 3 for \$3.65, postpaid.**

SALZER'S Manchurian Apricot

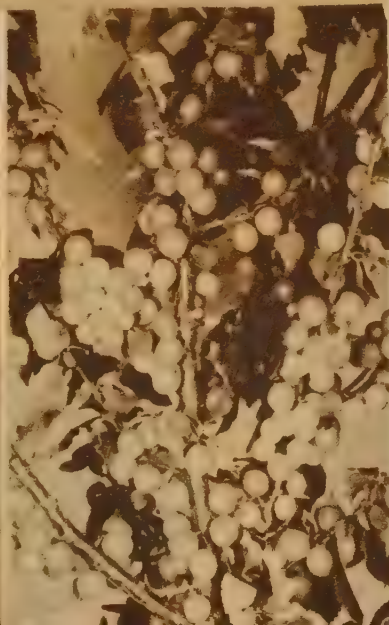

**VERY
HARDY!**

Extremely drouth resistant, having yielded a great crop of fruit in very dry years, and hardy almost anywhere, standing 50 to 60° below zero! Rich yellow, large apricots, elegant either fresh or canned. Ripening right after the cherries and before the early peaches, apricots are one of the most delicious fruits, especially when you can pick them fully ripe from your own trees. They are easy to grow and they also make a handsome shade tree for your lawn, either front or rear. **Price 3 feet and up, 7/16 in. to 9/16 in. cal.; Each, \$1.95; 3 for \$5.65, postpaid.**

SALZER'S Nanking Cherry

**THE
DUAL
CHERRY**

A beautiful shrub for your lawn that bears great crops of fine cherries! Fruit is so abundant it takes but a few minutes to pick a quart or two in your own yard, for making fresh cherry pie, jelly, preserve, or for canning or for freezing.

The shapely bushes grow 7 ft. tall, work well into any planting about the house or among any shrubs. Lovely apple-blossom pink buds appear very early and open to pure white. Nanking starts bearing the 2nd year and by the 3rd season its branches are literally covered with bright red cherries of very fine quality. Does not as a rule need a pollinizer, but for heaviest yields, plant two bushes.

Distinct from Hansen Bush Cherry. Hardy everywhere. Very ornamental as well as producing luscious cherries. **Each, 1½ to 2 ft., \$1.00; 2 for \$1.89; 6 for \$4.45, postpaid.**

**ORNAMENTAL
AS WELL AS
FRUITFUL**

Nanking is hardy, productive and beautiful. The bushes are lovely in the spring when they are a mass of bloom and again in July when they are covered with ropes of red or yellowish red fruit. The fruits have the true cherry flavor.

SALZER'S EVERBEARING STRAWBERRIES

JUNE STRAWBERRIES

STREAMLINER—See inside rear cover.

MINNESOTA 1166 (Evermore)—Fruits in July and again in Fall and on until frost! The berries are firm, large size, rich dark red, attractive appearance, and fine quality. Heavy yielder. Does well on practically all soils and in tests, has outyielded Mastodon. 1200 plants set in April made a record of \$500.00 by Nov. 1 of the same year. Minn. 1166 is distinctly a Northern strawberry and is especially recommended for anyone in cold climates. It is a vigorous, healthy grower and is about the most productive Everbearer. Practically no green tips or spots. Adapted to the North, from the middle States north to Canada and Maine. Good for freezing. 6 for 52c; 12 for 84c; 25 for \$1.39; 50 for \$2.35; 100 for \$3.95; 250 for \$8.35; 500 for \$15.65; 1,000 for \$29.85, postpaid.

MASTODON—The grand old Everbearer! Adapted from the Northern States down to N. C. and Tenn., and never "lets one down!" Perhaps more people in more states grow more Mastodon, and like it, than any other Everbearer. It makes a strong rugged plant, gives a good spring crop, and bears heavily until frost. Large (one of the largest) bright red berries, good quality, and firm enough to truck several hundred miles. Fine for the home. Also, Mastodon gives a splendid crop during the strawberry season, entirely apart from its everbearing qualities. 6 for 48c; 12 for 67c; 25 for \$1.24; 50 for \$2.10; 100 for \$3.45; 250 for \$7.65; 500 for \$13.95; 1,000 for \$26.75, postpaid.

GEM—Heavy fruiting, medium to large berries, rich red color of very fine quality and flavor, does well in almost all soils in all Northern States to Mo., but does best on rich loam. Good plant maker, hence set 16 in. apart in row. Gives a lighter spring crop than Mastodon, but a heavier fall crop. 6 for 49c; 12 for 74c; 25 for \$1.27; 50 for \$2.15; 100 for \$3.65; 250 for \$7.85; 500 for \$14.75, postpaid.

GEMZATA—Berries are unusually large, with rich red flesh all the way through, firm and of fine texture, somewhat irregular in shape. For the North, Canada and Me. to N. C. Succeeds under even adverse conditions. 6 for 57c; 12 for 89c; 25 for \$1.57; 50 for \$2.55; 100 for \$4.15; 250 for \$8.65; 500 for \$16.25, postpaid.

Strawberries cannot be sent
to California or New Jersey.

PREMIER (Extra Early)

—The safe, early strawberry, frost proof! Very productive, excellent for commercial or home use. The early berries bring top prices. Plants healthy and deep rooted. Berries bright red, good quality, medium to large in size, medium to good in firmness. Big yielder. For all Northern and Middle States. 12 for 52c; 25 for 77c; 50 for \$1.27; 100 for \$2.20; 250 for \$4.60; 500 for \$7.95; 1,000 for \$15.25, postpaid.

FAIRFAX (Early)

—Widely adapted North to Middle South. Berries dark red, very sweet, firm, quite productive, ideal for home garden and fancy roadside market. One of the finest; long picking season. 12 for 53c; 25 for 79c; 50 for \$1.38; 100 for \$2.30; 250 for \$4.75; 500 for \$8.50; 1,000 for \$15.95, postpaid.

DUNLAP (Early)—An old stand-by! Berries medium size, bright red, pointed in shape, highly flavored, ideal canner, big yielder. Resists drought and cold weather. Vigorous grower. Middle and Northern states and Canada. Very dependable. Good for freezing. 12 for 45c; 25 for 69c; 50 for 99c; 100 for \$1.75; 250 for \$3.65; 500 for \$6.45; 1,000 for \$11.75.

BLAKEMORE (Early)—Best early shipper for Ohio to Md., lower Middle States and the South. Berries firm, elegant quality, bright red, big yielder, ripen uniformly. 12 for 43c; 25 for 65c; 50 for 93c; 100 for \$1.60; 250 for \$3.45; 500 for \$6.10; 1,000 for \$11.00, postpaid.

CATSKILL (Midseason)—Heaviest producer of any leading variety. Berries very large, good quality, firm, attractive. Canada to Mo. and N. C. Best mid-season. 12 for 60c; 25 for 95c; 50 for \$1.52; 100 for \$2.40; 250 for \$5.25; 500 for \$9.45; 1,000 for \$17.50, postpaid.

ROBINSON (Midseason)—The new June-bearer from Mich.! Fruit large, scarlet-red, conical shape, very firm and glossy, taking a premium on all markets. Has brought \$10.00 for a 16 qt. crate at Chicago! Delicious, and a fine canner. All Northern States. 12 for 60c; 25 for 95c; 50 for \$1.52; 100 for \$2.40; 250 for \$5.25; 500 for \$9.45; 1,000 for \$17.50.

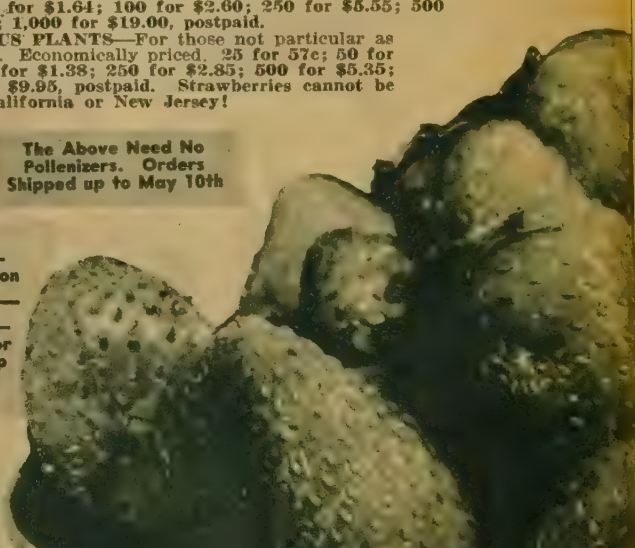

SPARKLE (Midseason)—Resistant to red stele, recommended for New England states. Medium to large, round berries, bright sparkling red. 12 for 64c; 25 for \$1.00; 50 for \$1.64; 100 for \$2.60; 250 for \$5.55; 500 for \$9.95; 1,000 for \$19.00, postpaid.

SURPLUS PLANTS—For those not particular as to variety. Economically priced. 25 for 57c; 50 for 78c; 100 for \$1.38; 250 for \$2.85; 500 for \$5.35; 1,000 for \$9.95, postpaid. Strawberries cannot be sent to California or New Jersey!

THE NEW JUMBO SIZE EVERBEARING

Streamliner STRAWBERRY

MOST MODERN OF ALL STRAWBERRIES

The new jumbo Everbearer, which we offered for the first time last year! Deliciously sweet flavor, actually requiring less sugar, glossy red berries, firm, attractive, and of very large size. Streamliner yields a crop the first summer and fall, and thereafter, every spring, summer and fall, until freezing weather. As berries ripen, they darken to black red; adaptable to all the Northern, Eastern, and Middle States, down to North Carolina; they are conical in shape and are uniformly a large size. Streamliner is tops for shortcake, and for canning, or for freezing. Very seldom does Streamliner have any green tips or spots. Every garden should have some Streamliner. Don't miss it. Has yielded a quart of berries per plant! 6 for 65c; 12 for \$1.05; 25 for \$1.95; 50 for \$3.15; 100 for \$5.85; 250 for \$11.75; 500 for \$20.75; 1,000 for \$39.95, postpaid. Other Everbearers, see preceding page.

SUPERFECTION

Brand new Everbearer, developed by Mr. Kiplinger of Northern Michigan, the last word in Everbearers, offered for the first time! Berries are very large, tend to be round in shape, deep red all the way through, deliciously honey sweet, and of excellent quality, and firm enough for distant shipping. A vigorous grower and a good plant maker. 6 for 93c; 12 for \$1.59; 25 for \$2.85; 50 for \$5.25; 100 for \$9.65, postpaid.

Streamliner Everbearing for Quick Freezing . . .

For freezing, just wrap boxes or a case of Streamliner berries in paper or cellophane. Don't wash—don't prepare! Just freeze. When you take them out next winter, hull them immediately, wash them and they are ready to eat, "sweet as honey." The most delicious strawberry surprise you have ever tasted. The taste test tells.

New Way Strawberry Bed . . .

Mark four parallel rows 18 inches apart. Set plants one foot apart in each row. This bed 25 feet long and 6 feet wide will require just 100 plants, 25 to the row. As young runners develop, allow to take root between mother plants so all plants, young and old, will be spaced approximately 6 inches apart. Keep runners thereafter cut off. Mulch between plants with straw, lawn clippings, leaves, etc.

PLEASE NOTE!

Strawberries cannot be sent to California or New Jersey

DOUBLE MIXED NASTURTIUMS

Beautiful, large double Nasturtiums in a well balanced mixture with a wide color range, including flashing colors of orange scarlet, crimson, gold flushed scarlet, salmon, cerise, yellow, red, orange and maroon!
